

Turnkey VDI Solution

Task

Customer

- ✓ IQ Biometrix Inc., US based company
- ✓ Enforcement and security technology solutions for government and private industry
- ✓ Recognition software for 50,000 members of police forces, security agencies and military worldwide
- ✓ 300,000 users in education sector
- ✓ FACES allows the user to create and re-create billions of human faces
- ✓ Software is available as physical download and install on end devices
- ✓ Used by front-line staff

Task

Challenges

- ✓ Looking for simple alternative to deploy IT solution, quick to access, uncomplicated updating and support
- ✓ Immediate availability of the solution
- ✓ Live creation of phantom images that can quickly bring criminals to justice
- ✓ IT solution to fulfil strict data compliance standards such as NIST and reliable protection from malicious cyber activities
- ✓ The solution needs to meet regional data protection regulations in different countries

Task

- ✓ Perfect Fit with OVHcloud and oneclick™
- ✓ Operating in five continents
- ✓ Turnkey managed SaaS solution
- ✓ Saving millions of Euros in redevelopment its software as web application
- ✓ Enabled the vision of a global cloud offering
- ✓ New cloud version of Facial Composites software is already available
- ✓ UK law enforcement agency as first customer
- ✓ OVH and oneclick™ are European companies with a local infrastructure in the UK
- ✓ OVH's certifications such as ISO 27001, C5 and G Cloud, an initiative targeted at easing procurement by public-sector
- ✓ The solution from the two partners was more cost-effective compared to offers from the big three hyperscalers

A European Leader with Global Presence

To empower people with the freedom to achieve their ambitions

- ▶ We are an alternative cloud
- ▶ We believe in open standards and being part of an ecosystem of collaborative actors
- ▶ We believe in freedom to build and innovate
- ▶ We are global but strive to be multi-local
- ▶ We are committed to environmental sustainability and social responsibility

A holistic Solution for Application Delivery

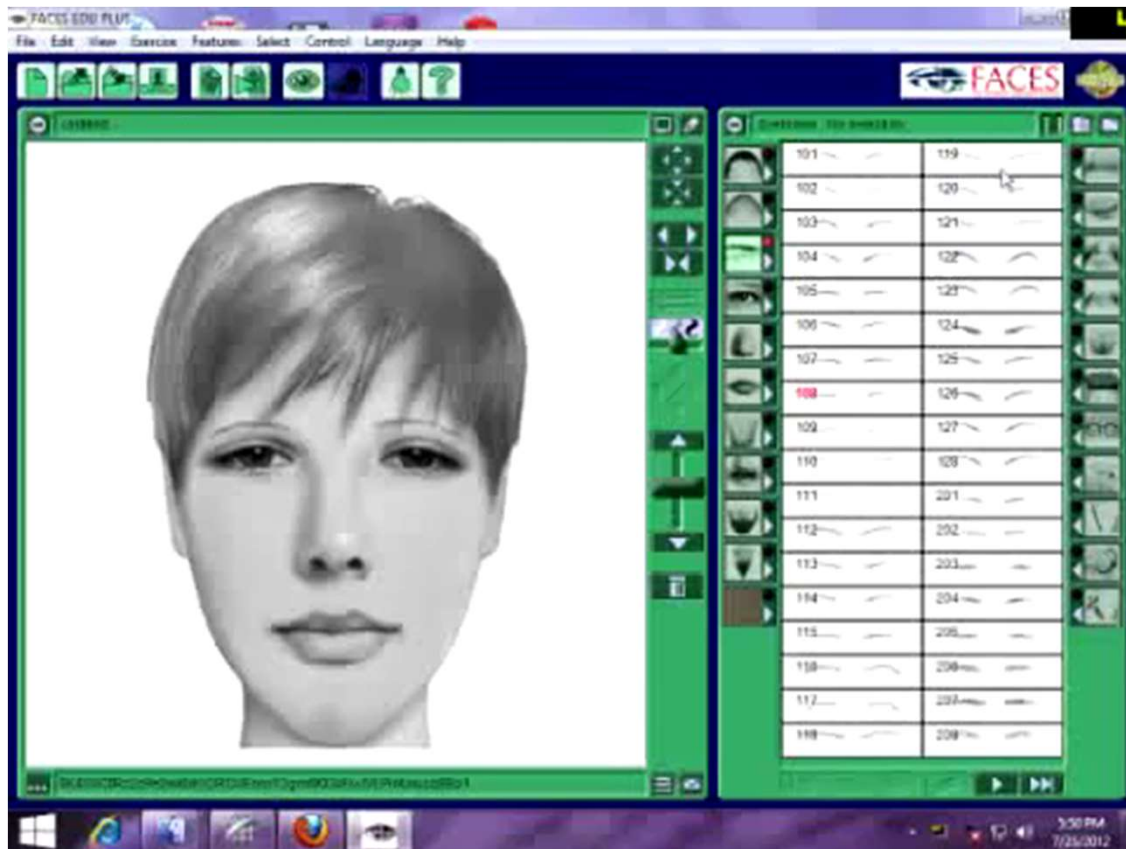

- ✓ Interface from oneclick™ to OVHCloud
- ✓ Extensive orchestration features, implementation of hybrid models (with on-premises, web apps)
- ✓ Uniquely designed and highly secured intermediary and separation layer between all users and corporate resources: <https://oneclick-cloud.com/en/cloud-dmz-zero-trust-security/>
- ✓ Delivery of applications as a direct link or in a unified workspace in the browser (100% web-based)
- ✓ No endpoint and mobile device management needed
- ✓ Integration of different identity providers (SSO)

