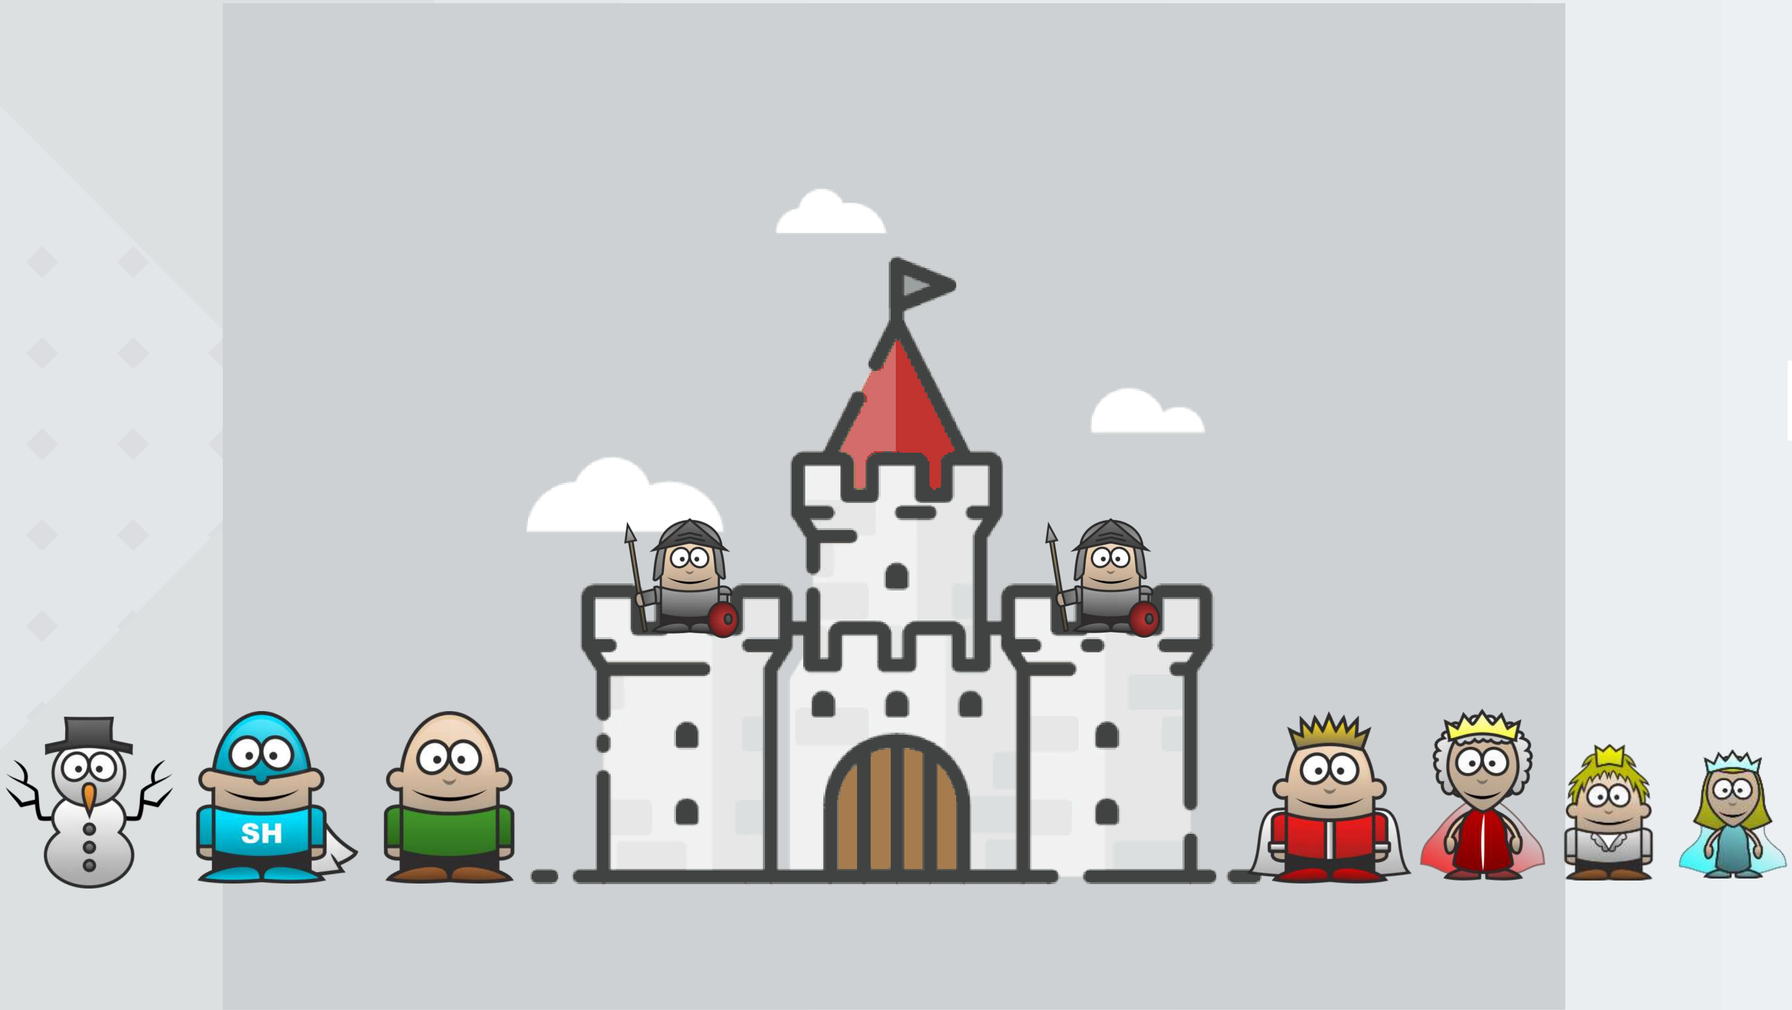
A Tale -
Secure the future identity through Decentralisation

