

General Liability

TARGET CLASSES

- Construction (annual and project wrap-up)
- Contractors / Manual Services
- Manufacturing
- Engineering
- Property Owners
- Accommodation
- Wholesale and Retail of products
- Telecoms
- Rail

COVERAGE HIGHLIGHTS

We have a wide appetite for General Liability risks which we can consider on an open market basis or via binding authorities and lineslip arrangements.

We write business on a worldwide basis, with a particular focus on Canada and Australia. We do not write USA domiciled business but can consider US exposures on international risks.

The majority of our risks are written with an occurrence trigger, but claims made may be offered depending on the underlying exposure.

Our team of underwriters have extensive experience allowing us to consider bespoke approaches to provide the correct solution for the insured, and we have the ability to package up with other classes in the Syndicate, such as Professional Indemnity or Medical Malpractice, to provide a more complete offering.

WHAT WE OFFER

- We can offer line sizes up to GBP10m / USD25m / CAD25m / AUD25m / EUR15m
- We write business on both a primary and excess of loss basis.

POINTS OF DIFFERENCE

- Primary lead capabilities
- Competitive wording and the ability to adapt as required
- Ability to deploy capacity across excess layers
- Committed to prompt servicing on all enquiries
- Underwriters available in Lloyd's, offices or remotely as required
- First class London based claims team
- In-house wordings specialist
- Strength and expertise in underwriting binding authority and lineslip arrangements
