4. Contractual terms

5. Admission/Stand space confirmation

Item 2 of the General Conditions for Participation in Fairs and Exhibitions is supplemented as follows: A binding order for stand space is made by the exhibitor returning the completed Online Application form. If the organizer has sent the exhibitor a suggested stand position and this is confirmed by the exhibitor, the rental contract between the exhibitor and the organizer will be concluded on confirmation of the stand space by the organizer. If the organizer has not sent the exhibitor a suggested stand position or the position suggested by the organizer is not confirmed by the exhibitor and the content of the confirmation of admission differs significantly from the content of the application form, the rental contract will be concluded according to the stand space confirmation, unless the exhibitor objects in writing within 2 weeks after receipt of the confirmation of stand space.
If the exhibitor requests a stand position other than stated in the stand space confirmation, a processing fee of EUR 250 will be charged.
Cancellation after receipt of the stand space confirmation is governed by item 7 of the General Conditions for Participation in Fairs and Exhibitions.
Further more the organizer may position similar groups of exhibitors separately in the interest of the exhibition concept.

6. Exhibitors and approved exhibition goods

Admissible as exhibitors are: manufacturers, importers, wholesalers, sales representatives and publishers, domestic and foreign, offering only those products and services that can be assigned to the product groups provided. All exhibition goods must be described in detail in the application. Products (copies, counterfeits, etc.) that violate the regulations for the protection of industrial property rights in Germany are not admitted.
In order to maintain the high quality of the event, the organiser has defined maximum areas as a percentage of the total available area for each country. If this country-specific maximum area is exceeded, registrations from this country may be rejected by the Organiser insofar as this is suitable and expedient in order to distribute the available total area among the exhibitors if the total area available for the event is exceeded by the registrations. This also applies to international sales branches of companies or co-exhibitor registrations from the countries concerned. Registrations are allocated to the country in which the exhibitor's registered office is located. If individual countries do not utilise their maximum area, this free area will be credited to the other countries in proportion to their respective maximum areas. Which exhibitors are admitted or rejected in these cases shall be decided by the Organiser at his reasonable discretion. The Organiser's aim is to ensure the best possible implementation of the trade fair concept and a high quality of the event (in particular the best possible representation of the market and new and innovative products). The Organiser shall also take into account the legitimate interests of exhibitors and visitors when making its decision.

If the exhibitor enters a different invoice address on the application form, he authorizes the stated person/company to receive the invoice and other payment requests. This does not exempt the exhibitor from his obligation to pay. The issue of an invoice to an invoice addressee who is not the contractual partner or recipient of the service is only admissible if the invoice clearly, explicitly and verifiably indicates who the actual recipient of the service is and that the invoice addressee is only the postal address of the invoice. For this reason, NürnbergMesse on behalf of the organizer has issued the invoice c/o the invoice addressee you have stated, cf. Section 14.5 Para. 3 p. 1 ff. of the German VAT Implementation Decree (UStAE).
