

One does not simply walk into my network

The Cloudflare global network

250+

cities in 100+ countries,
including mainland China

11,000

networks directly connect
to Cloudflare, including ISPs,
cloud providers & large enterprises

155 Tbps

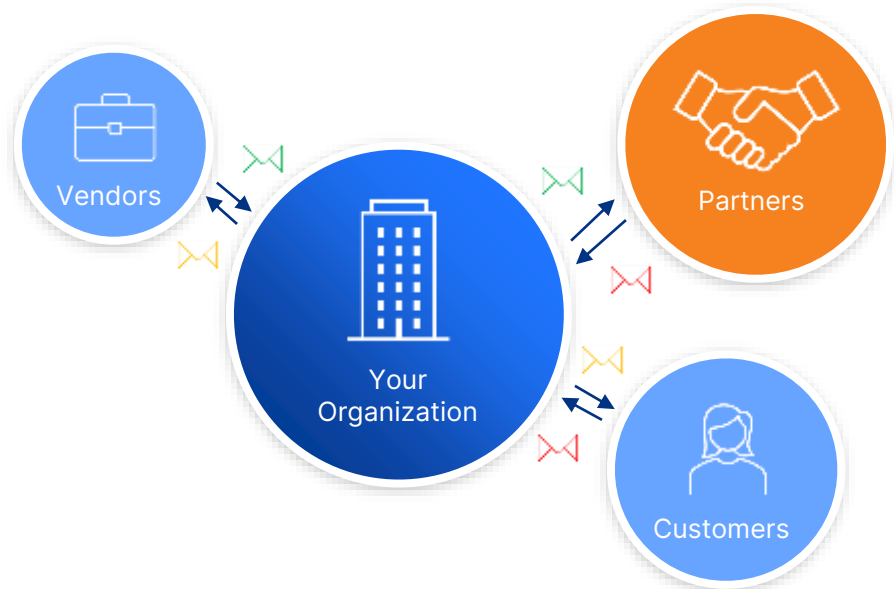

of network edge capacity
& growing

Why Extend Zero Trust to Email?

Email is the #1 way organizations communicate

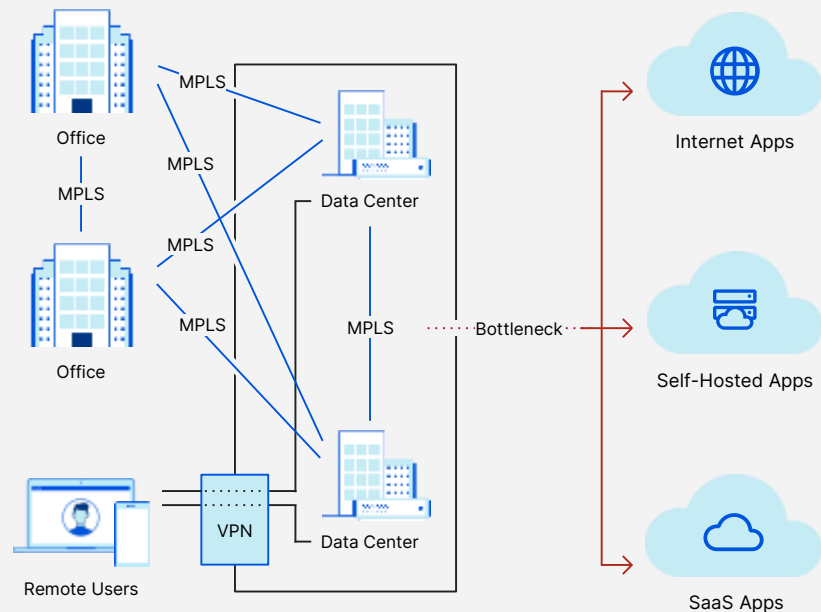

- Email attacks can happen without network intrusion or malware
- Extends beyond direct employee access decisions

There is too much implicit trust in email communications

Perimeter-based security models are breaking under pressure

Today's corporate network

Optimized security and connectivity