A holistic Solution for Application Delivery

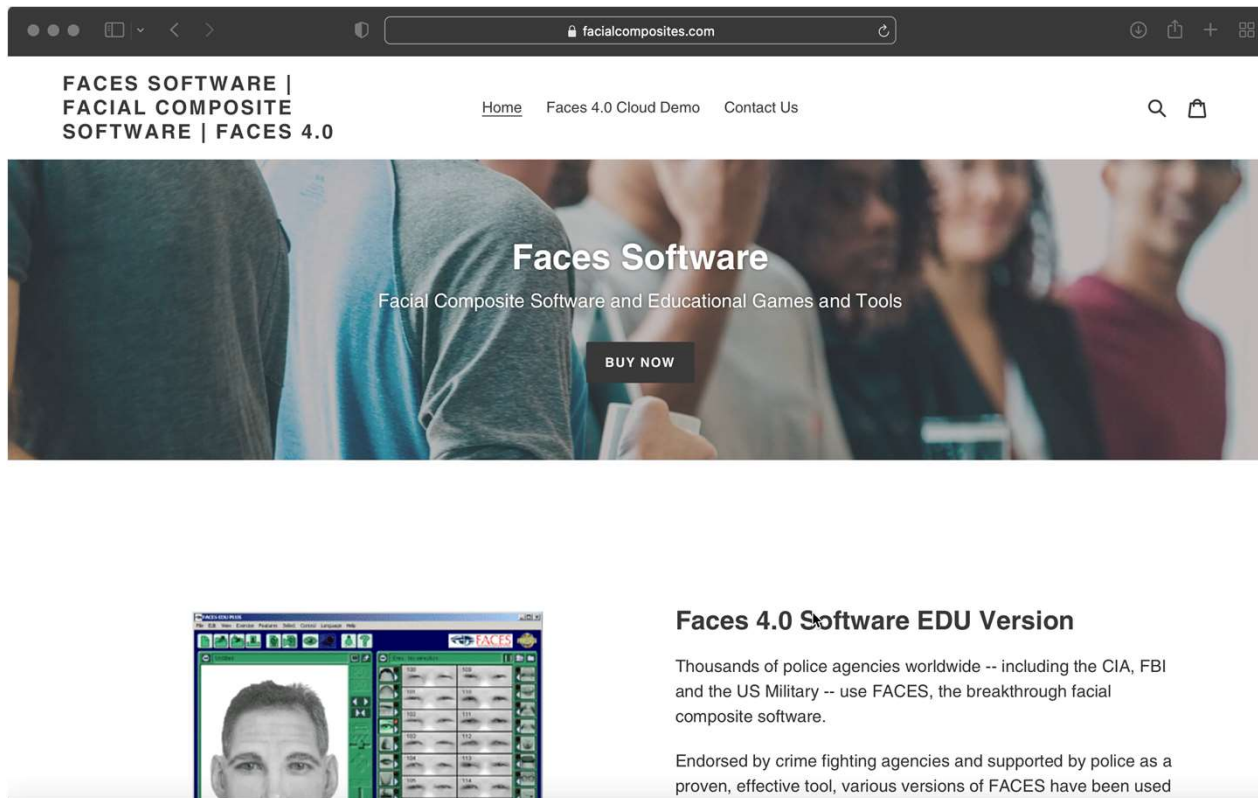

- ✓ Integration of a host into a domain
- ✓ Set up Active Directory and multi-user environment
- ✓ Create security posture, including hardening rules
- ✓ Install and rollout applications (updates, images)
- ✓ Establish remote access solution (VPN, device binding)
- ✓ Onboard users (in Windows, other systems)
- ✓ Identity management and multiple logins
- ✓ Windows updates and patches

Faces Software in action

The screenshot shows a web browser window with the URL facialcomposites.com. The page header includes the text "FACES SOFTWARE | FACIAL COMPOSITE SOFTWARE | FACES 4.0" on the left, a navigation menu with "Home", "Faces 4.0 Cloud Demo", and "Contact Us" in the center, and search and shopping cart icons on the right. The main content area features a large banner image of a group of people with the text "Faces Software" and "Facial Composite Software and Educational Games and Tools", along with a "BUY NOW" button. Below this, there is a section titled "Faces 4.0 Software EDU Version" with a small image of the software interface showing a face being constructed from a grid of features. The text describes the software's use by law enforcement and educational institutions.
