

Marine & Energy Reinsurance

TARGET CLASSES

Marine and Energy Treaty

COVERAGE HIGHLIGHTS

We will look at all classes of marine and energy reinsurance including but not limited to:

- Cargo
- Hull
- Energy (including Renewable Energy)
- Marine and Energy liabilities
- War
- Fine Art and Specie
- Terror

We write exclusively on a treaty basis and do not have a facultative offering at this time. We write onshore energy on a limited basis normally only when forming part of a larger offshore portfolio. U.S. catastrophe exposed recreational business is not in appetite.

WHAT WE OFFER

We offer lead or follow capacity for both excess of loss and proportional business. We have a maximum capacity of \$15m any one cedant. We write a worldwide book of business on a losses occurring or risks attaching basis.

POINTS OF DIFFERENCE

We travel extensively as we believe meeting our clients and potential clients is vital to creating long term partnerships which is paramount to us. Our underwriting expertise enables us to offer bespoke marine and energy reinsurance solutions to cater to our clients' individual needs.
