- Nursing
- Private Ambulance, Paramedics and First Aid

COVERAGE HIGHLIGHTS

We provide cover for most regulated and miscellaneous professions, which we can consider on an open market basis into our Lloyd's Syndicate, via our UK service company and selectively via binding authority or lineslip arrangements.

We write business on a worldwide basis, with a particular focus on Canada, Australia, the UK, and Europe. We do not write domiciled business but can consider US exposures on International risks.

All our PI business is written on a claims made basis, but we do have the ability to consider occurrence policies in the healthcare space where it is a market requirement. We work closely with our clients and brokers to provide the solutions that they need and have the ability to package up with other classes in the Syndicate, such as General Liability, to provide a more complete offering.

WHAT WE OFFER

- We can offer line sizes up to GBP10m / USD20m / CAD20m / AUD20m / EUR15m
- We write business on both a primary and excess basis.

POINTS OF DIFFERENCE

- Primary lead capabilities
- Competitive wording and the ability to adapt as required
- Ability to deploy capacity across excess layers
- Committed to prompt servicing on all enquiries
- Underwriters available in Lloyd's, offices or remotely as required
- First class London based claims team
- In-house wordings specialist
- Strength and expertise in underwriting binding authority and lineslip arrangements
