# MEET THE INTERNATIONAL HEAT PUMP COMMUNITY!

Heat pump experts from all over the world will come together again in Nuremberg at the European Heat Pump Summit. The combined Congress and Foyer Expo is the ideal setting for dialogue between prestigious speakers and international decision-makers in the industrial, commercial, and R&D environments. Take advantage of attractive presentation options at this important forum for the heat pump sector.

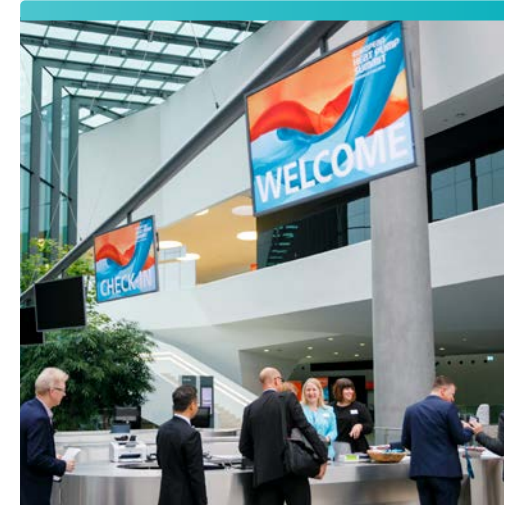

Apart from exploring innovative technologies in component manufacturing and the use of heat pumps (including high-capacity heat pumps) in commercial and industrial applications, the summit will also focus on a wide range of other topics such as refrigerants, the use of hybrid systems, high-temperature heat pumps, and the use of heat pumps in existing buildings.

As part of the accompanying Foyer Expo, you will also have the opportunity to present your solutions and product innovations to a high-calibre audience of industry professionals. Take advantage of this opportunity to engage in direct dialogue and discussions with industry experts!

**Don't miss out when international experts from the R&D community and industrial practice come together at the European Heat Pump Summit powered by Chillventa.**

**Reserve your place now!**