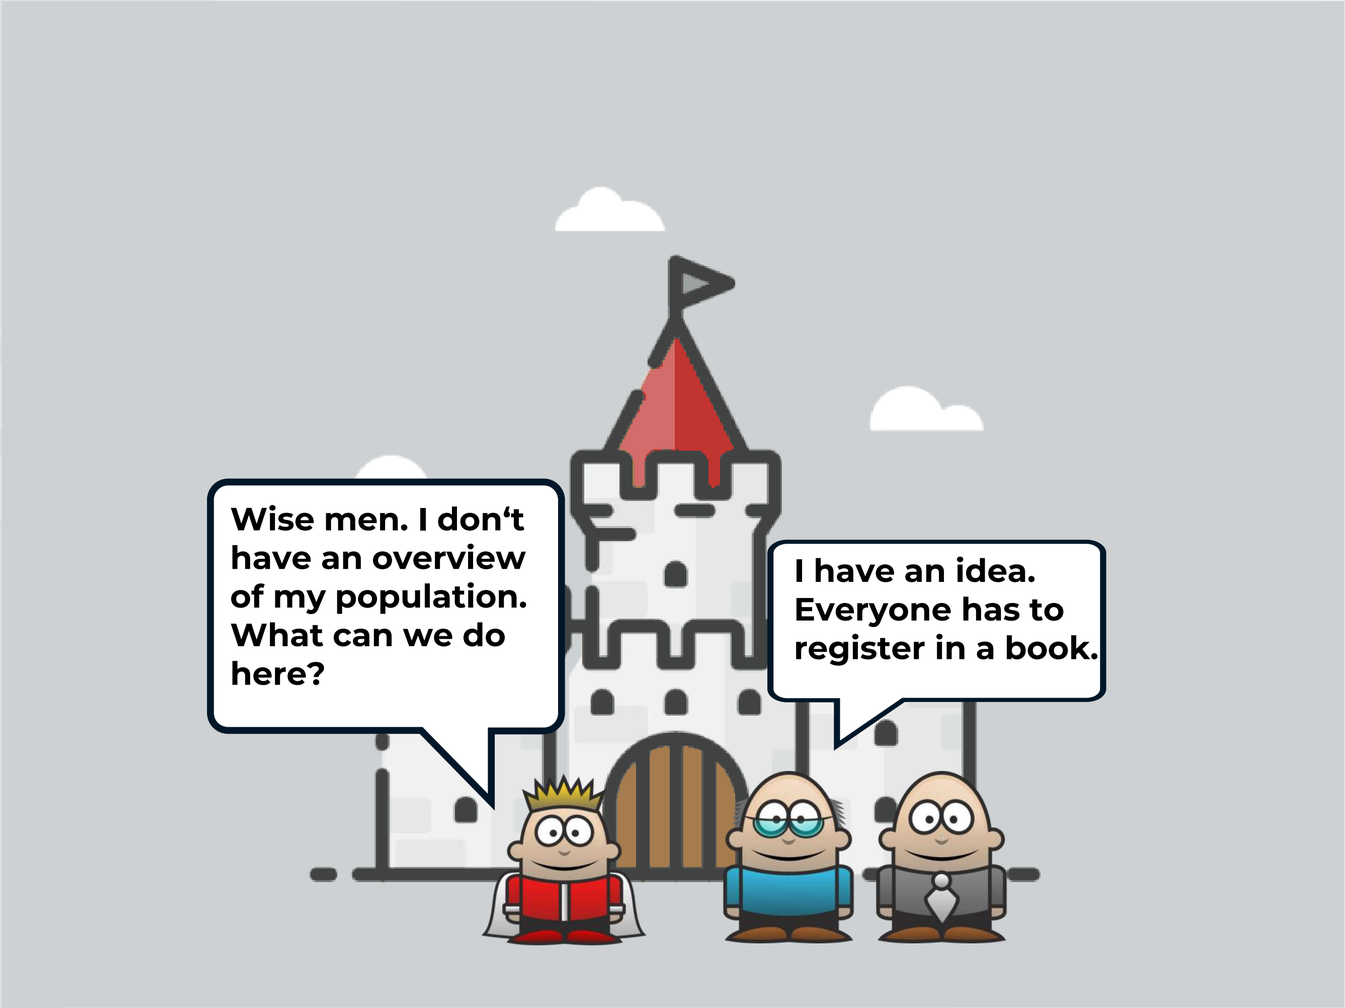
David Baier
Solution Architect

