3.1. Substa				
Name	: Ethane			
CAS-No.	:74-84-0			

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Name	Synonyms	Product Identifier	%	GHS US classification
Ethane	Ethyl hydride / ETHANE	(CAS-No.) 74-84-0	95 - 100	Flam. Gas 1, H220 Press. Gas (Liq.), H280 Simple Asphy, SIAS
n-Butane	Butane / BUTANE	(CAS-No.) 106-97-8	≤ 5.0	Simple Asphy, SIAS Flam. Gas 1, H220
Propane	Normal propane / PROPANE / n- Propane / R290	(CAS-No.) 74-98-6	≤ 5.0	Simple Asphy, SIAS Flam. Gas 1, H220 Press. Gas (Liq.), H280
Methane	Marsh gas / Methyl hydride / Methane, compressed	(CAS-No.) 74-82-8	≤ 2.5	Simple Asphy, SIAS Flam. Gas 1, H220 Press. Gas (Liq.), H280

Full text of H-phrases: see section 16. This product has a variable composition that is based on the composition of the individual feedstocks, as well as the extraction location of each feedstock. The listed percentages represent expected variations in composition but are not absolute. If additional information is required, contact the Manufacturer in Section 1 of this SDS. **3.2. Mixture**

Not applicable

SECTION 4: FIRST AID MEASURES

4.1. Description of First-aid Measures

First-aid Measures General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid Measures After Inhalation: First, take proper precautions to ensure your own safety before attempting rescue (e.g. wear appropriate respiratory protective equipment, use the buddy system), then remove the exposed person to fresh air. Give oxygen or artificial respiration if necessary. Obtain medical attention if breathing difficulty persists. Keep at rest in a position comfortable for breathing.

First-aid Measures After Skin Contact: For brief contact with a small amount: Rewarm with body heat. Get immediate medical advice/attention. For extensive contact or a large amount: Immediately call a poison center/doctor and follow their advice. Specific treatment is urgent, incorrect first-aid practices will aggravate the injury. Protect affected area with a loose cover until proper medical treatment is received.

First-aid Measures After Eye Contact: Rinse cautiously with water for at least 5 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

First-aid Measures After Ingestion: Ingestion is an unlikely route of exposure for a gas. Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

4.2. Most Important Symptoms and Effects Both Acute and Delayed

Symptoms/Injuries: May cause frostbite on contact with the liquid. Asphyxia by lack of oxygen: risk of death.

Symptoms/Injuries After Inhalation: In elevated concentrations may cause asphyxiation, central nervous system effects, and increased breathing rate. Symptoms of asphyxiation include headache, dizziness, rapid breathing, increased pulse, mood changes, tremors, cyanosis, muscular weakness, narcosis, numbness of the extremities, unconsciousness and death.

Symptoms/Injuries After Skin Contact: Contact with gas/liquid escaping the container can cause frostbite and freeze burns. Symptoms/Injuries After Eye Contact: Contact with gas/liquid escaping the container can cause frostbite, freeze burns, and permanent eye damage.

Symptoms/Injuries After Ingestion: Not considered a potential route of exposure, but contact with gas/liquid escaping the container can cause freeze burns and frostbite.

Chronic Symptoms: None expected under normal conditions of use.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand. **SECTION 5: FIRE-FIGHTING MEASURES**

5.1. Extinguishing Media

Suitable Extinguishing Media: Do not extinguish burning gas if flow cannot be shut off immediately. Extinguish secondary FIRES with appropriate materials.

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special Hazards Arising From the Substance or Mixture

Fire Hazard: Extremely flammable gas.

Explosion Hazard: May form flammable/explosive vapor-air mixture. Container may explode in heat of fire. **Reactivity:** Hazardous reactions will not occur under normal conditions.

Safety Data Sheet According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

5.3. Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

Firefighting Instructions: Use water spray or fog for cooling exposed containers. Leaking gas fire: Do not extinguish, unless leak can be stopped safely. Eliminate all ignition sources if safe to do so. Fight fire remotely due to the risk of explosion.

Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection. Hazardous Combustion Products: Carbon oxides (CO, CO₂).

Other Information: Use water spray to disperse vapors. Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures 6.1.

