

PRESS RELEASE

September 2022

Chillventa 2022: Visit planning made easy

A month from now it will be that time again: From 11 to 13 October 2022, Chillventa, the World's Leading Exhibition for Refrigeration Technology, will draw the international refrigeration, AC, ventilation and heat pump community to Nuremberg. For the duration, eight exhibition halls will host more than 800 exhibitors and their innovative products and solutions in the areas of air-conditioning, ventilation systems, heat pumps, cooling systems, insulation and I&C. The top-level Chillventa CONGRESS will begin on 10 October, the day before the exhibition. In addition, experts from all parts of the world can look forward this year to the most comprehensive supporting programme in Chillventa's history. NürnbergMesse is focusing on the extra service requirements, and is making many tools available to trade visitors to help them to best plan their trip to Nuremberg and their stay in the city.

The state-of-the-art Website **www.chillventa.de** is structured to make it easy to follow, and is available in English and German, offering exhibition visitors much more than just the opportunity to obtain tickets for Chillventa 2022: Tips on travelling to the venue, hotel booking services and all the vital information about exhibitors, products and the supporting programme will enable all visitors to be best prepared before the exhibition begins.

Car, train or plane: The fastest way to the Exhibition Centre

Albrecht Dürer Airport Nuremberg has won the prominent "Business Traveller Award" several times, and thus counts among Germany's best airports. Frequent flyers appreciate the fast processing, short distances and the close connection to the city centre and to NürnbergMesse. Intercontinental flights via Frankfurt and Munich Airports are just a connecting flight or ICE trip away. Nuremberg's underground rail network and taxi services can transport visitors from the airport directly to the exhibition venue in just 25 minutes. National and international long-distance trains connect Nuremberg's Central Station with the rest of Germany and Europe. From there it is just eight minutes by underground rail to the exhibition venue. For those arriving by car, rapid access to several autobahns and Europe's leading traffic and parking control system take the complications out of the journey.

Hotel booking system especially for exhibition customers

Finding the perfect accommodation without time-consuming searches: The booking system developed especially for the needs of exhibition customers offers a selection of partner hotels in Nuremberg and the metropolitan region in the two to five-star segment. Registration is free, and exhibition participants can then benefit from an up-to-date online room booking system, an overview of recent bookings, pre-filled company details to speed up the booking process, and special booking conditions. Book now at:
<https://hotels.nuernbergmesse.de/en/fair/100004>

Discover exhibitors and products in advance

The three days of the exhibition are soon over. Those who do not wish to lose valuable time on-site should thoroughly acquaint themselves in advance with the exhibitor and product database, in addition to the floor plan. Keyword-based searches and filtering options based on type of company, country and new product developments allow visitors to prepare in greater detail. In addition to the company description and the products on display, the exhibitor profiles also contain contact details to enable visitors to arrange appointments in advance. To provide better orientation, the main product groups are colour-coded on the downloadable floor plan.

For all exhibitors and products, see:
www.chillventa.de/en/exhibitors-products

Download the floor plan:

Miss no events: An overview of the rich supporting programme

In 2022, the supporting programme at Chillventa will be the most extensive that it has ever been. That is even more reason to learn what is on offer in advance. In addition to the Chillventa CONGRESS and more than 160 expert presentations in four trade forums (including a new forum dedicated to digitalization), this year there will once again be professionally guided tours and two special presentations on handling flammable refrigerants and also heat pumps. New additions are the Job Corner, the “WorldSkills Competition 2022 Special Edition” professional world championships, and the Federal

Skills Competition. For an overview of the entire supporting programme, see:
www.chillventa.de/en/events-programme

Measures to protect trade fair participants

Ventilation, more regular cleaning intervals and disinfectant dispensers ensure a safe environment for in-person business contacts. Events are not currently subject to official Covid-19 conditions. If necessary, however, official requirements such as masks or social distancing may be imposed again at any time depending on the incidence of infections. NürnbergMesse is in regular consultations in this regard, and constantly updates its protective measures on-site in line with the current situation. Trade visitors should therefore regularly review the latest state of developments and check again shortly before attending events:

www.chillventa.de/protective-measures

Purchasing tickets and redeeming vouchers: online only!

Chillventa day tickets (EUR 29), unlimited access tickets (EUR 41), CONGRESS tickets and other special tickets are available only online in advance via the ticket shop. Vouchers can be redeemed in the voucher shop. Reserve your ticket now at:
www.chillventa.de/en/visit
