Die moderne hybride Infrastruktur

The modern hybrid infrastructure

Wie **lösen** wir dies?

How do we **solve** this?

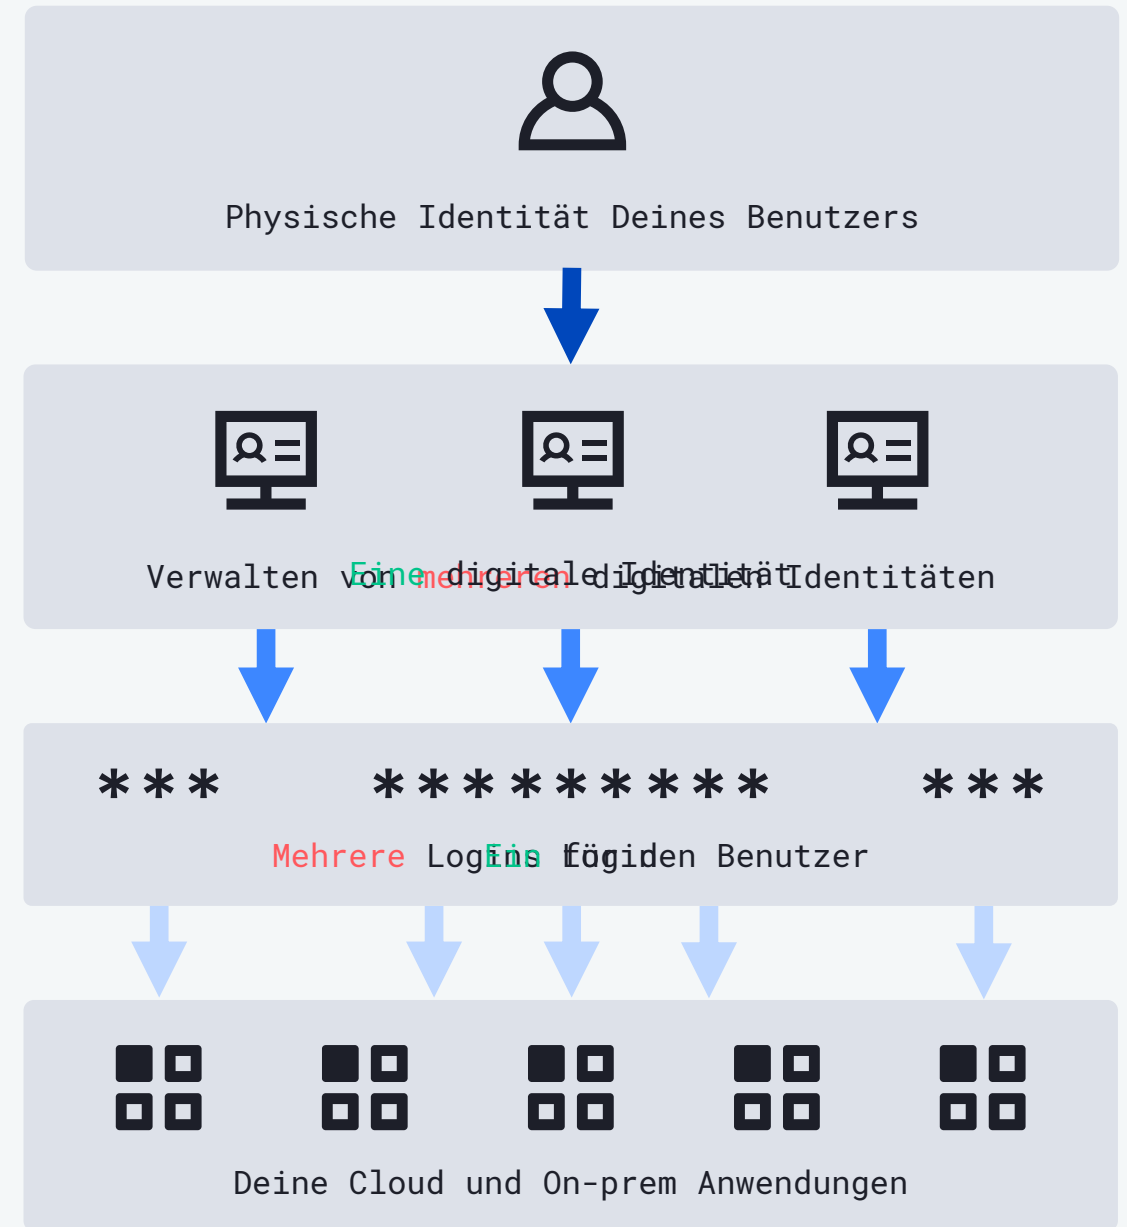

Eine Workforce ID

Ein Login für Alles

Tolle Benutzererfahrung

Einfache Verwaltung

Zeit- und Kostenersparnis

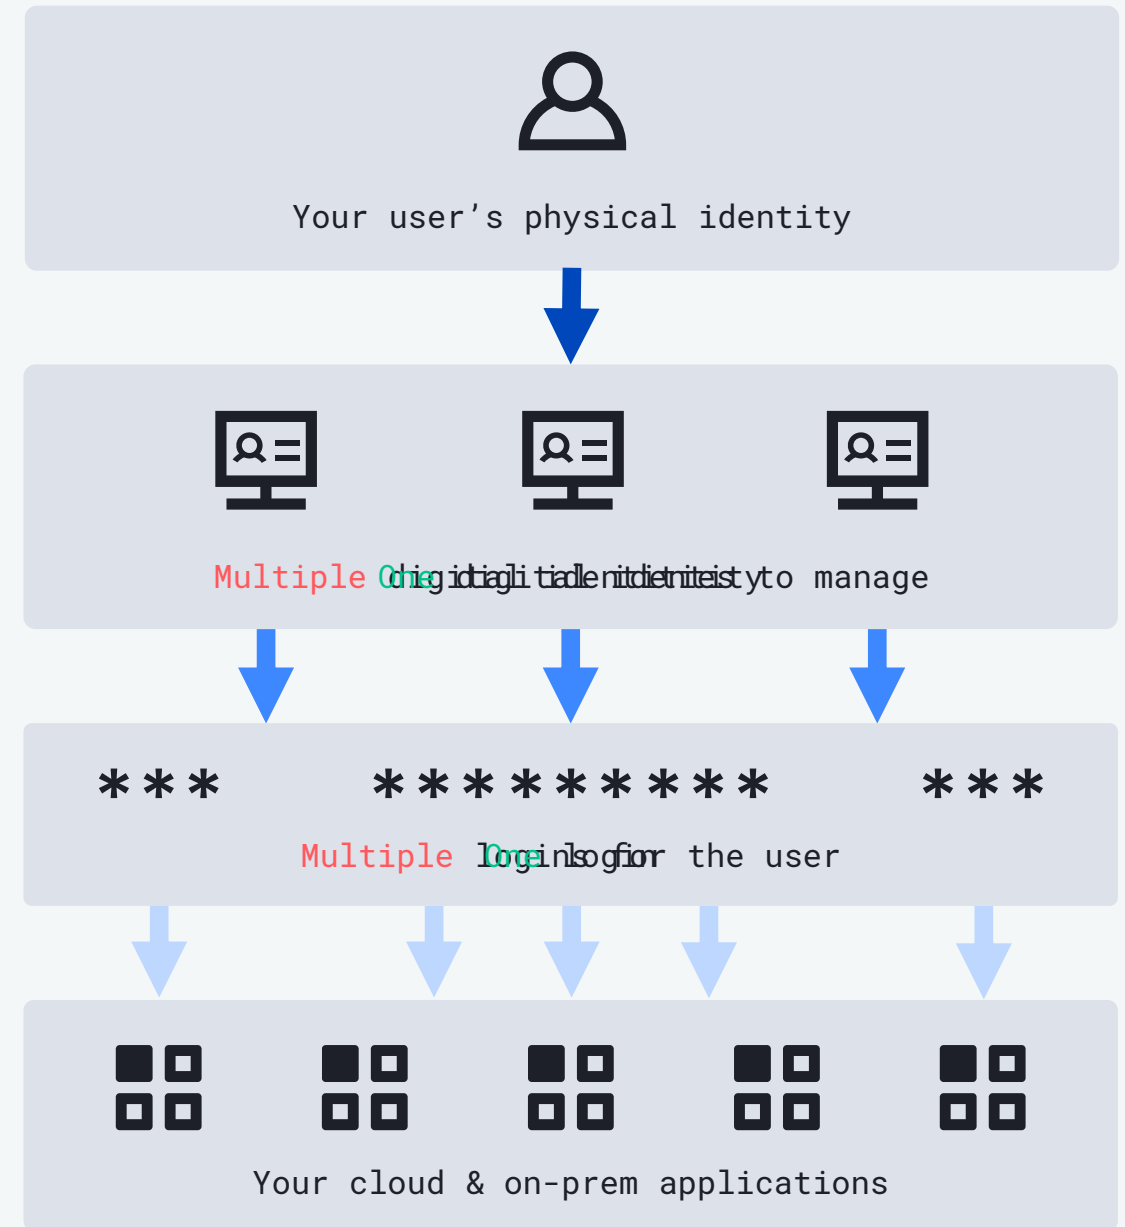

One Workforce ID

