

Nuremberg, Germany  
16 – 18.1.2024

# EUROGUSS 2024

International Trade Fair for Die Casting:  
Technology, Processes, Products

## Talents wanted! EUROGUSS Talent Award

Attention: For the upcoming EUROGUSS 2024, we are again looking for the best young talents. Bachelor's and Master's theses related to an innovation, improvement or new applications in die casting along with its entire value chain will be honored. Students of non-foundry engineering courses are therefore also explicitly invited to enter.

**You have written your bachelor's or master's thesis in the field of foundry industry?**

Then simply apply now with your abstract until October 31, 2023!

### Participation requirements:

- Abstract of a bachelor's or master's thesis completed after January 2022
- Topics: New impulses, ideas or further developments for the foundry industry e.g. as well from the fields of artificial intelligence, industry 4.0, software, sustainability.

### Application and further information at:

### Winning package for the top five submitters:

- Presentation of the work at EUROGUSS 2024
- Payment of travel expenses (including flight, if applicable) and overnight accommodation on site in Nuremberg
- Publication of an interview at EUROGUSS 365
- Invitation EUROGUSS 2024 in Nuremberg incl. the supervising teacher

### The winners of the EUROGUSS Talent Award will additionally receive:

- 1st place: **1,500,- EUR**
- 2nd place: **750,- EUR**
- 3rd place: **500,- EUR**

### Additional prize for the winner of the EUROGUSS Talent Audience Award:

iPad (32 GB) incl. Apple Pencil
