5. Logistics via TransITfair

Intelligent and dynamic delivery logistics for your trade fair exhibit:

Bringing exhibition logistics to a new level. To ensure better planning and coordination of the assembly and dismantling phases with fewer waiting times and more flexibility, all vehicles that enter the exhibition center are pre-registered via our digital tool **TransITfair**. With **TransITfair** you book your time slots for loading and unloading your vehicles to improve your planning and gain transparency and efficiency for assembly and dismantling.

This is how it works:

- register yourself at : <https://nuernbergmesse.transit-fair.com/>
- As soon as you have created an account you register your vehicles for the assembly and dismantling times and book your time slots for loading and unloading.

Attention: For Trucks longer than 10 meters booking a relevant forklift is obligatory.

- On the date of assembly/ dismantling the drivers of vehicles over 7 meter length have to check in at the lorry car park „Poststraße“. For this please follow the directions on the plan on page five of this document. All other vehicles have to check in at the registration point on the „Große Straße“. To access this area please follow blue route seen on the plan “delivery traffic” found on page four of this document. After check in the driver receives a confirmation of the time slot with directions to the designated loading yard.

- Vehicles of more than 7 m length: As soon as your time slot is available, the driver receives a call up (SMS / E-Mail) to proceed to the exhibition center.
- Vehicles up to 7 m length: As soon as your time slot is available, please proceed to the exhibition center autonomously.

Attention: Please respect the booked time slot. An earlier access to the loading yards will not be permitted!

- The vehicle may then enter the exhibition center via the designated gate and will be instructed to the correct parking position by our staff on site.

Attention: The permit to enter the exhibition center is only valid for the driver. Further persons in the vehicle need to possess assembly- and dismantling passes or must be registered via our Service Ticketing Portal.

- After successful loading / unloading within the respective time slot the driver checks out at the gate and leaves the exhibition center.

Attention: On the last day of, GaLaBau 2026 (18.09.2026) vehicles may not enter the loading yards due to the delivery of empty containers by the trade fair forwarding agents.

Attention: Trucks longer than 10 meters may enter the loading yards on 19.09.2026 the earliest.

6. Delivery for the action areas

The regulations on this page are only relevant for those exhibitors who occupy an area in the Silberseepark.

The asphalt path in Silberseepark is the property of the City of Nuremberg and may only be used by non-tracked vehicles up to a maximum of 16 tons.

During the opening hours of the exhibition, vehicles may not be driven on the paths within the action areas. Deliveries to the action areas are made via Gate 5 on Grosse Strasse. Please note that the side access road from Münchener Straße may not be used for deliveries! This will be closed during the set-up and dismantling periods, as well as during the duration of the trade fair. All vehicles (larger than 7m in length) cannot drive directly onto the action areas and must be unloaded in the loading yard of Hall 12! If you have special delivery requirements, please contact us in good time at: galabau@nuernbergmesse.de

As with the other loading yards, it is also necessary to book entry slots for the promotional areas via the digital trade fair logistics system TransITfair. To book, please select the designation of your promotional area (e.g. Em1, Eo1, Pf1 etc.) instead of your stand number.

7. Parking with cars (S- + M-Size)

During assembly and dismantling:

During assembly and dismantling cars can be parked on the following parking areas free of charge:

- Große Straße
- Parkdeck Süd
- P-Süd-Ost

During the opening days of the exhibition

During the exhibition, exhibitor parking spaces are available for a fee at the following areas:

- Große Straße
- Parkhaus Große Straße
- Parkdeck Süd
- P-Süd-Ost
- Stadionvorgelände

Permanent parking tickets can be purchased in the [online exhibitor shop](#).

One-day parking permits can be purchased on site from our service guards.

Please note the opening times of the multi-storey car park.

It is ensured that cars can exit from the multi-storey car park around the clock.

8. Parking with trucks (L- + XL-Size)

During assembly and dismantling:

After successful loading and unloading you can park your truck at the lorry car park in the Poststraße within the opening hours.

During the opening days of the exhibition:

The permanent parking permits are only valid for cars. During the fair, trucks, trailers, vans/pick-ups, swap bodies, carvans and camper vans must not be parked on the areas designated as car parks or in the loading yards of Exhibition Centre Nuremberg or on the road called „Grosse Straße“

During the fair these vehicles can be parked on the designated truck parking areas free of charge (limited availability). Access routes to these parking areas, which are just a few minutes drive from the exhibition centre, are signposted and are also shown on the direction maps issued at the loading yards and attached to this letter.

From Sunday, 06.09.2026 until Tuesday, 15.09.2026 and from Friday, 18.09.2026 until Monday, 21.09.2026 there is a shuttle bus to and from the truck parking areas. This shuttle service is available from 07am to 07pm. If you need the shuttle service please contact our service guards at the gate.

The organizer is entitled to remove any vehicle parked on the car parks of the exhibition grounds or in the loading yards at 02am in the morning before the first day of the event at the vehicle owner's or user's cost.

The exhibitor undertakes to ensure that third party firms engaged by the exhibitor, such as trade fair service companies or forwarders, also adhere to these regulations. **Please pass on the attached documents accordingly.**