One login for everything

Great user experience

Simple administration

Time and cost savings

Vereinheitlichung von MFA

Reibung vermeiden

Konsistente
Benutzeroberfläche

für On-Prem, Cloud und
Legacy-Anwendungen

Unifying MFA

Reduce friction

Consistent User Experience

For on-premises, cloud and legacy apps

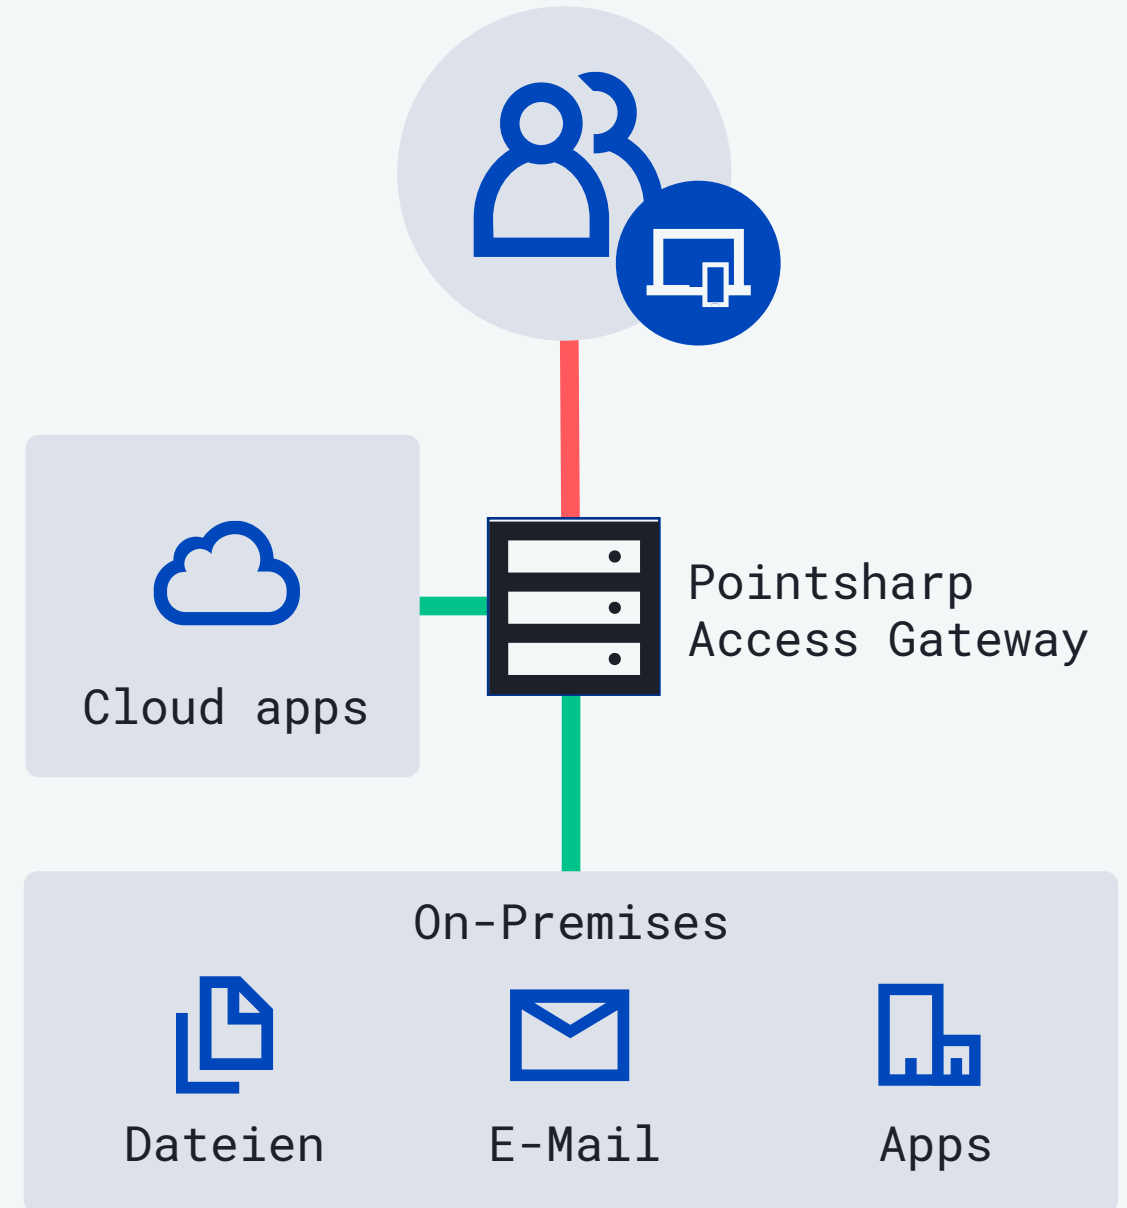

