

Summary of most important technical services for BIOFACH JAPAN 2025

How is my booked exhibition booth equipped?

Standard booth

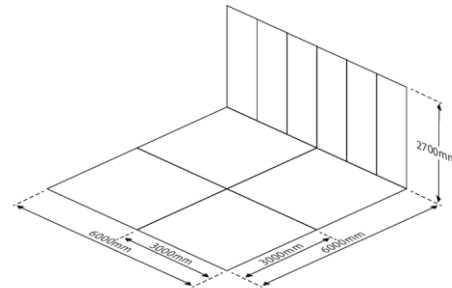

For applications from 1-3 booths (9-27 m²)

Included items

- System panels (Back and side walls)
- Booth Number Board

Carpet, electricity, further rental equipment, etc. is not included.

Spacious booth (raw space)

For applications for 4 booths (36 m²) or more

Just raw space.

Carpet, electricity, further rental equipment, etc. is not included.

What are the costs for electrical connection?

If you wish to use electricity at your exhibition booth, you will need to apply for it.

Electricity usage package (1.0 kW): ¥ 15,730 (incl. VAT)

This optional package allows the use of up to 1 kW of electricity.

Contents of the electricity usage package (1.0 kW):

- 1 power outlet (2 sockets), wired with 1.5 m cable in the booth
- Electrical installation costs (wiring from venue to booth / circuit work in booth)
- Electricity usage fee up to 1.0 kW (last day of move-in + 3 days of the exhibition)

The use of additional power exceeding the basic supply (1.0 kW) will incur in additional fees.

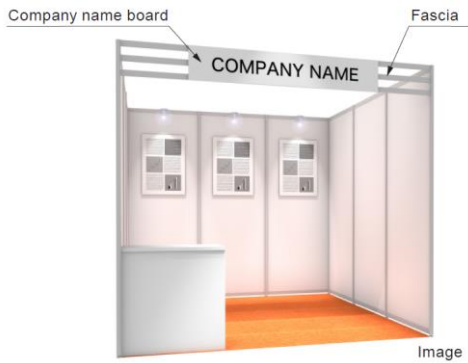

For any further questions regarding electrical connection, please get in touch directly with the official contractor for electricity as follows:

Nakanishi Electric Co.

E-mail: gjf@nakanishidenki.co.jp

The **booth packages** stated on the next page **already include electrical connection and usage fees.**
