

IMPORT OF “PROHIBITED FIREARMS AND ARTICLES” FOR EXHIBITION PURPOSES

Please check the products that you and if applicable, your co-exhibitor wish to present at IWA OutdoorClassics to see whether they are classified as “prohibited firearms and articles”. A special licence from the Federal Criminal Police Office is required for the temporary import of these for the purpose of exhibiting.

- ▶ Please read the list of prohibited items in accordance with the Firearms Act of the Federal Republic of Germany carefully and check whether your products fall under one of the categories which require a special permission.
- ▶ Military weapons and products in accordance with the Military Weapons Control Act (KrWaffKontrG) and any fully automatic firearms may not be exhibited at IWA OutdoorClassics (if you are also an exhibitor of Enforce Tac, please refer to the separate Enforce Tac weapons information). Firearms that have been rendered inoperable (whether military weapons or not) and converted into decorative weapons are also not permitted.
- ▶ For the presentation of “prohibited firearms and articles” at the Enforce Tac, you will receive separate information.
- ▶ If your products fall under one of the categories, please complete the application for special permission.

INFORMATION ON THE APPLICATIONS

- ▶ Deadline for your applications: **24.01.2025**
- ▶ Duration until approval: up to 4 weeks – submit your applications in good time to ensure punctual export!
- ▶ Costs per application: **220€**
 - The fee is charged when the application is submitted, regardless of whether the permit is granted or not, whether the application does not contain prohibited items or whether the application is withdrawn by the exhibitor at a later date.
 - If the **products are changed** or **additional products** are added, the costs of the application will be charged again. Therefore, do not submit the application until you know exactly which products you want to exhibit in the end.
- ▶ Express surcharge of **€100** per application from **25.01.2025**, with no guarantee of faster processing.
- ▶ Express surcharge of **€200** per application from **07.02.2025**, with no guarantee of faster processing.
- ▶ Applicants resident in Germany pay the fee directly to the Police Criminal Investigation Office in accordance with the information in the exemption permit.
- ▶ Applicants not resident in Germany will receive an invoice from NürnbergMesse GmbH.

Notices:

- The permission applies only to use on the stated exhibition stand. If the guns are to be used for demonstration in special areas, this requires special permission from the Police Criminal Investigation Office and the approval of the exhibition management.
- The quantity is limited to **maximum 2 per type or version** as the importation of these products is permitted only for the purposes of exhibiting them at IWA OutdoorClassics 2025. Exceptions (larger quantity) are possible, but reasons must be given under iwa@nuernbergmesse.de.
- Please send photos or further information on your submitted weapons/products in addition to the application under iwa@nuernbergmesse.de.
- German exhibitors without BKA approval must state the origin and whereabouts of the firearms and articles in the application for approval.
- Firearms that have been rendered unusable, regardless if they are military weapons or not, or have been converted to decorative weapons are not permitted at IWA OutdoorClassics and may not be exhibited. Due to the new standards for the conversion of firearms into decorative weapons (necessary marking, acceptance and testing by a firearms office, with corresponding certification) for their demonstration, aiming devices etc. must not be attached to deactivated firearms, but rather on so-called red or blue guns or on plastic replicas.