Access Management

Mobiles Arbeiten ohne VPN

Zugriff auf Legacy-Anwendungen so einfach wie bei Cloud-Anwendungen

Sichere On-Premises E-Mail

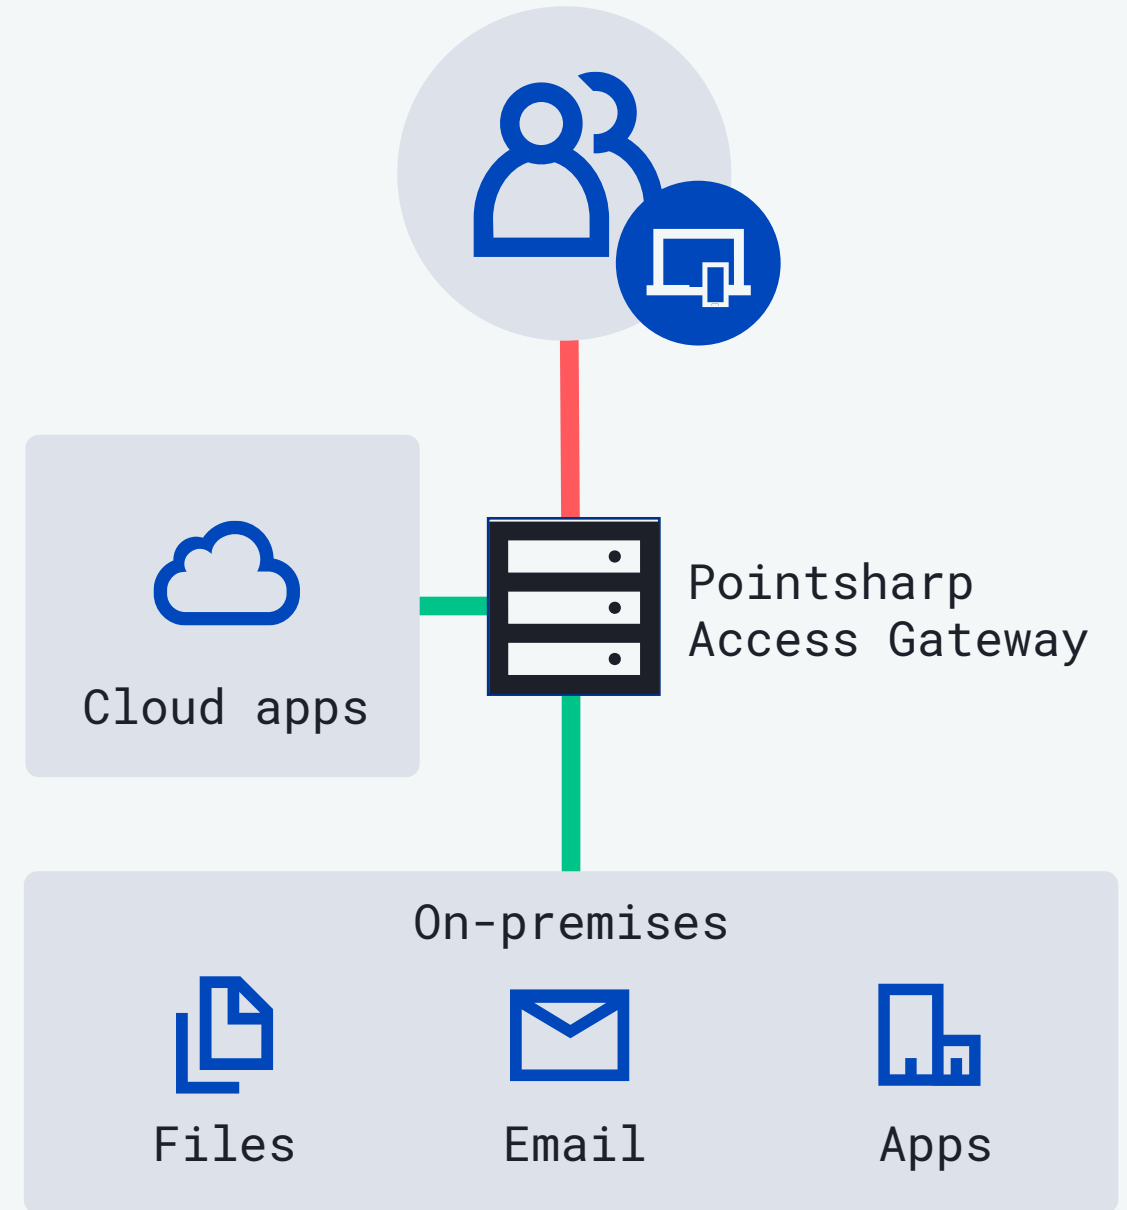

Access Management

Remote work without a VPN

Make access to legacy apps as easy as cloud apps

Secure on-premises email