General Measures: Eliminate every possible source of ignition. Do not get in eyes, on skin, or on clothing. Do not breathe gas. For Non-Emergency Personnel 6.1.1.

Protective Equipment: Use appropriate personal protective equipment (PPE).

Emergency Procedures: Evacuate unnecessary personnel.

6.1.2. For Emergency Personnel

Protective Equipment: Equip cleanup crew with proper protection.

Emergency Procedures: Eliminate ignition sources first, then ventilate the area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Evacuate unnecessary personnel, isolate, and ventilate area. Ventilate area.

6.2. **Environmental Precautions**

Prevent entry to sewers and public waters. Avoid release to the environment.

6.3. Methods and Materials for Containment and Cleaning Up

For Containment: Stop leak, if possible without risk. As an immediate precautionary measure, isolate spill or leak area in all directions.

Methods for Cleaning Up: Clean up spills immediately and dispose of waste safely. Stop the source of the release, if safe to do so. Consider the use of water spray to disperse vapors. Isolate the area until gas has dispersed. Ventilate and gas test area before entering. Contact competent authorities after a spill.

6.4. **Reference to Other Sections**

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: HANDLING AND STORAGE

7.1. **Precautions for Safe Handling**

Additional Hazards When Processed: Handle empty containers with care because residual vapors are flammable. Ruptured cylinders may rocket. Do not pressurize, cut, or weld containers. Asphyxiating gas at high concentrations.

Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid prolonged contact with eyes, skin and clothing. Do not breathe gas.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

Conditions for Safe Storage, Including Any Incompatibilities 7.2.

Technical Measures: Comply with applicable regulations. Proper grounding procedures to avoid static electricity should be followed.

Storage Conditions: Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Keep in fireproof place. Cylinders should be stored upright with valve protection cap in place and firmly secured to prevent falling.

Incompatible Materials: Strong acids, strong bases, strong oxidizers.

7.3. Specific End Use(s)

Industrial Use

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. **Control Parameters**

For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), or OSHA (PEL).

n-Butane (10	6-97-8)

II Dutane (10

10.5. Incompatible Materials				
Strong acids, strong bases, strong oxidizers.				
10.6. Hazardous Decomposition Produc	ts			
Thermal decomposition may produce: Carbon o				
SECTION 11: TOXICOLOGICAL INFORMA				
11.1. Information on Toxicological Effects				
Acute Toxicity (Oral): Not classified				
Acute Toxicity (Dermal): Not classified				
Acute Toxicity (Inhalation): Asphyxiating gas at	high concentrations			
n-Butane (106-97-8)				
LC50 Inhalation Rat	30957 mg/m ³ (Exposure time: 4 h)			
LC50 Inhalation Rat	276798.8 ppm			
Propane (74-98-6)				
LC50 Inhalation Rat > 800000 ppm (Exposure time: 15 min)				
Ethane (74-84-0)				
LC50 Inhalation Rat > 800000 ppm/4h				
Methane (74-82-8)				
LD50 Dermal Rat	> 2000 mg/kg			
LC50 Inhalation Rat	539600 ppm (Exposure time: 2 h)			
Skin Corrosion/Irritation: Not classified				
Serious Eye Damage/Irritation: Not classified				
Respiratory or Skin Sensitization: Not classified				
Germ Cell Mutagenicity: Not classified				
Carcinogenicity: Not classified				
- /				
Reproductive Toxicity: Not classified Specific Target Organ Toxicity (Single Exposure): Not classified				
Specific Target Organ Toxicity (Repeated Expos	urej: Not classified			
Aspiration Hazard: Not classified	· · · · · · · · · · · · · · · · · · ·			
	d concentrations may cause asphyxiation, central nervous system effects, and			
	ation include headache, dizziness, rapid breathing, increased pulse, mood			
	, narcosis, numbness of the extremities, unconsciousness and death.			
	with gas/liquid escaping the container can cause frostbite and freeze burns.			
symptoms/injuries After Eye Contact: Contact	with gas/liquid escaping the container can cause frostbite, freeze burns, and			

permanent eye damage.

Symptoms/Injuries After Ingestion: Not considered a potential route of exposure, but contact with gas/liquid escaping the container can cause freeze burns and frostbite.

Chronic Symptoms: None expected under normal conditions of use.

