Your Enrollment Checklist and *the Moments in Between*

Know What's Changing

Most of your benefit plans and coverage are staying the same, but there are a few important updates to know before you enroll.

Medical contributions are increasing

Healthcare costs continue to increase significantly nationwide. As a result, medical premiums are increasing next year. Despite rising healthcare costs, ONEOK continues to make a substantial investment in its benefit programs and remains committed to offering competitive and sustainable healthcare coverage.

Vision and dental costs

There are no increases in vision or dental costs.

Disabled dependent eligibility update

To continue coverage for disabled dependents past the age of 26, they must now be claimed as a tax dependent on your or your spouse's/domestic partner's tax return.

Some programs are ending

While many valuable benefits and resources will continue in 2027, Ovia, Bright Horizons and PetPartners pet insurance will end Dec. 31, 2026. If you currently participate in one of these programs, contact HR Solutions if you have questions.