PingIdentity

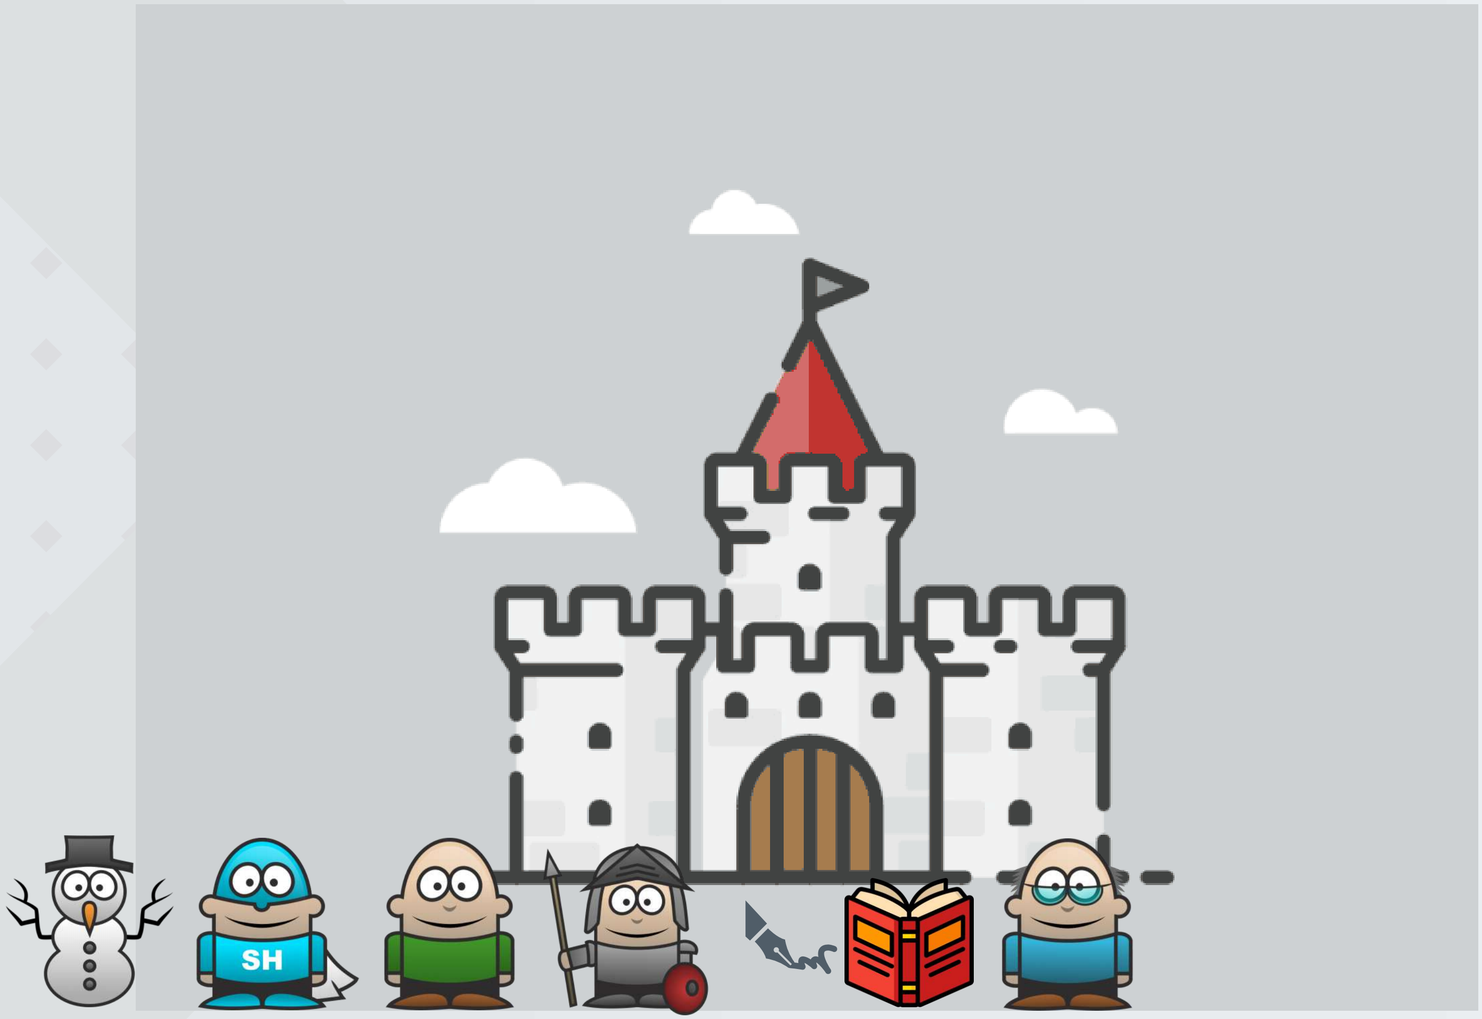
Once upon time...



