

NETSCOUT®

Guardians of the Connected World

Umfassende und effective Threat Analyse mit advanced NDR

... oder warum DATEN die Welt dominieren !!!

Jürgen Morgenstern, SE Manager - DACH

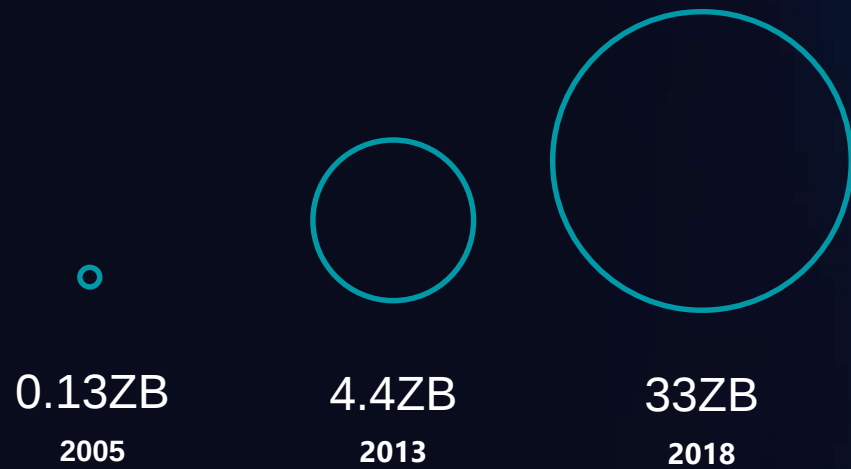

“Software is eating the world.”
- Marc Andreessen, 2011

DATEN dominieren die Welt.
—Jürgen Morgenstern, 2022

DATEN-Wachstum

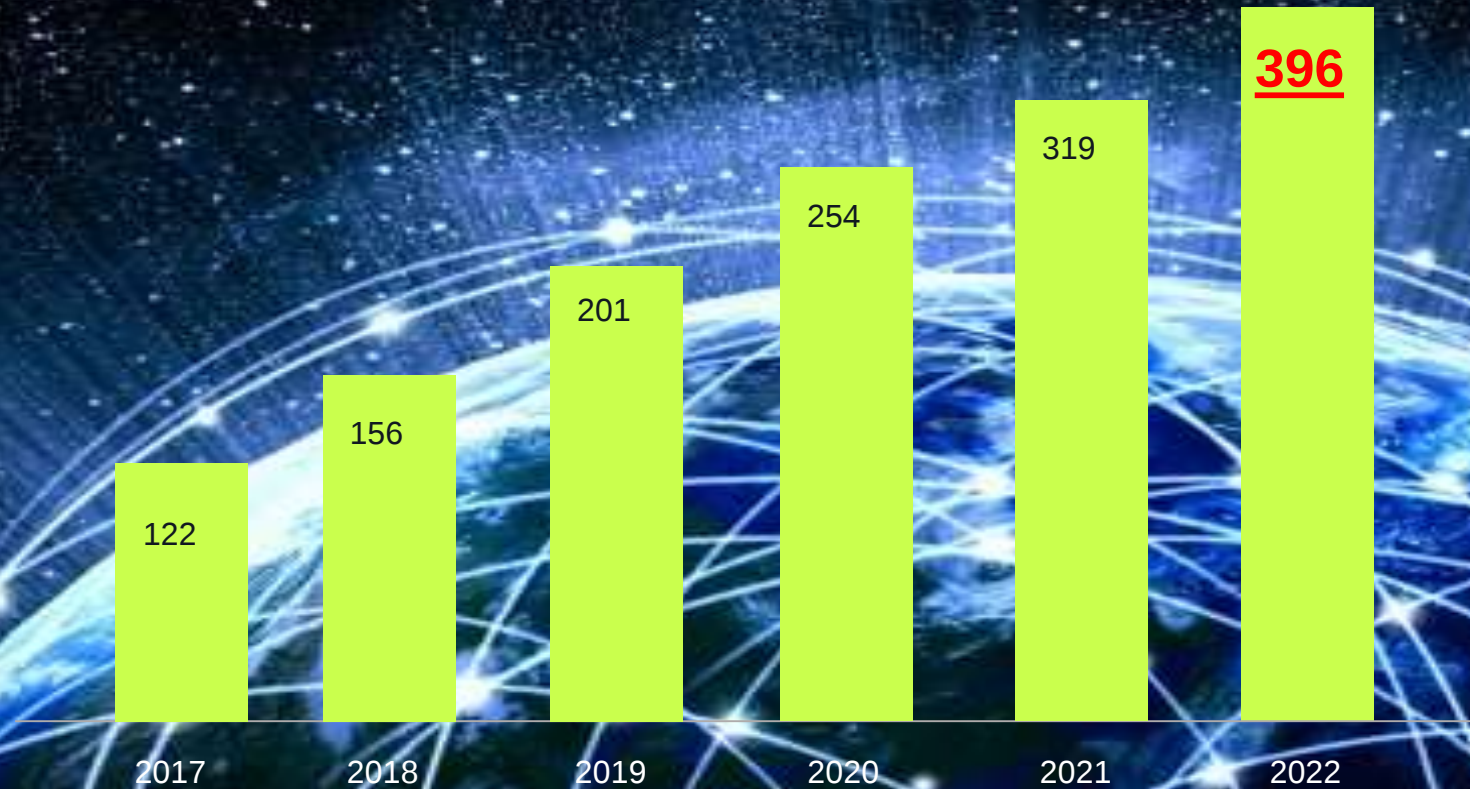