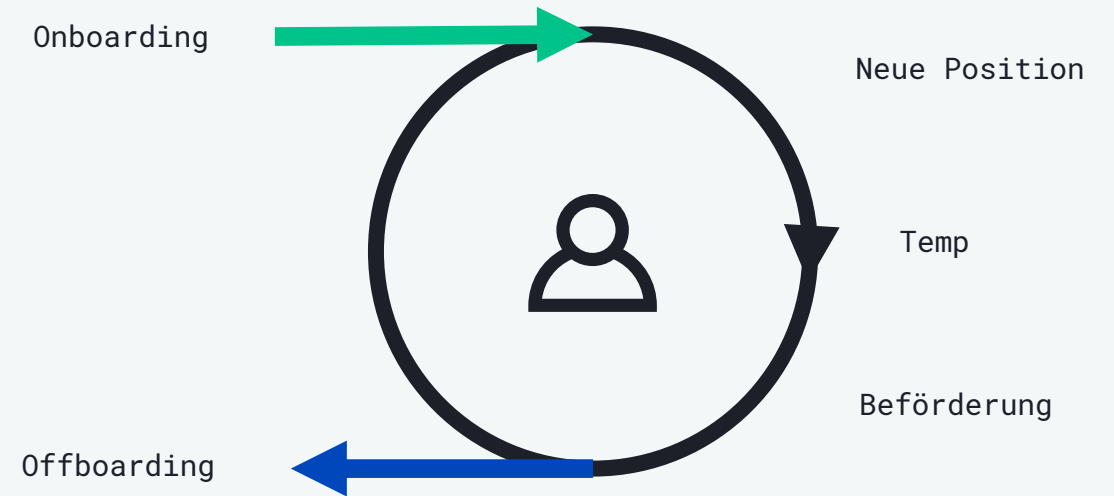

Identity Lifecycle Management

Automatisiertes On-, Off- und Cross-Boarding

Rollenmanagement

Wartung von Benutzerprozessen

Compliance

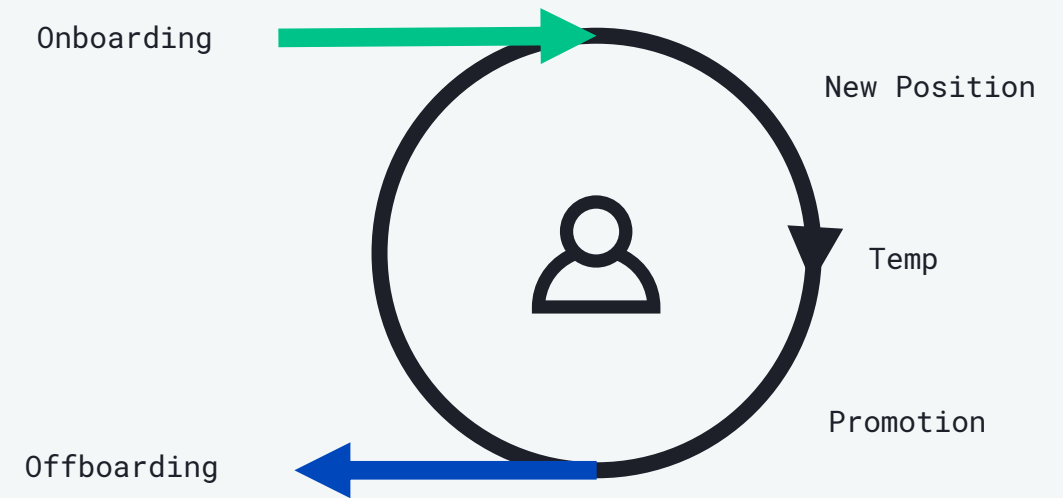

Identity Lifecycle Management

Automated On-, off-, and cross boarding

Role Management

Maintaining user processes

Compliance

Vereinheitlichung Ihres Identity und Access Managements für On-Prem und Cloud basierte Anwendungen

Unify access management for on-premises and cloudbased applications

Warum ist dies wichtig?

Sichern Sie Ihre gesamte Infrastruktur ab

Einfach zu verwalten

Reibungslos

**Einheitliche
Benutzererfahrung**

Why is this important?

