HOLZ-HANDWERK

Europäische Fachmesse für Maschinenteknologie und Fertigungsbedarf
European Trade Fair for Machine Technology, Equipment and Supplies for the Wood Crafts

PRESS RELEASE

April 2025

Successful start to registration for HOLZ-HANDWERK 2026: Important key players back again

“Discover. Experience. Do.” Under this motto, HOLZ-HANDWERK will once again open its doors to carpenters, joiners and cabinetmakers from 24 to 27 March 2026 – as usual co-located with FENSTERBAU FRONTALE. The registration phase for exhibitors is already underway. Numerous exhibitors from 2024 and previous years are showing their loyalty to the leading European Trade Fair for Machine Technology, Equipment and Supplies for the Wood Crafts. Important key players will be making their comeback in 2026.

In January 2025, HOLZ-HANDWERK entered the registration phase for the next event in 2026 with great success. A large number of well-known exhibitors remain loyal to the leading trade fair for machinery, tools, materials and system solutions for the woodworking and wood processing trade, including important key players.

Stefan Dittrich, Director for HOLZ-HANDWERK, is delighted with the strong response: “The foundations have been laid for a successful HOLZ-HANDWERK 2026. We are very pleased with the return and loyalty of our exhibitors. With their innovations and new products, they make a visit to the trade fair a unique experience and actively help shape the industry. It is important and trend-setting that we look to the future together with the community, exchange ideas and network with each other.”

„As VDMA, we are very proud that German and European machine and tool manufacturers have made a clear commitment to participate in the upcoming HOLZ-HANDWERK. We assume that the investments made by the German government’s economic stimulus package will help to significantly improve the framework conditions for 2026,” adds Dr. Bernhard Dirr, Managing Director of the VDMA Woodworking Machinery Association.

HOLZ-HANDWERK

Europäische Fachmesse für Maschinentechnologie und Fertigungsbedarf
European Trade Fair for Machine Technology, Equipment and Supplies for the Wood Crafts

Preliminary exhibitor list

An initial overview of the exhibiting companies at HOLZ-HANDWERK 2026 is now [here available at the website](https://www.holz-handwerk.de/en/exhibit). A strong presence from the machinery, software, power tools and suppliers/fittings sectors is already apparent. Companies still have the opportunity to register their stand space at <https://www.holz-handwerk.de/en/exhibit>.

HOLZ-HANDWERK Arena planned

An extensive supporting program is also being finalized. The new HOLZ-HANDWERK Arena will be a multifunctional area providing space for get-togethers, presentations, discussion panels and best practices. “We want to offer the industry a stage with an experiential character,” says Dittrich. “The HOLZ-HANDWERK Arena will create ideal conditions for presenting forward-looking trends and technologies.”

Continuation of the co-location

HOLZ-HANDWERK will take place for the 22nd time from 24 to 27 March 2026 and is organized by the VDMA Woodworking Machinery Association and NürnbergMesse GmbH. The co-sponsor of the event is the Bavarian Carpentry Association (FSH Bayern). The foundations have been laid for a successful start to HOLZ-HANDWERK in co-location with FENSTERBAU FRONTALE 2026. Many key players have also already registered for FENSTERBAU FRONTALE. The event space of the world’s leading exhibition for windows, doors and facades is already very well booked. In 2024, both trade fairs recorded a total of around 75,000 visitors and 973 exhibitors from the woodworking and wood processing, window, door and facade construction sectors. Once again, both trade fairs can be visited simultaneously with a single ticket.