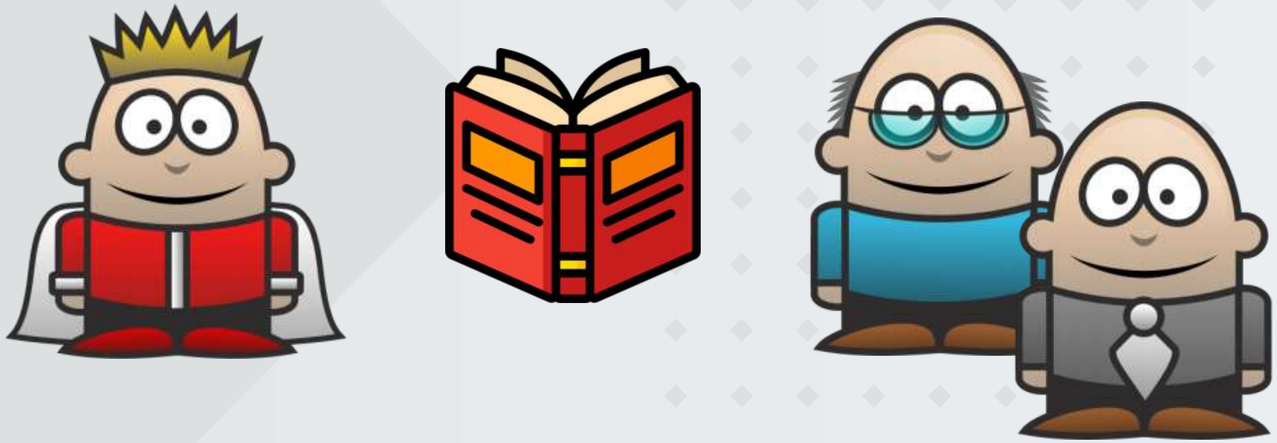
The Book of Truth is born



The Registration begins



