# DIGITAL ROTARY NETWORK FAQs

- / What is the Digital Rotary Network?** The DRN is comprised of 12 specific Digital Bulletins, located across the Orlando metro area.
- / How does it work?** A Digital Bulletin runs a total of 8 spots for :08 each. We use the 8<sup>th</sup> spot on 12 specific Digital Bulletins to run the 12 seats of the DRN. You play on one of the 12 DRN Bulletins, then move to the next DRN Bulletin to queue up for your seat to play within the 8<sup>th</sup> spot. You play on that Bulletin and then, you move to the next DRN Bulletin and do the same. When your message rotates through all 12 DRN Bulletins, you start over at the beginning and continue to cycle through the DRN repeatedly.
- / Can I buy more than one seat on the DRN?** Yes, pending availability. There are a max of 12 seats available.
- / How long does each seat play?** :08 on each DRN Bulletin
- / What size artwork and file type are required for the DRN?**  
720 px wide x 208 px high; JPG.