Safety Data Sheet According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules an

SECTION 12: ECOLOGICAL INFORMATION				
12.1. Toxicity				
Ecology - General : Harmfu	Il to aquatic life with long lasting effects.			
12.2. Persistence and Degradability				
Ethane (74-84-0)				
Persistence and Degradability	May cause long-term adverse effects in the environment.			
12.3. Bioaccumulative Potential				
Ethane (74-84-0)				
Bioaccumulative Potential	Not established.			
n-Butane (106-97-8)				
Partition coefficient n-octanol/water (Log Pow)	2.31 (at 20 °C (at pH 7)			
Propane (74-98-6)				
Partition coefficient n-octanol/water (Log Pow)	1.09 (at 20 °C (at pH 7)			
Ethane (74-84-0)				
Partition coefficient n-octanol/water (Log Pow)	1.09 – 2.8 (at 20 °C (at pH 7)			
Methane (74-82-8)				
Partition coefficient n-octanol/water (Log Pow)	1.09			
12.4. Mobility in Soil				
Ethane (74-84-0)				
Ecology - Soil	Leaches if exposed to water.			
12.5. Other Adverse Effects				
Other Adverse Effects : N	None known.			
	Avoid release to the environment.			
SECTION 13: DISPOSAL CONSIDERATIONS				

13.1. Waste Treatment Methods

Waste Treatment Methods: Material should be recycled if possible. Incineration is also an acceptable method for disposal. **Sewage Disposal Recommendations:** Do not dispose of waste into sewer.

Waste Disposal Recommendations: Dispose of contents/container in accordance with local, regional, national, and international regulations.

Additional Information: Container may remain hazardous when empty. Continue to observe all precautions. Handle empty containers with care because residual vapors are flammable. Empty gas cylinders should be returned to the vendor for recycling or refilling. Do not puncture or incinerate container.

Ecology - Waste Materials: Avoid release to the environment. This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

SECTION 14: TRANSPORT INFORMATION

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

14.1. In Accordance with DOT

14.1. In Accordance with		
Proper Shipping Name		ETHANE
Hazard Class	:	2.1
Identification Number	:	UN1035
Label Codes	:	2.1
ERG Number	:	115
14.2. In Accordance with	IN	IDG
Proper Shipping Name	:	ETHANE
Hazard Class	:	2
Division	:	2.1
Identification Number	:	UN1035
Label Codes	:	2.1
EmS-No. (Fire)	:	F-D
EmS-No. (Spillage)	:	S-U

Safety Data Sheet According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Proper Shipping Name	:	ETHANE
Identification Number	:	UN1035
Hazard Class	:	2
Label Codes	:	2.1
Division	:	2.1
ERG Code (IATA)	:	10L

SECTION 15: REGULATORY INFORMATION

15.1. **US Federal Regulations**

Ethane (74-84-0)

SARA Section 311/312 Hazard Classes

Physical hazard - Flammable (gases, aerosols, liquids, or solids) Physical hazard - Gas under pressure Health hazard - Simple asphyxiant

n-Butane (106-97-8)

Listed on the United States TSCA (Toxic Substances Control Act) inventory - Status: Active

Propane (74-98-6)

Listed on the United States TSCA (Toxic Substances Control Act) inventory - Status: Active

Ethane (74-84-0)

Listed on the United States TSCA (Toxic Substances Control Act) inventory - Status: Active

Methane (74-82-8)

Listed on the United States TSCA (Toxic Substances Control Act) inventory - Status: Active

EPA Toxic Release Inventory Information

For more information concerning the Toxic Release Inventory concerning this product, please contact the Manufacturer as noted in Section 1 and ask for the Environmental Group. Please note that there is considerable variability in this product as noted in Section 3.

15.2. **US State Regulations**

n-Butane (106-97-8)

U.S. - New Jersey - Right to Know Hazardous Substance List

U.S. - Pennsylvania - RTK (Right to Know) List

U.S. - Massachusetts - Right To Know List

Propane (74-98-6)

SECTION 16: OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION

Date of Preparation or Latest Re	vi
Other Information	

01/10/2023 :

- ision

This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200

GHS Full Text Phrases:

H220	Extremely flammable gas
H280	Contains gas under pressure; may explode if heated

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