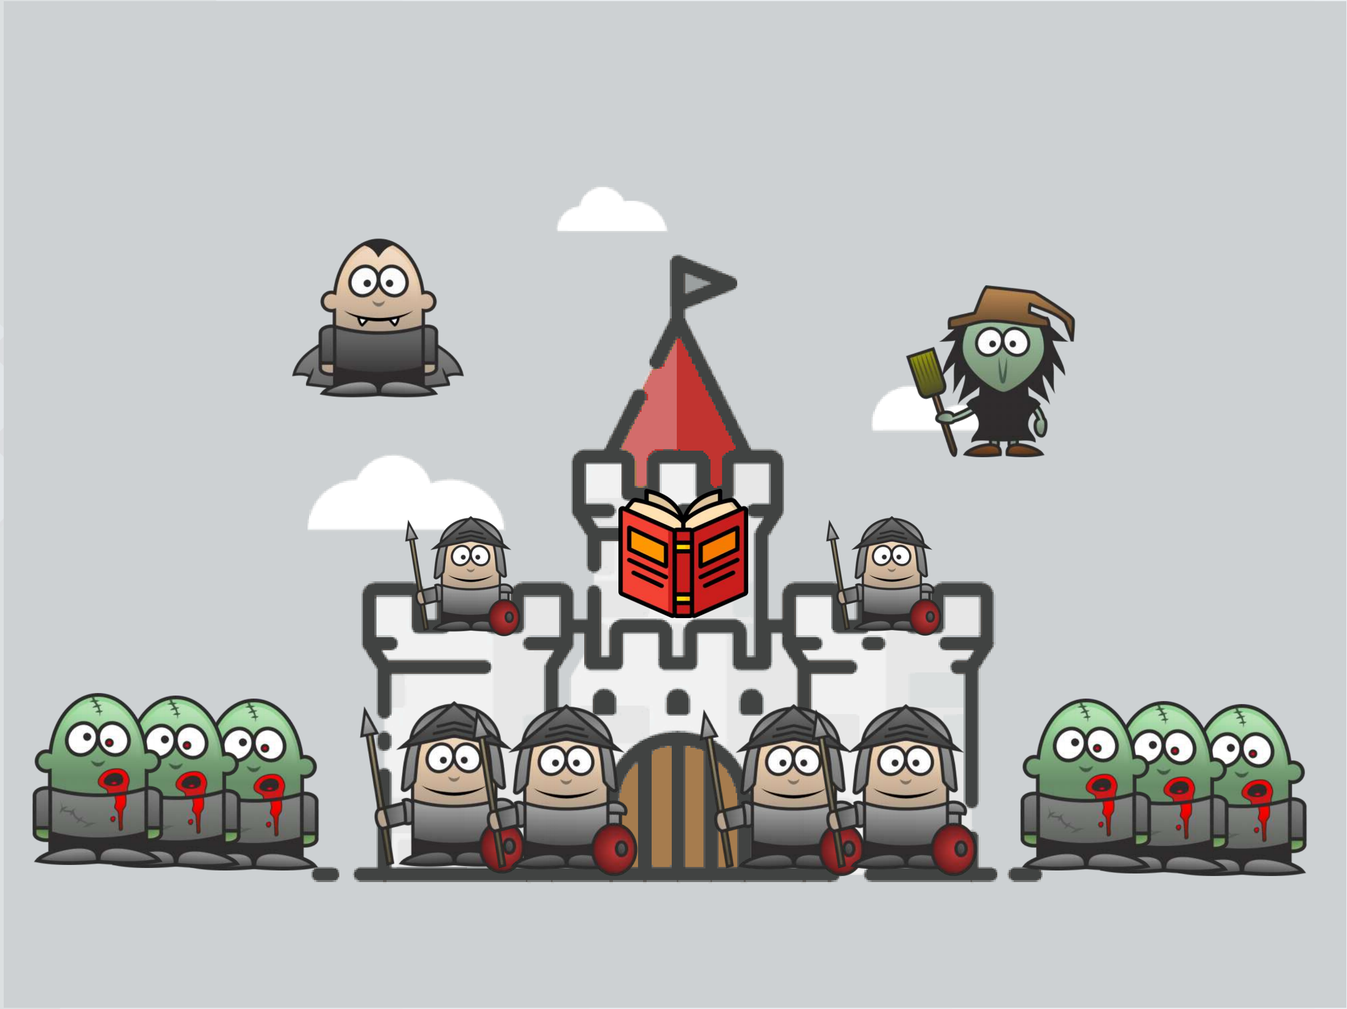
A happy king



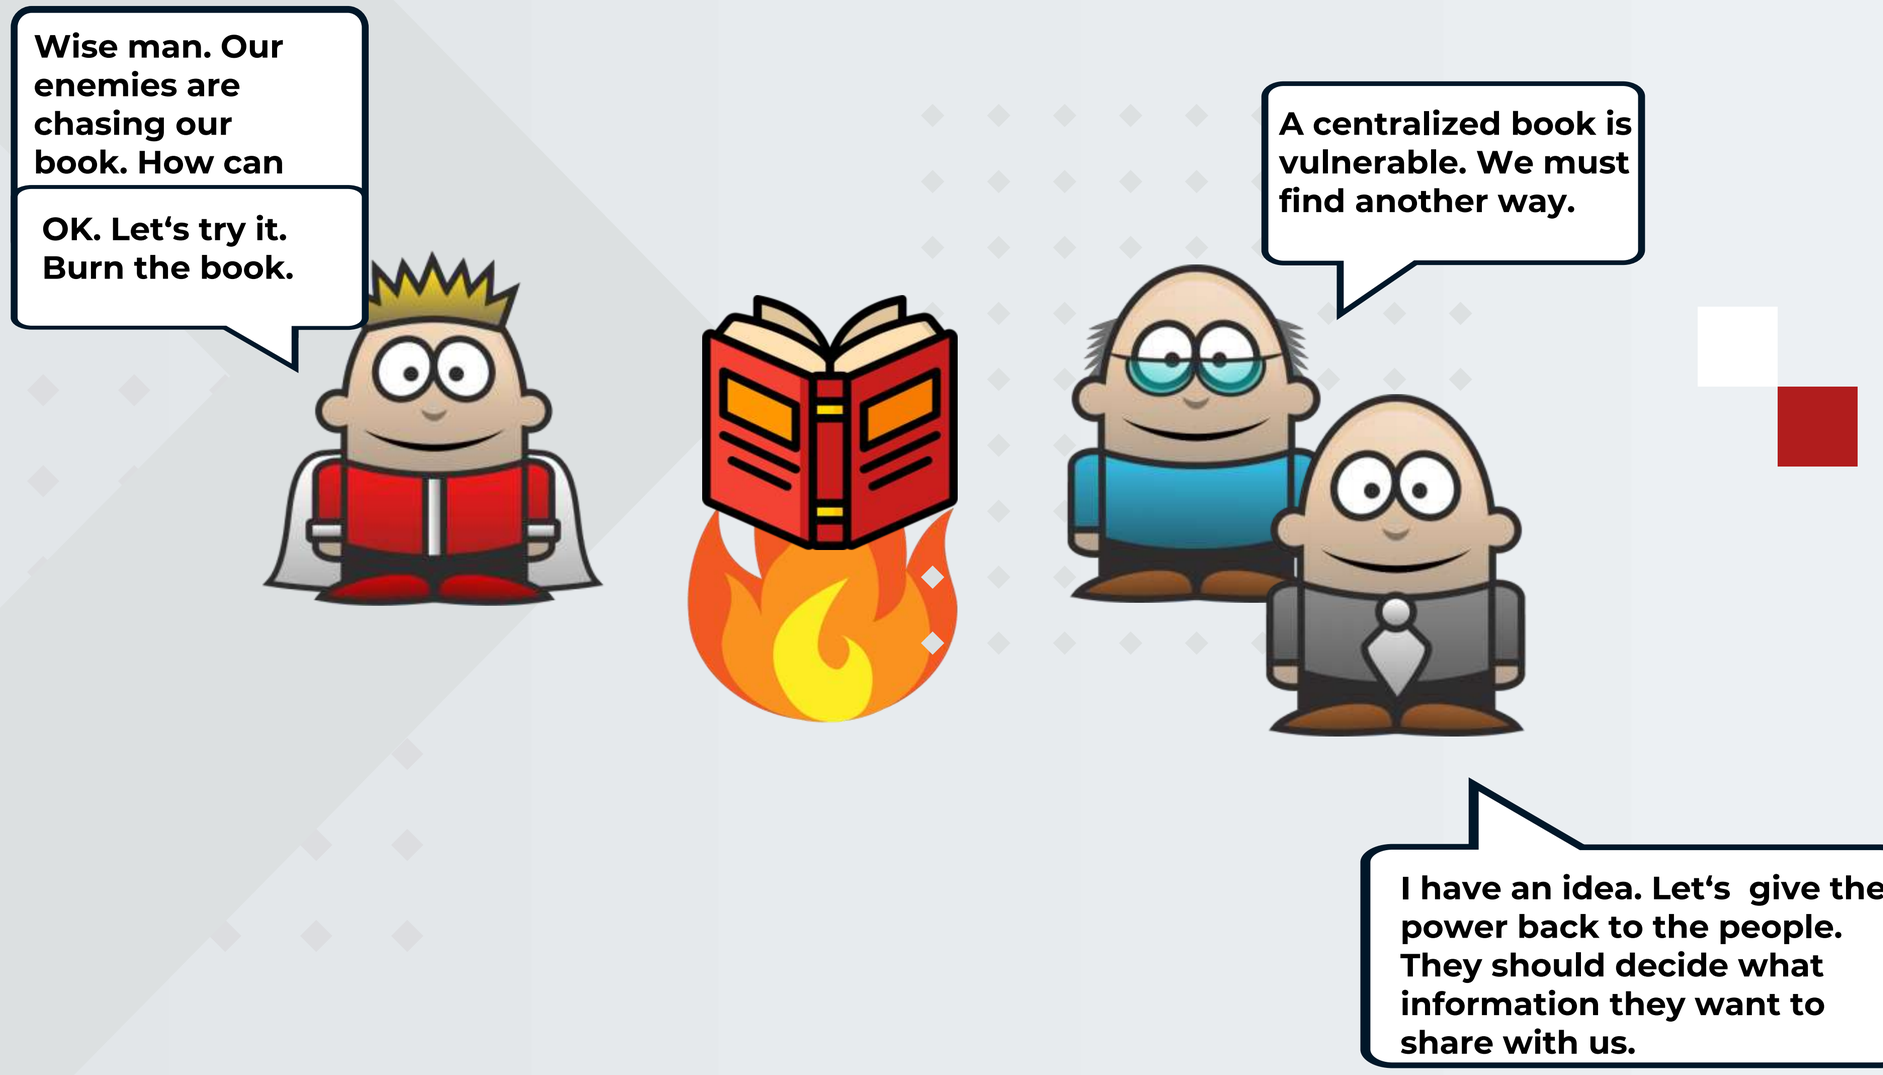
The Problem

With this book we know all secrets of King Neo‘s people
Move and bring me this book.

