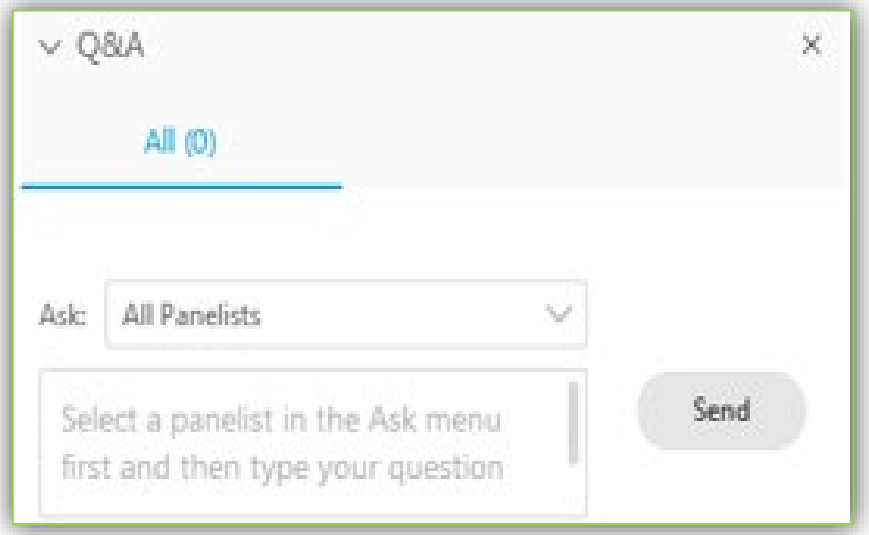
MY2026 Partnership Quality Dashboard (PQD) Kick-Off Webinar