Secure your whole infrastructure

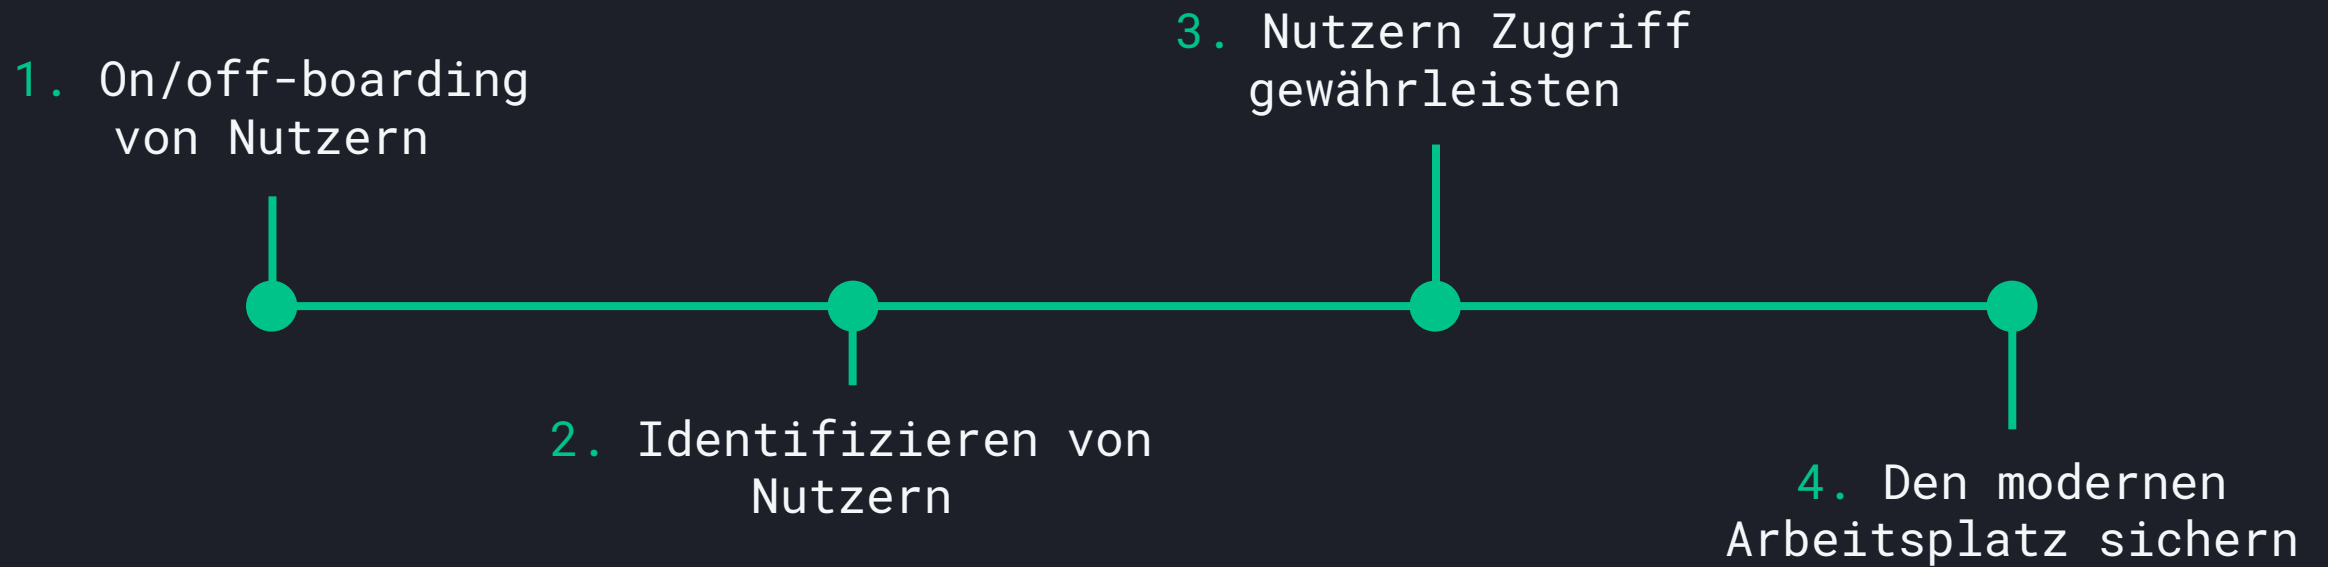

Easy to manage

Low friction

Unified user experience

Zusammenfassung

