Die wahre Gefährdung der Identität durch moderne Angreifer

Tobias Schubert, Sr. Sales Engineer

Modern Attacks

C

Ransomware, supply chain...

80% of data breaches have a connection to compromised privileged credentials

- Forrester Research

Breaches from stolen/compromised credentials took the longest to detect (250 days!)

- Cost of a Breach Report, 2021

FOCUS ON 80% OF THE PROBLEM

To stop modern attacks

Threat Actors Aren't Always Starting From Here

Often, They are Starting Here

Is This Outcome You Want?

Without Identity Threat Protection

Or is This the Outcome You Need?

With Identity Threat Protection

Within minutes intrusion contained & remediated

Zero intervention by IT staff

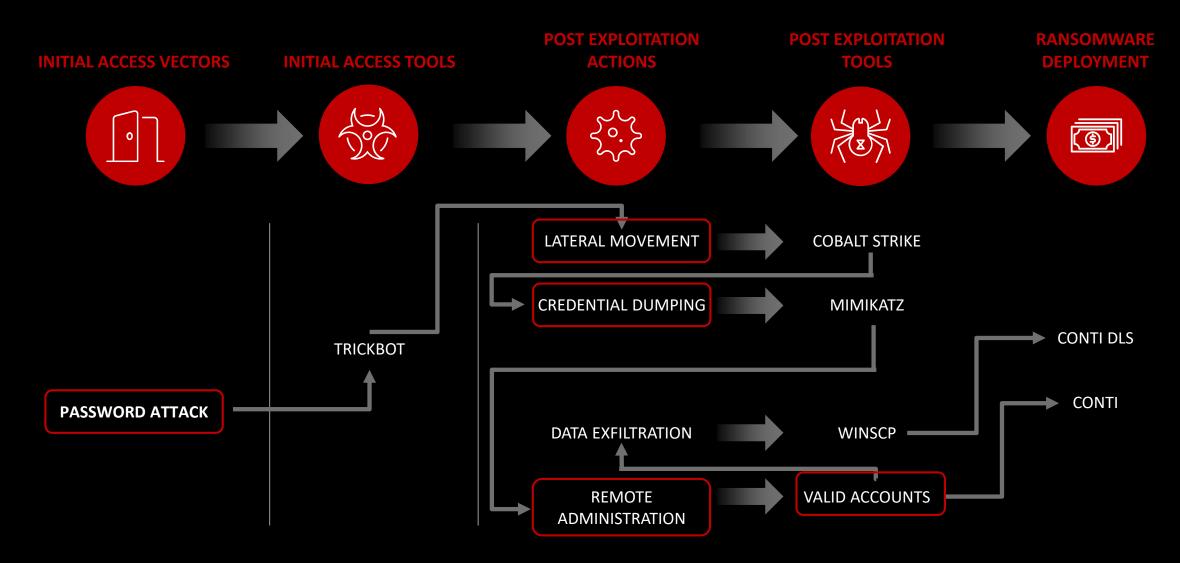

Zero disruption to business or users

Host network contained Persistence removed

Admin account BLOCKED

Recommendation: Reset admin password

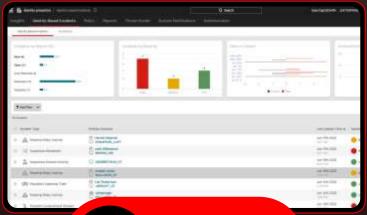

Understanding the **CONTI** kill chain

Modern Attacks Require Identity Threat Detection and Response

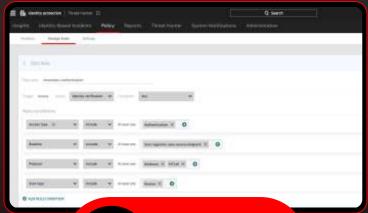

Gartner® Report 2022

"The more-sophisticated attackers are now actively targeting the IAM infrastructure itself."

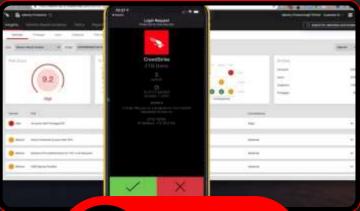

Continuous VISIBILITY

See Adversary Attack Paths

Faster, Real-Time Automated Response

Conditional Access without Slowing Down Users

Falcon Identity + Endpoint Protection

Better Together

Improves Your Protection

at the endpoint and identity level in a single solution

Reduces the Attack Surface

to help prevent lateral movement across your network

Correlates Security

events across endpoints and identity to provide real-time, actionable insights