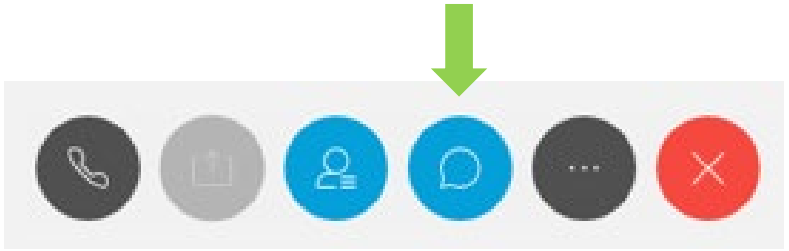
Amber Newell and Athena Beltran-Nampraseut

May 12, 2026

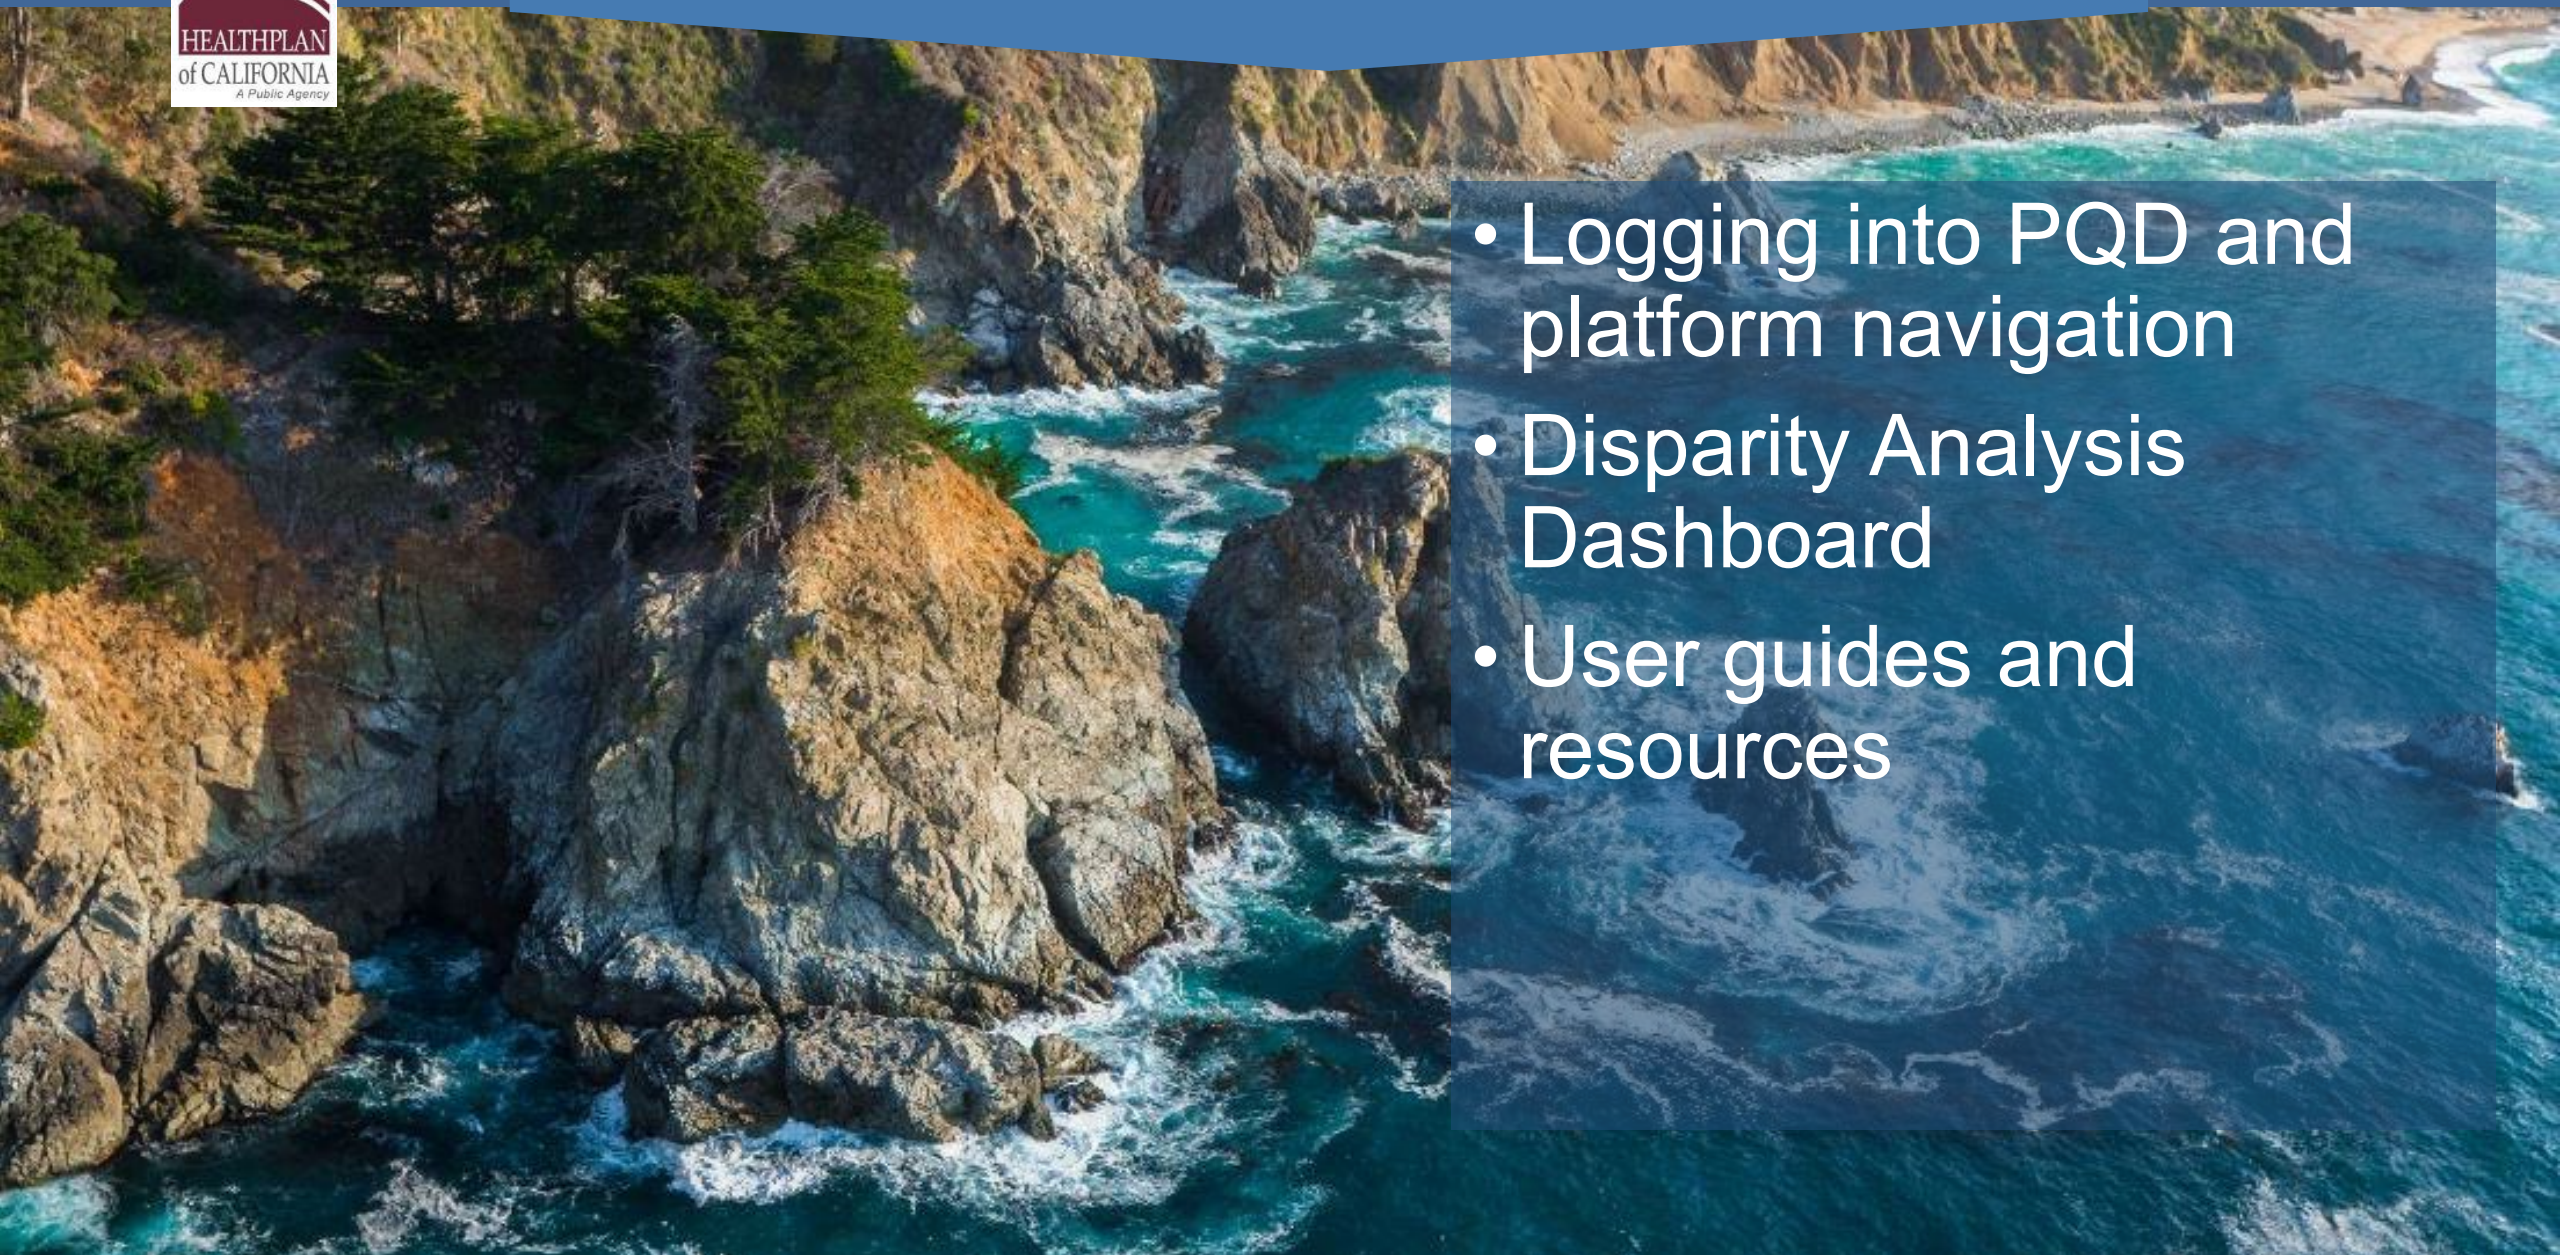
Webinar Instructions

- This webinar is being recorded.