175ZB

2025

43% CAGR

DATEN in BEWEGUNG

Global IP Traffic
Exabytes/month

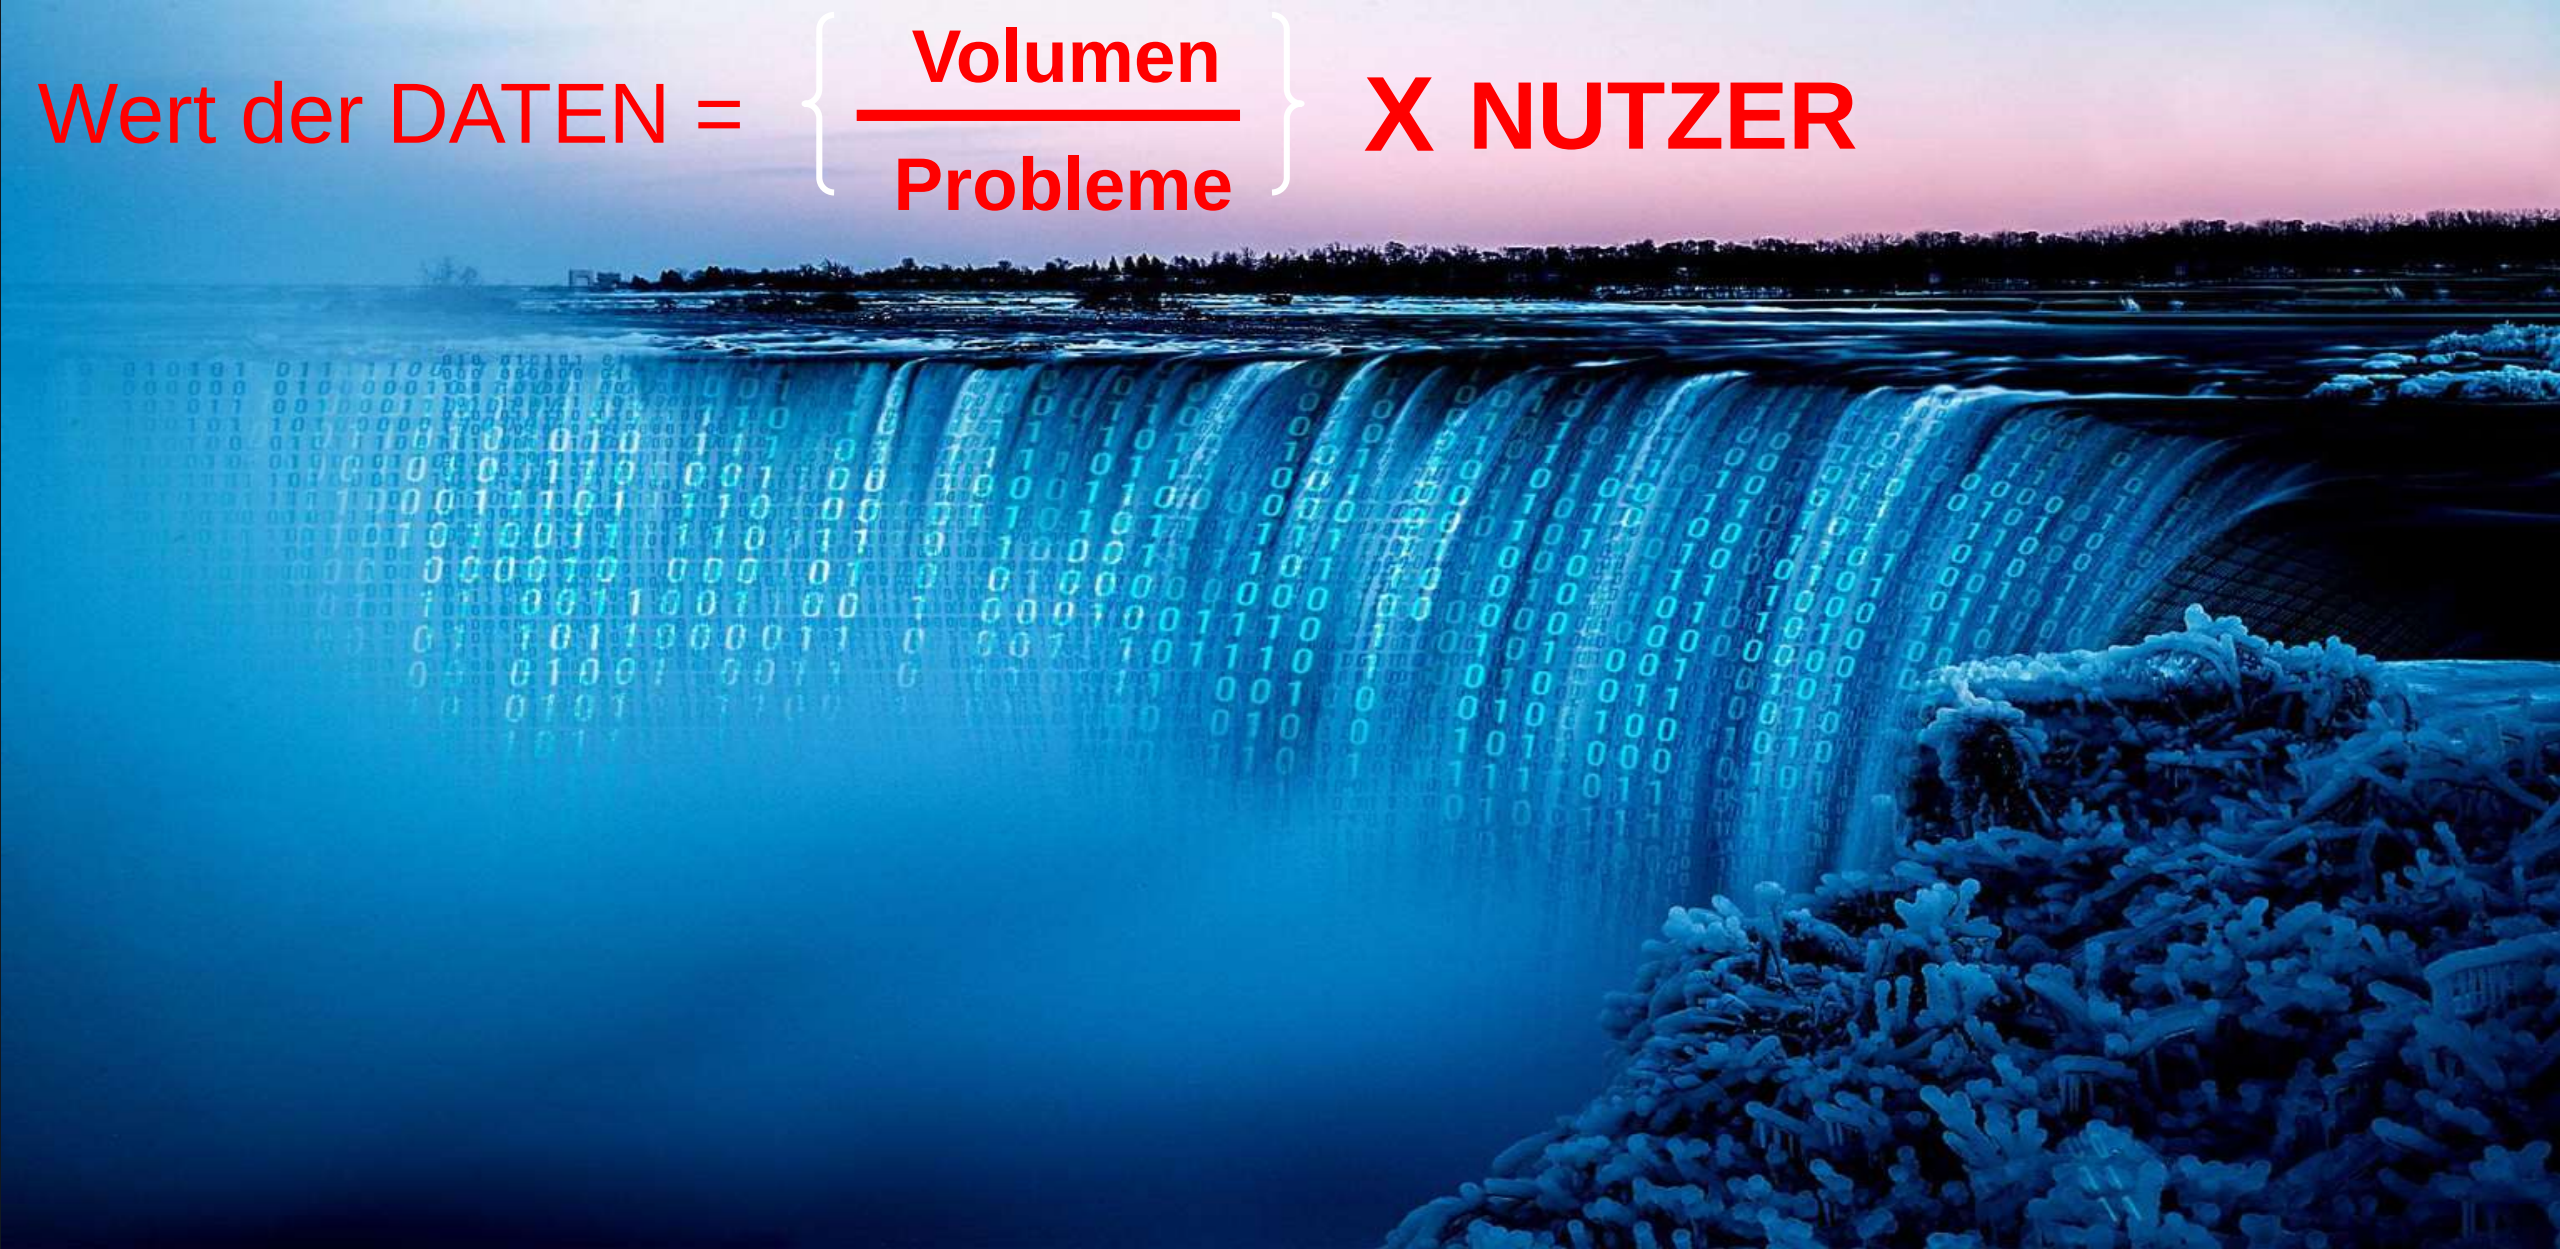

26% CAGR

Cisco VNI Global IP Traffic Forecast 2017-2022

Netzwerkdaten

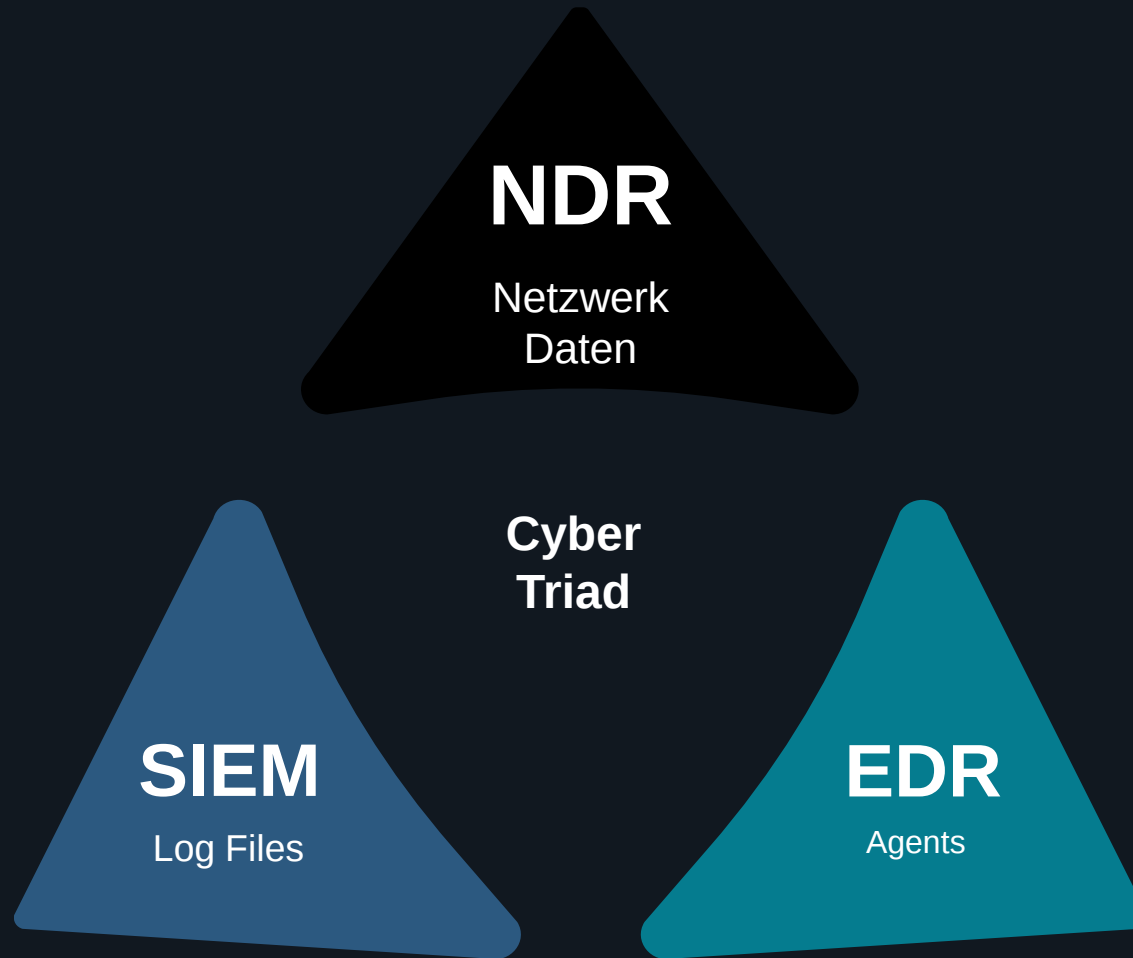

Wert der DATEN = $\left\{ \frac{\text{Volumen}}{\text{Probleme}} \right\} \times \text{NUTZER}$

NDR ist das SIGNAL im RAUSCHEN!

