EU Cybersecurity Certificates – Where to apply?

Chloe Blondeau @ ENISA
Matthias Intemann @ BSI

Federal Office
for Information Security

# CERTIFICATION AS A ENABLER OF BUSINESS

- General **Increase of certification** in the past couples of year

- Linked to the creation of **new assessment schemes** (IoT, sectoral schemes – mobility)

- Around 300 assessment bodies worldwide (labs, evaluators, auditors, licensed CABs,..)
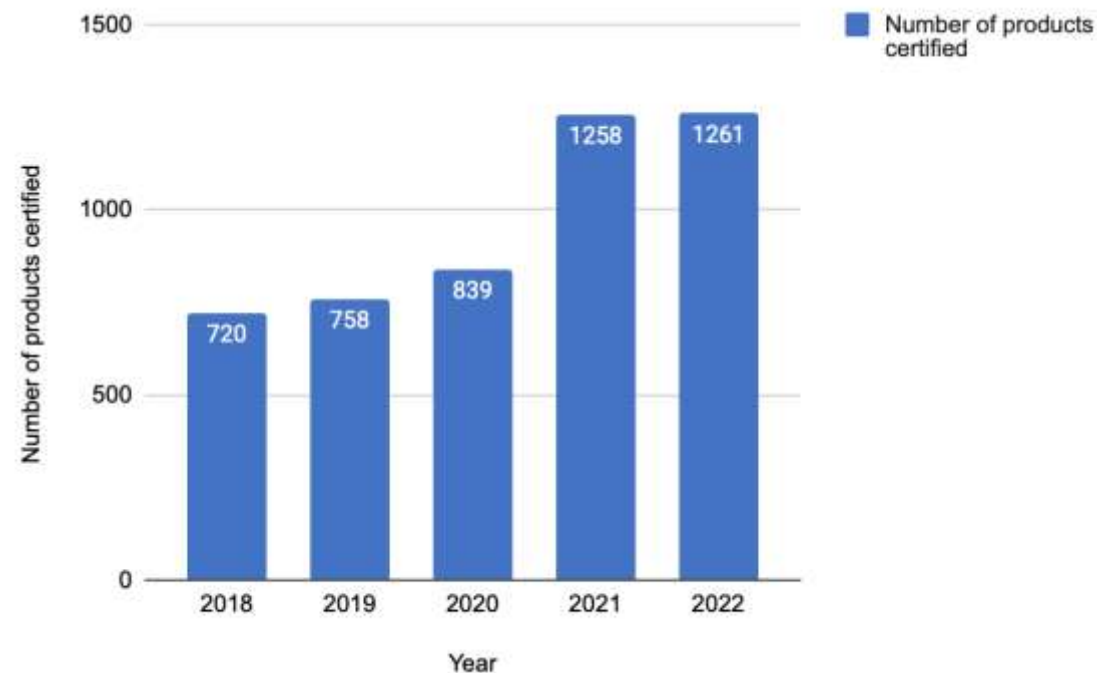

Number of certified/assessed ICT products, all certification schemes included

HOW TO START WITH EU CYBERSECURITY CERTIFICATION?

- Depending on the ICT solutions
- Do I depend on a regulation?
- What security requirements do I need/want
- What do my customers

Understand the available Schemes

Check my Readiness

- Assess the maturity of my solutions
  - With a CAB?
  - On my own?

- Update my ICT solution, processes and evidence
- Select a CAB

Prepare for Application

enisa

EU CYBERSECURITY CERTIFICATION WEBSITE & PLATFORM

Tools to grow the community

WWW.certification.europa.enisa.eu

A website to showcase documentation & a platform to animate the community

✓ Display of guidance and state of the art document
✓ Newsstand, Yellow Pages for cybersecurity certification
✓ A place to meet and discuss for Member States and key stakeholders
✓ A place where activities, projects and partnerships kick-start

THANK YOU FOR YOUR ATTENTION

How does that translate to Germany?

BSI at your Service

Federal Office
for Information Security

BSI will maintain list of conformity assessment bodies in Germany

- BSI will be point of contact on certification in Germany

- Information now and then on
https://www.bsi.bund.de/zertifizierung

- Top priority is to ensure business continuity during and after transition from current SOGIS-MRA with CCRA to EUCC with CCRA in the future
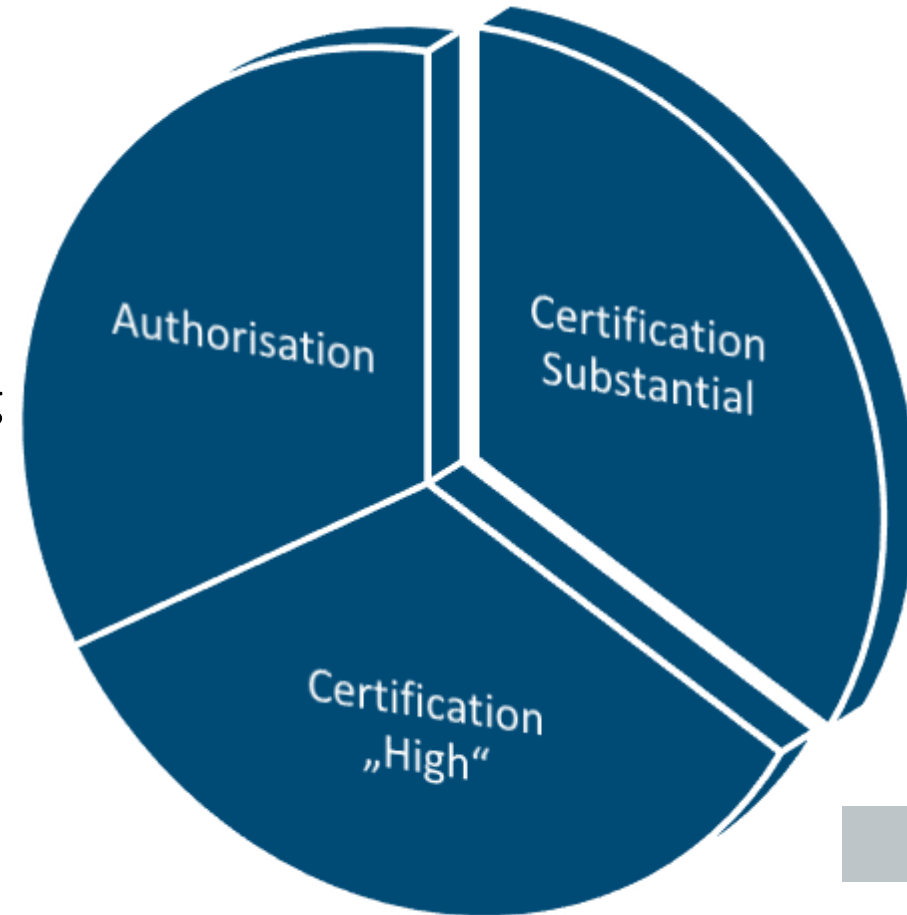

Thank you!!!
