## 5. Admission/Stand space confirmation

See item 2 of the General Conditions for Participation in Fairs and Exhibitions. Cancellation after receipt of the stand space confirmation is governed by item 7 of the General Conditions for Participation in Fairs and Exhibitions.

## 6. Approved exhibitors and visitors, approved exhibition goods

### 6.1 Approved exhibitors and visitors

The event is aimed at exhibitors and visitors from NATO, EU and EEA countries. Exhibitors from other countries may be admitted if this is expedient for the best possible realisation of the exhibition concept and a high quality of the event, does not conflict with security or export control regulations or other legal requirements and does not impair the legitimate interests (e.g. security, secrecy and confidentiality interests) of the other exhibitors and visitors. NürnbergMesse shall decide on admission at its reasonable discretion. Exhibitors from countries subject to an arms embargo imposed by the European Union or the Federal Republic of Germany may not be admitted.

### 6.2 Exhibitors, age limit

Admissible as exhibitors are: manufacturers, importers, wholesalers, representatives and publishers, domestic and foreign, offering only those products and services that can be assigned to the product groups provided. All exhibition goods must be described in detail in the application. Products (copies, counterfeits, etc.) that violate the regulations for the protection of industrial property rights in Germany are not admitted.

**Individuals under 18 years of age are not admitted to the exhibition.**

### 6.3 Admissible exhibits

The exhibitor acknowledges the legal firearms regulations in force at the place of exhibition and the conditions stated below and agrees to comply with same. In case of contravention in spite of a written request to desist, the organizer is entitled to exclude the exhibitor from the current and the next Enforce Tac.

**The following may be exhibited:**

- Arms and products that agree with the specified product groups and the theme of Enforce Tac as law enforcement and defence exhibition. In case of doubt, the exhibition management decides on the admissibility of a product.
- "Prohibited arms and articles" (as per German Firearms Act).  
Presentation is only possible if in possession of relevant special permission from the Federal Criminal Investigation Office.  
It is expressly pointed out that
  - lamps specifically designed for mounting on firearms,
  - lamps (usually torches) associated with a suitable device for mounting them on guns and
  - separate devices for mounting of lamps on gunsare PROHIBITED by the German Firearms Act. This is also valid for the production, import and holding.  
It is irrelevant whether or not such a device and/or lamp is already mounted on a gun. The type of gun on which the device and/or lamp is to be mounted is also irrelevant, i.e. the ban not only applies to firearms requiring a license, but also to air guns, spring-operated guns, CO2 guns and airsoft guns.  
It is also pointed out that fully automatic firearms that are not military weapons are also classified as prohibited by the German Firearms Act; firearms for this purpose also include fully automatic airsoft, CO2, air or other kinds of spring-operated guns as listed above with a kinetic energy of more than 0.5 joule.  
Approval by the Federal Criminal Investigation Office for the presentation of relevant firearms and articles at Enforce Tac 2026 that are prohibited by the German Firearms Act can be applied for via the exhibition management.

- Presentation of weapons classified as military weapons in Germany by the Military Weapons Control Act (German KrWaffKontrG) is possible only with relevant approval by the responsible German authorities, in particular by the Federal Ministry of Economic Affairs and Climate Action, Department EC6 – Military Weapons Control.
- Airsoft guns, including those that resemble fully automatic military weapons.
- License-free individual parts of firearms rendered unusable, prohibited firearms and military weapons.
- Vehicles that agree with the theme of Enforce Tac as a law enforcement and defence exhibition. This includes armoured vehicles as well as military vehicles. In case of doubt the exhibition management decides and/or reserves the right to exclude unsuitable vehicles from participation, even at short notice. Presentation is possible with the relevant permission from NürnbergMesse GmbH.

### 6.4 Trade visitors, age limit

The exhibitor agrees to attract visitors only from the following sectors: official agencies and institutions of the police, customs, judiciary, armed forces and specialist authorities. Proof of the right to admission must be provided. NürnbergMesse is entitled to admit other visitor target groups, if applicable to a limited extent and in a manner that does not adversely affect the official agency nature of Enforce Tac.

