Management Liability

[help your clients lead with confidence]

Sure, management decisions come with risk. But the right liability coverage can remove doubts and help your clients achieve more. Our services and policies are specifically designed for:

Publicly traded, privately held and not-for-profit organizations across all industry classes (excluding financial institutions)

- We are focused on strategic primary and excess opportunities with a preference for national accounts with a revenue of \$1 billion or more and middle-market accounts posting an annual revenue of \$100 million or more.
- We can offer up to \$25 million of capital for each product coverage customized to the opportunity.

We're Ready to Deliver

We will work closely with you to craft specific coverage for each client, which may include:

Directors & Officers Liability helps protect individual insureds and the company against wrongful act allegations and lawsuits brought by the company's employees, vendors, customers, or other parties. Entity securities coverage is available for publicly traded companies and full entity coverage is available for privately held and not-for-profit organizations.

Employment Practices Liability helps protect clients facing claims of harassment, discrimination, wrongful termination or other workplace allegations.

Fiduciary Liability helps protect plan fiduciaries, including executives, plan trustees and administrators, and plan sponsors, against liability for the management or administration of employee benefit plans.

Crime Insurance helps protect organizations facing theft of currency or property by employees or third parties. Coverage may extend to phishing and social engineering tactics.
