BUT WHY?

The internet holds many answers…

… but most of the time I have only a few questions!

- How **much** does $VULN **affect** me?

- Can I **afford** to **patch** tomorrow/next week/next month?

- I **can't** patch this system/application, how **much** of a **risk** is this?

- Dear **auditor**, I did this and the **reason** is…

Focus on the things relevant to **YOU**!