**Persons under 18 years are not admitted to the exhibition.**

### 6.5 Direct selling, delivery and handling of exhibits

**The delivery or handing over of exhibits is prohibited.** In the event of contravention of this rule in spite of a warning being given, the organizer shall be entitled to exclude the exhibitor from the current and next Enforce Tac. It is emphasized that the direct sale, delivery or handling (also as gifts or loan) of guns, ammunition and cut and thrust weapons is not only a violation of the Conditions for Participation in Enforce Tac, but also constitutes an offence against the applicable statutory firearms regulations of the Federal Republic of Germany (§ 52 Clause 1 No. 3 of German Firearms Act) and must be punished by penal prosecution.

### 6.6 Ranges and targets

The intended operation of a shooting range – regardless of type – must be notified in writing to the exhibition management with the application to exhibit.

### 6.7 Prevention of theft, gun security, stand manager

Please note that suitable measures must be implemented to protect arms against theft and unauthorized access at all times of the day, expressly also during the running show, and night. The presentation of arms is to be arranged to allow observation by stand personnel at all times.  
Valuable goods and especially arms requiring licences under German firearms law must be kept locked away at night.  
It is expressly pointed out that particularly products requiring licenses (e.g. guns and ammunition) must be protected against theft 24 hours a day.  
Firearms requiring licences must be mechanically secured with steel cables (this kind of protection must also be used for guns in showcases or similar). The actual steel cables (if necessary with plastic sheath) and not just the plastic connecting pieces (e.g. cable binders) must be connected to the gun. The permanent presence of stand staff is no substitute for mechanical locking devices. In case of inadequate security the organizer reserves the right to charge the costs incurred to the exhibitor.

## 12. Stand design, stand mentoring

### 12.1 Stand design

The exhibitor is responsible for stand equipment and decoration.

**The overriding principle for the design of all exhibition stands is transparency. All open sides** of the stand must be freely accessible. This means that at least **50%** of the respective gangway side must **not** be obstructed **by structures** or fittings.

**The minimum height is 2.50 m.**

The backs of stand partition walls, advertising carriers or other design elements facing neighboring stands and exceeding a height of 2.50 m must be white, in a clean and tidy condition and must not contain any text or graphics.

**Stands exceeding the height of 3.50 m require the approval of the organizer.**

If the rental exhibition stand is not used, a fascia (0.30 m high) must be fitted on all open sides of the exhibition stand. The fascia is not required, if the necessary stand appearance is provided in some other way.

The exhibition organizer reserves the right to give further instructions concerning the design of stands.

Only water-soluble adhesive may be used on the fiber board stand partition walls and these may not be painted unless they have first been covered with wallpaper. After the exhibition, wallpaper or other finishing material must be removed by the exhibitors, otherwise exhibitors will be charged with the costs. All other stand partition walls, floors, hall walls, pillars, installations, fire-fighting equipment and other permanent hall fixtures must not be pasted over, nailed, painted or damaged in any way.

The exhibitor is liable for damage done and will be charged with the costs.

Pillars, installations and fire-fighting equipment within the stand are part of the allotted stand space and must be accessible at all times.

Floor coverings in the stands are only to be fixed with double-sided adhesive tape (following tapes are to be used: tesafix no. 4964).

**The exhibitor agrees to comply with these conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.**

Vehicle areas are for the pure presentation of vehicles. The following additional equipment is permitted (exclusive): carpet, table, chairs, advertising flags, banner up, or similar. If elaborate stand construction is to be used, this is not possible via vehicle areas.

### 12.2 Stand mentoring

**No dismantling of exhibition stands and/or disposal of products (except patterns, samples and promotional give-aways) before the end of the exhibition)**

The exhibition ends at **16:00** on the last day.

Until this time, every exhibitor agrees

- to man his stand space with his stand personnel
- not to hand over products to interested persons (except patterns, samples and promotional give-aways)
- not to start dismantling the exhibition stand

The organizer can impose a contract penalty on the exhibitor for each case of contravention. **The contract penalty amounts to 20% of the net stand rental, subject to a minimum of EUR 2,000.** The organizer also reserves the right to exclude the exhibitor from exhibiting at future Enforce Tac exhibitions.