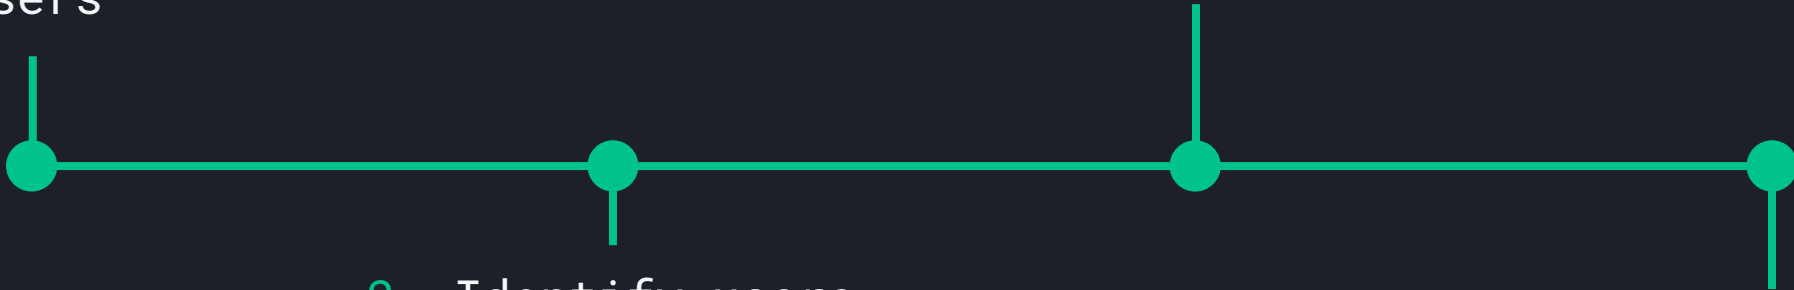

Summary

1. On/off-boarding
users

3. Provide users access

2. Identify users

4. Secure the modern
workplace