Komplette Visibilität im OST-WEST Korridor für die Threat Analyse

-  Data Center
-  Remote Sites
-  Cloud

Wie bekomme ich die Daten analysiert?!

KI – wir haben ein Problem...

Chihuahua
oder Muffin?

Puppe
oderr Bagel?

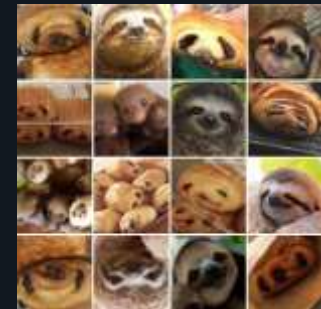

Labradoodle oder
Fried Chicken?

Pappagei oder
Guacamole?

Sheepdog
oder Mop?

Faultier oder
Pain Au Chocolat?

Effektive Threat Analyse mit adv. NDR

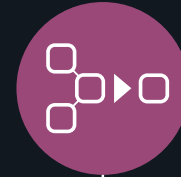

Advanced Early Warning

NETSCOUT provides continuous intelligence and real-time detection of all network activity to halt attackers in their tracks

Continuous Attack Surface Monitoring

NETSCOUT provides the most comprehensive attack surface observability in the industry

Contact Tracing

NETSCOUT provides detailed visibility of all activity across the enterprise providing up to the minute contact tracing to stop the attack in its tracks

Back in Time Investigation

NETSCOUT provides visibility throughout the dwell time of an incident with full context to restore normal operation with shortest downtime

Continuous **Packet Visibility** at Key Vantage points in the Network
Transformed into Actionable Meta Data in Real time
