

# FeuerTrutz 2025 Nürnberg, Germany 25.–26.6.2025

Internationale Fachmesse mit Kongress für vorbeugenden Brandschutz  
International Trade Fair with Congress for Preventive Fire Protection

PRESS RELEASE

January 2025

## Huge interest in FeuerTrutz 2025: Secure one of the last remaining stands now!

The International Trade Fair with Congress for Preventive Fire Protection offers the most comprehensive overview in Europe of all the latest trends and innovations in fire prevention and fire containment. Before FeuerTrutz 2024 had even finished, around 130 exhibitors had already booked their stand again for 2025 – a powerful indication of the importance of this trade fair for the fire protection sector. From 25–26 June, it will finally be time for FeuerTrutz 2025 at the Exhibition Centre Nuremberg. Although 85% of the display area has already been booked, prospective exhibitors still have the chance to secure one of the last remaining stand spots.

The largest ever edition of FeuerTrutz in 2024 has left its mark: The exhibitors were so satisfied with their success at the event that there has been a major rush to book spots for the 2025 round of what is the only European trade fair with congress to cover active, passive and organisational fire protection solutions. “At this time, six months ahead of the event, well over 200 exhibitors have made a firm commitment to attend FeuerTrutz 2025. We are again expecting two fantastic trade fair days with a great atmosphere, interesting discussions and a wealth of experiences. I am especially looking forward to the enhanced programme features, specifically the FeuerTrutz Arena, which will play a key role by offering more opportunities for knowledge-sharing and mutual exchanges. We recommend that any exhibitors who have not registered yet should act quickly to make sure of their spot at the fair,” says Stefan Dittrich, Director of FeuerTrutz at NürnbergMesse.

## Supporting programme set to be a major crowd-puller

With the Exhibitor Forum, Fire Protection EXPERIENCE, ASECOS Academy and PRACTICAL GUIDE TO DIGITISATION Forum, the supporting programme has always been a major drawcard for visitors in recent years. This is hardly surprising, because the practice-driven programme is tailored precisely to the questions and needs of the fire protection community and complements the exhibitor stands by offering visitors the opportunity to add to their professional expertise. Alongside familiar and popular highlights, the former Exhibitor Forum will be revamped in 2025 to become the “FeuerTrutz Arena”. Featuring discussion panels, presentations and get-togethers, the FeuerTrutz Arena provides a platform for dialogue between exhibitors and visitors on the topic of preventive fire protection and is sure to be a major attraction.

## Highlights of the co-located Fire Protection Congress

The Fire Protection Congress organised by RM Rudolf Müller Medien GmbH & Co. KG is the largest and most diverse professional development event for the sector. In 2025 it will again take place parallel to FeuerTrutz at Exhibition Centre Nuremberg. This year, the 40 presentations (German only) by industry experts will include the following topics:

- Fire protection concepts: practical knowledge for fire protection designers and auditors
- Fire protection in existing buildings: Challenging requirements call for customized solutions
- Fire protection for timber structures: The new model being put to the test
- Companies: Fire protection must be organised
- Fire-fighting equipment: new solutions and concepts
- Building products: Explaining the certification jungle
