SUBJECT: PROBABLE CINDER CONCRETE SCHOOLS

-----

Attached is a list of 332 schools constructed or added to, during the decades we feel Cinder Concrete was used in the construction.

Please review this list against your records for roofing projects and indicate those schools on our list where roofs were replaced within the last twelve years.

This information will be helpful in establishing a new inspection procedure for deteriorating Cinder Concrete.

SUBJECT: List of Schools of Cinder Concrete Slab Construction  
Requiring Inspection/Reinspection

-----

The following is a list of schools of probable cinder concrete slab construction requiring inspection/reinspection in order to determine if there is water damage to structural elements (cinder concrete, steel wire mesh, steel spandrel beams, etc.) and the need for structural repair corrective work.

Any school not listed falls in one of the following categories:

1. School is not of cinder concrete slab construction.
2. Inspected, no structural repairs required at time of inspection.
3. Structural repairs completed.
4. Structural repairs under construction.
5. Structural repairs in design.

Schools are identified by Borough, District and year of construction.  
(12 sheets dated April 9, 1985.)