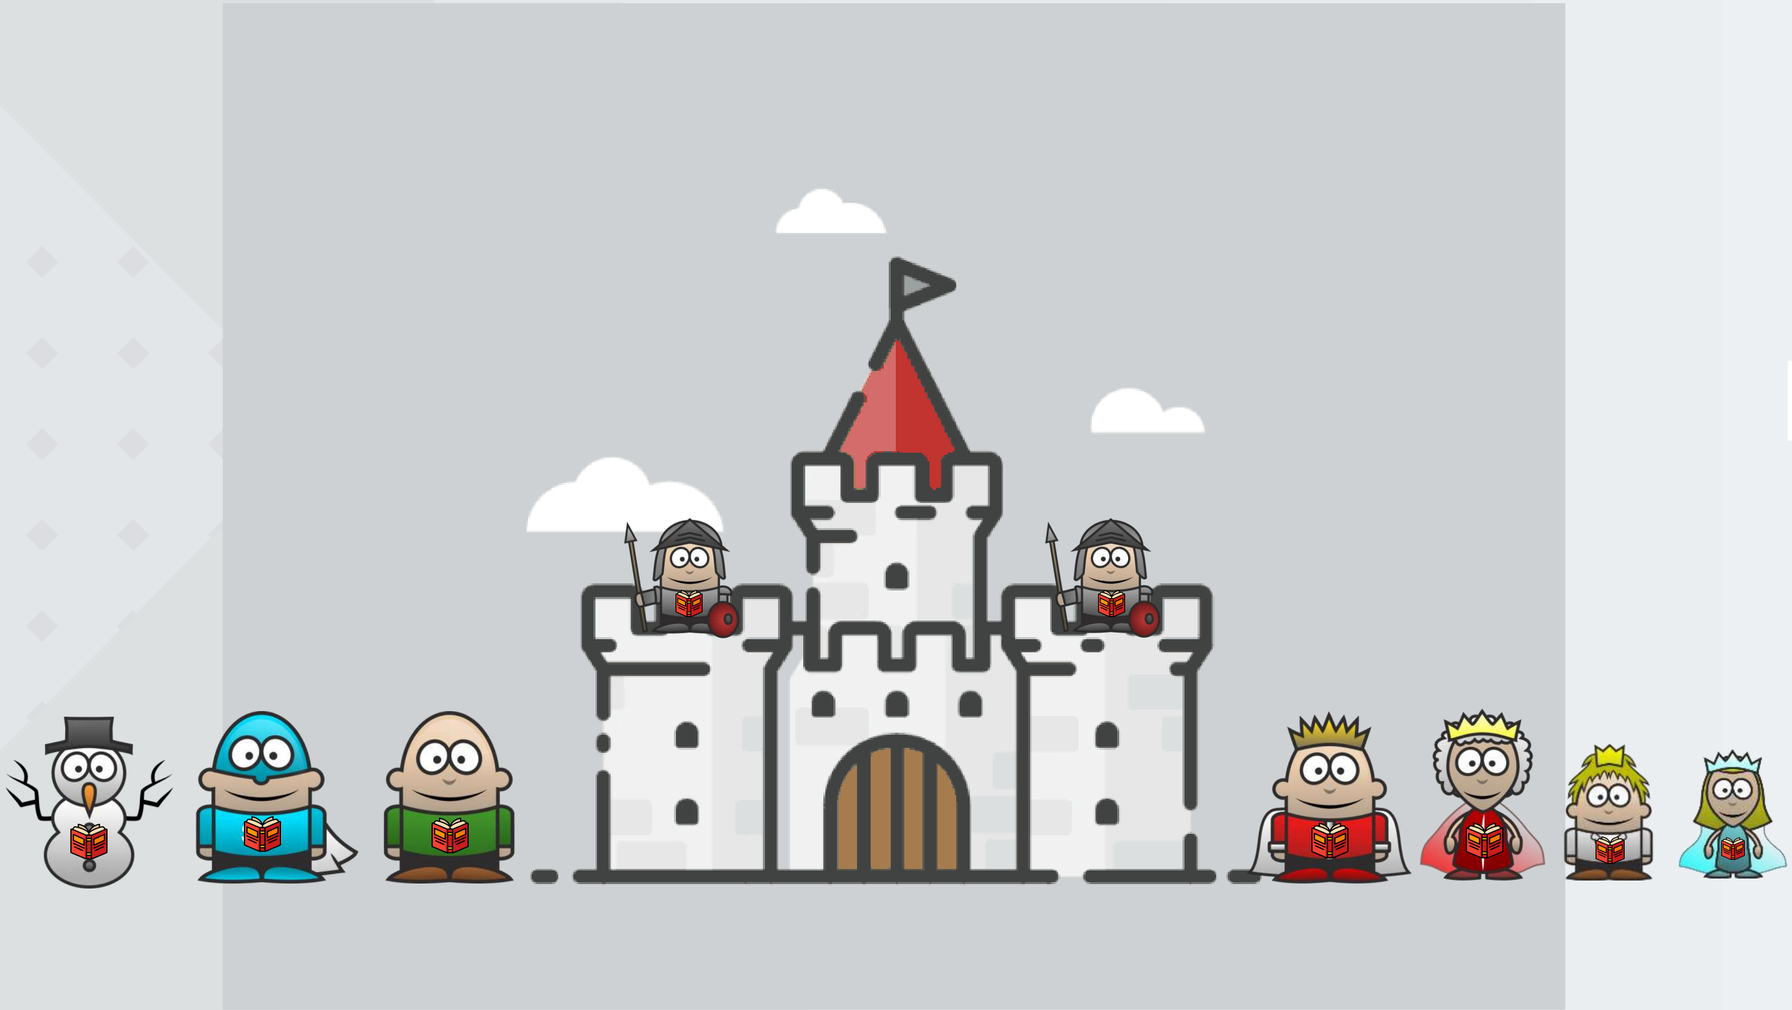
The Attack



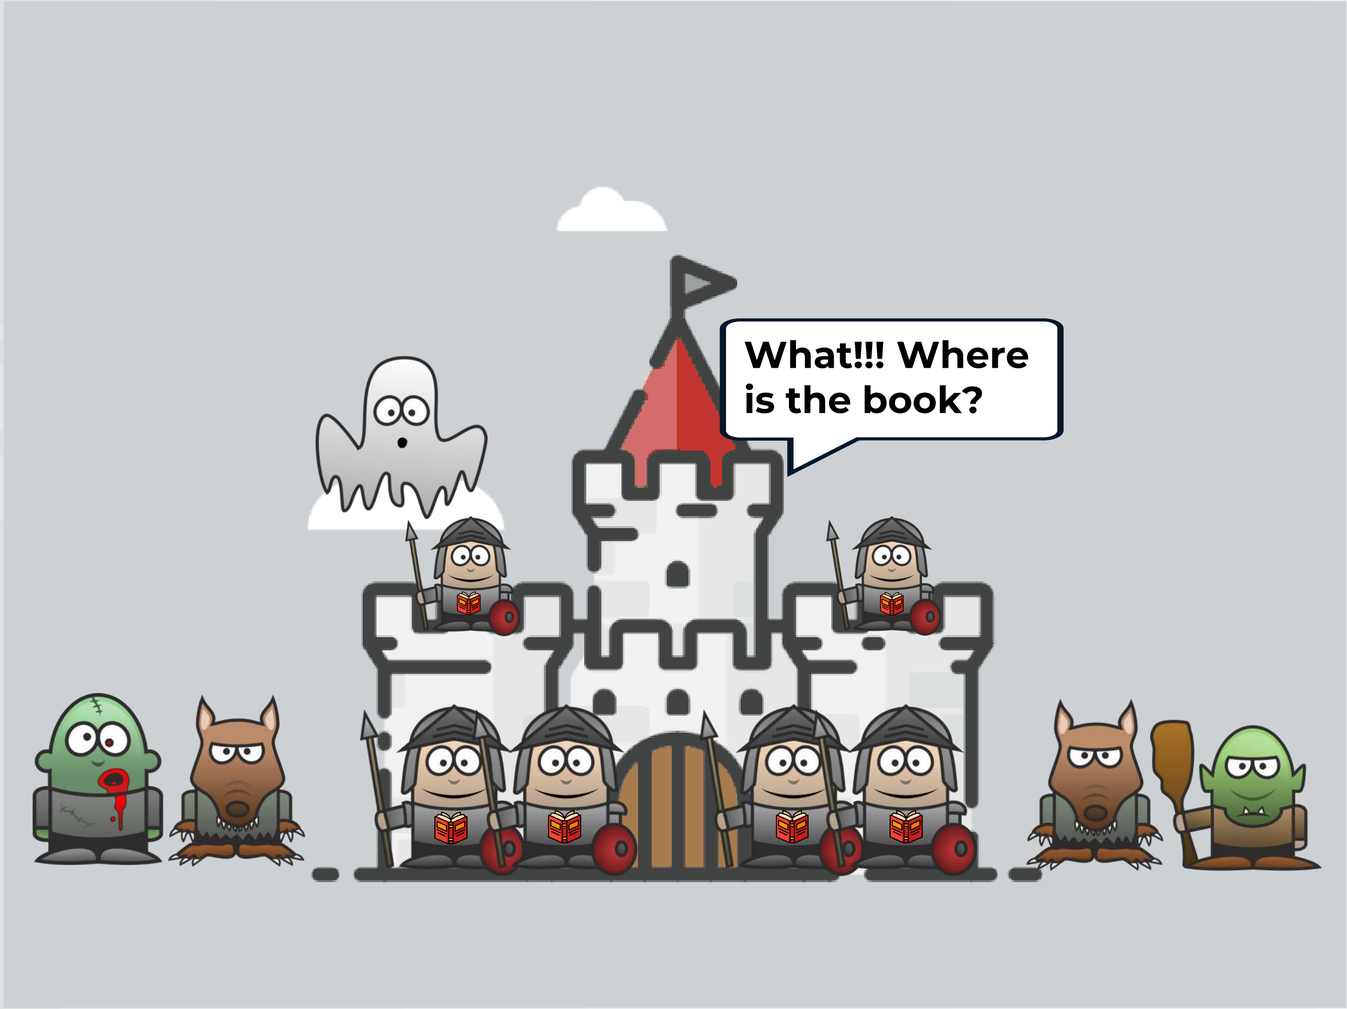
A new plan is born



A new era begins



A new attack



The news

King Neo, your victory for now. But be sure, this is not our last attempt to get your secrets.
F*** no.
The list was destroyed. It no longer exists.

Happy end.