- All participants have been muted to eliminate any possible noise interference/distraction.
- If you have a question, please type your question in the CHAT BOX, and address to “ALL PANELISTS.”





Agenda



- Logging into PQD and platform navigation
- Disparity Analysis Dashboard
- User guides and resources

PQD Background

- The PQD is a Tableau dashboard that is integrated into eReports and designed to visualize Primary Care Provider Quality Incentive Program (PCP QIP) data.
- PQD is designed to inform, prioritize, and evaluate quality improvement efforts. Dashboards and performance metrics built into the PQD provide the ability to track and trend QIP data. Performance data in PQD can be presented in executive summary views and drilled-down to the patient demographic level.

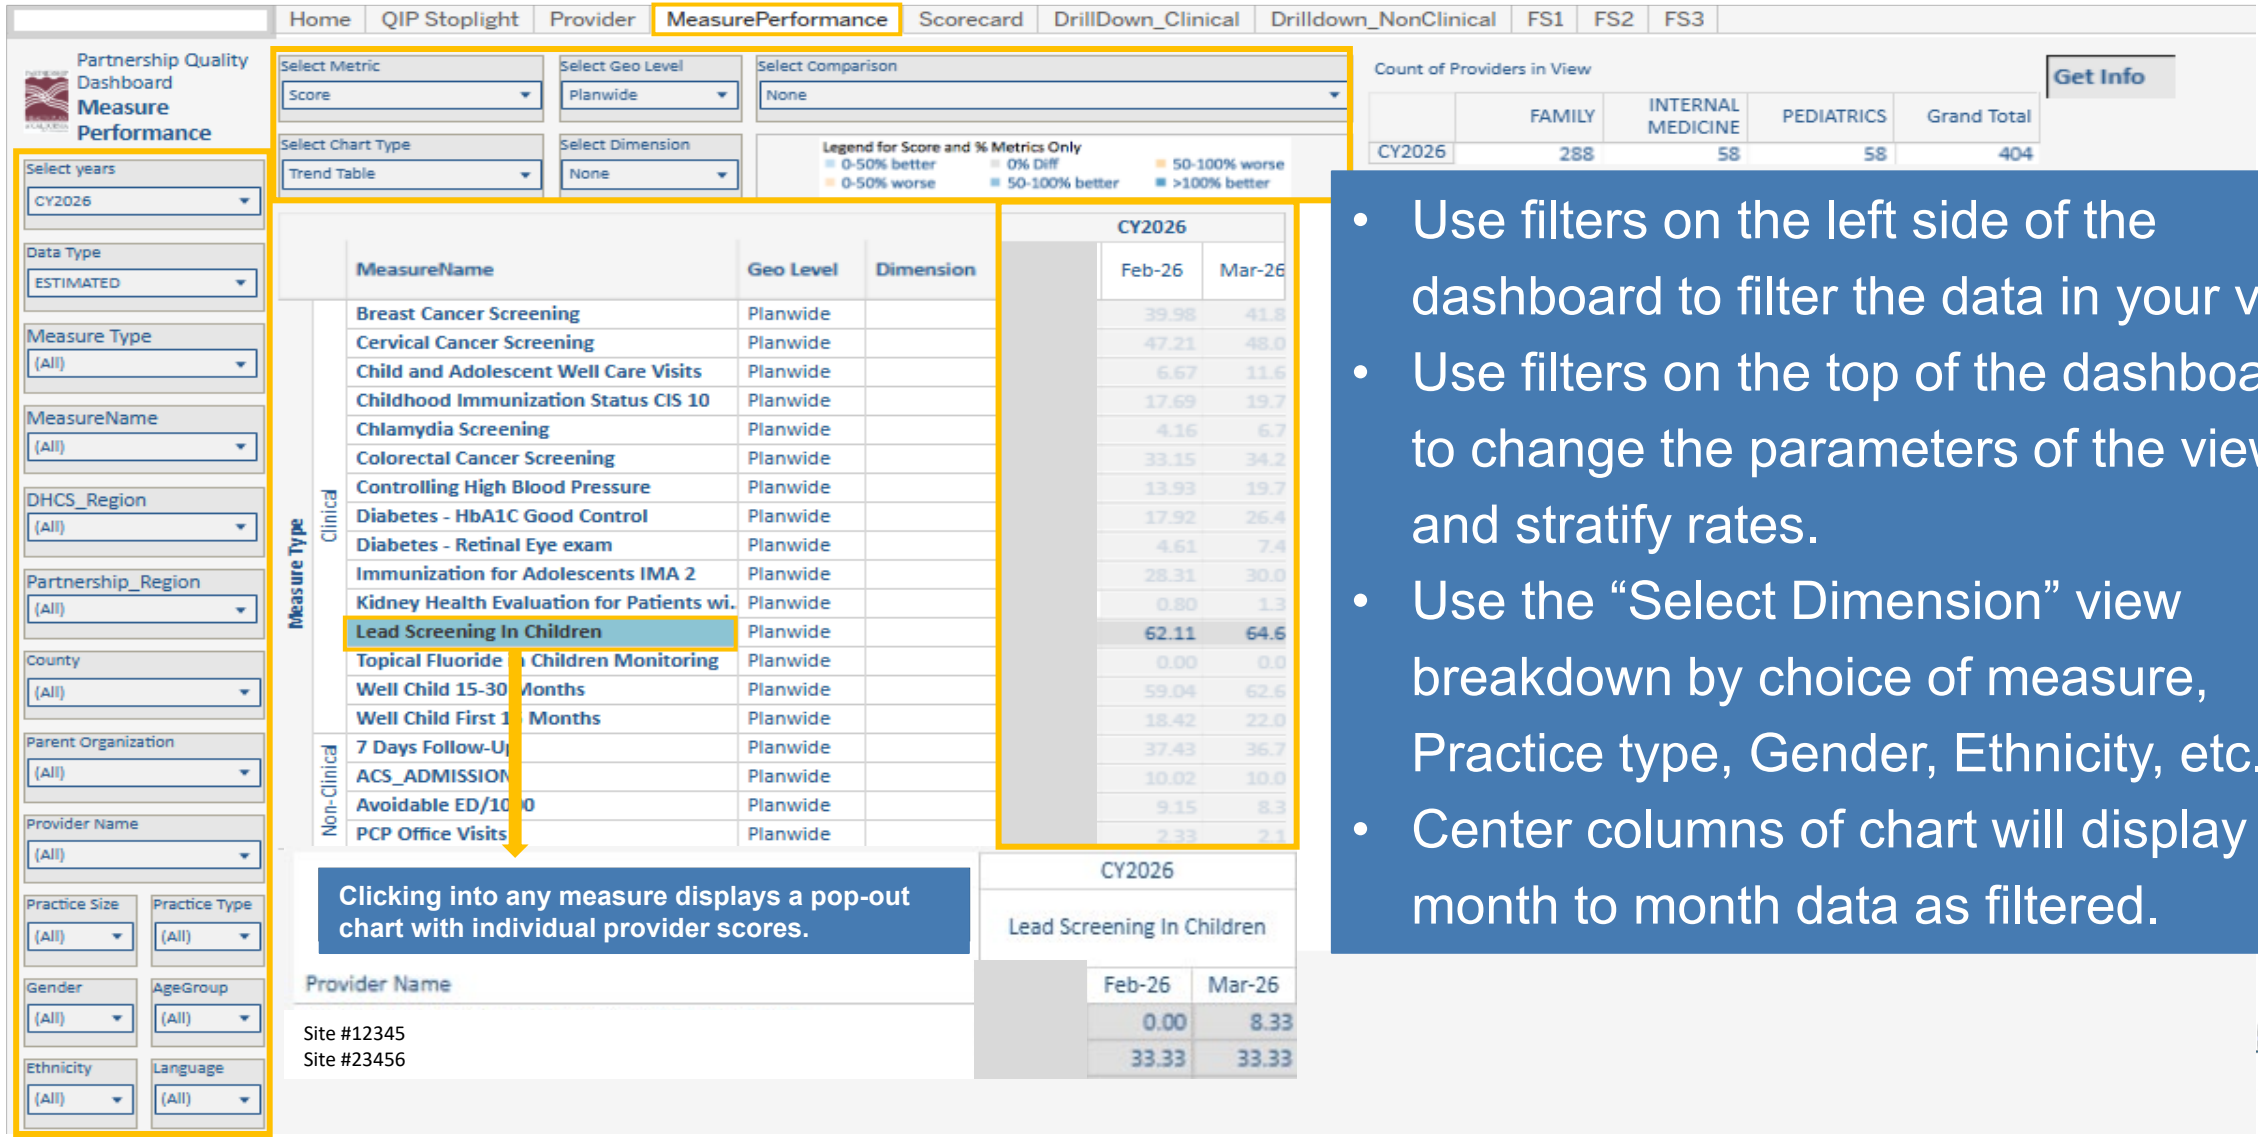
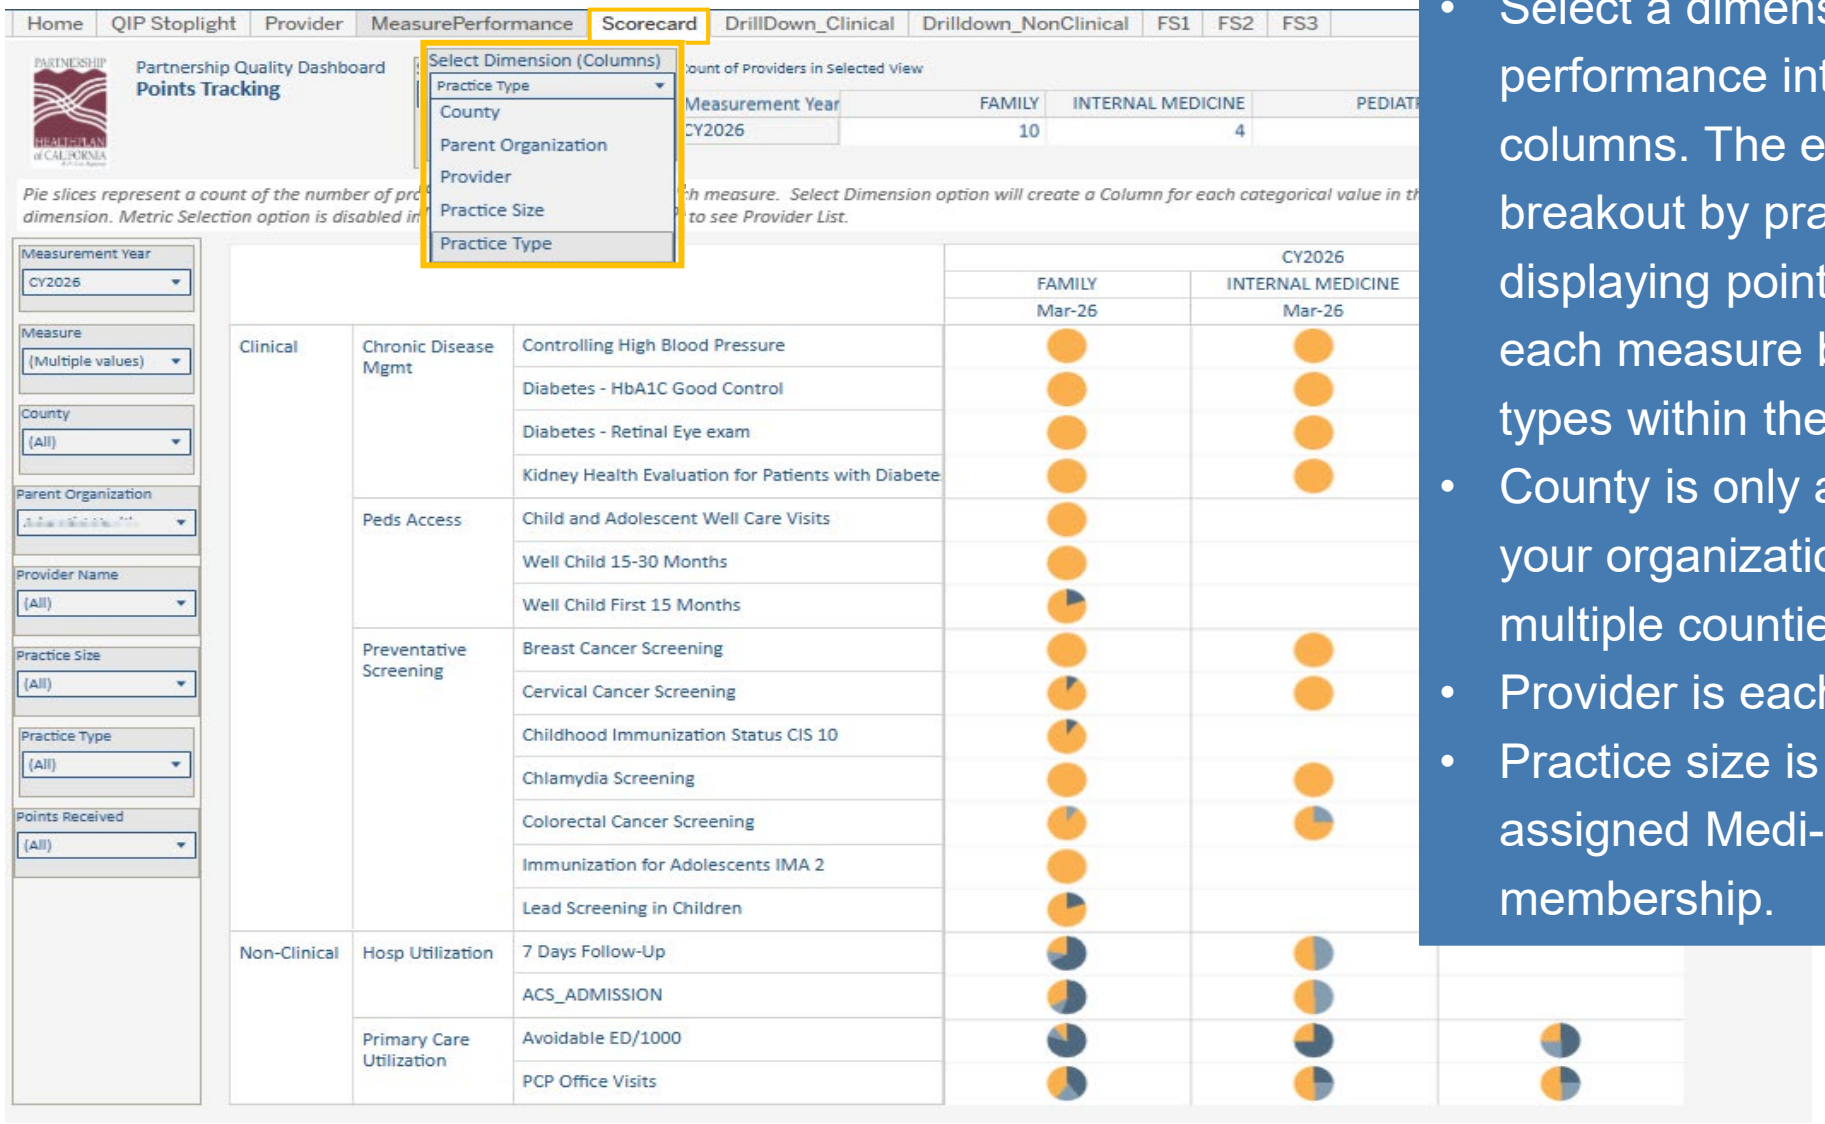
Measure Performance



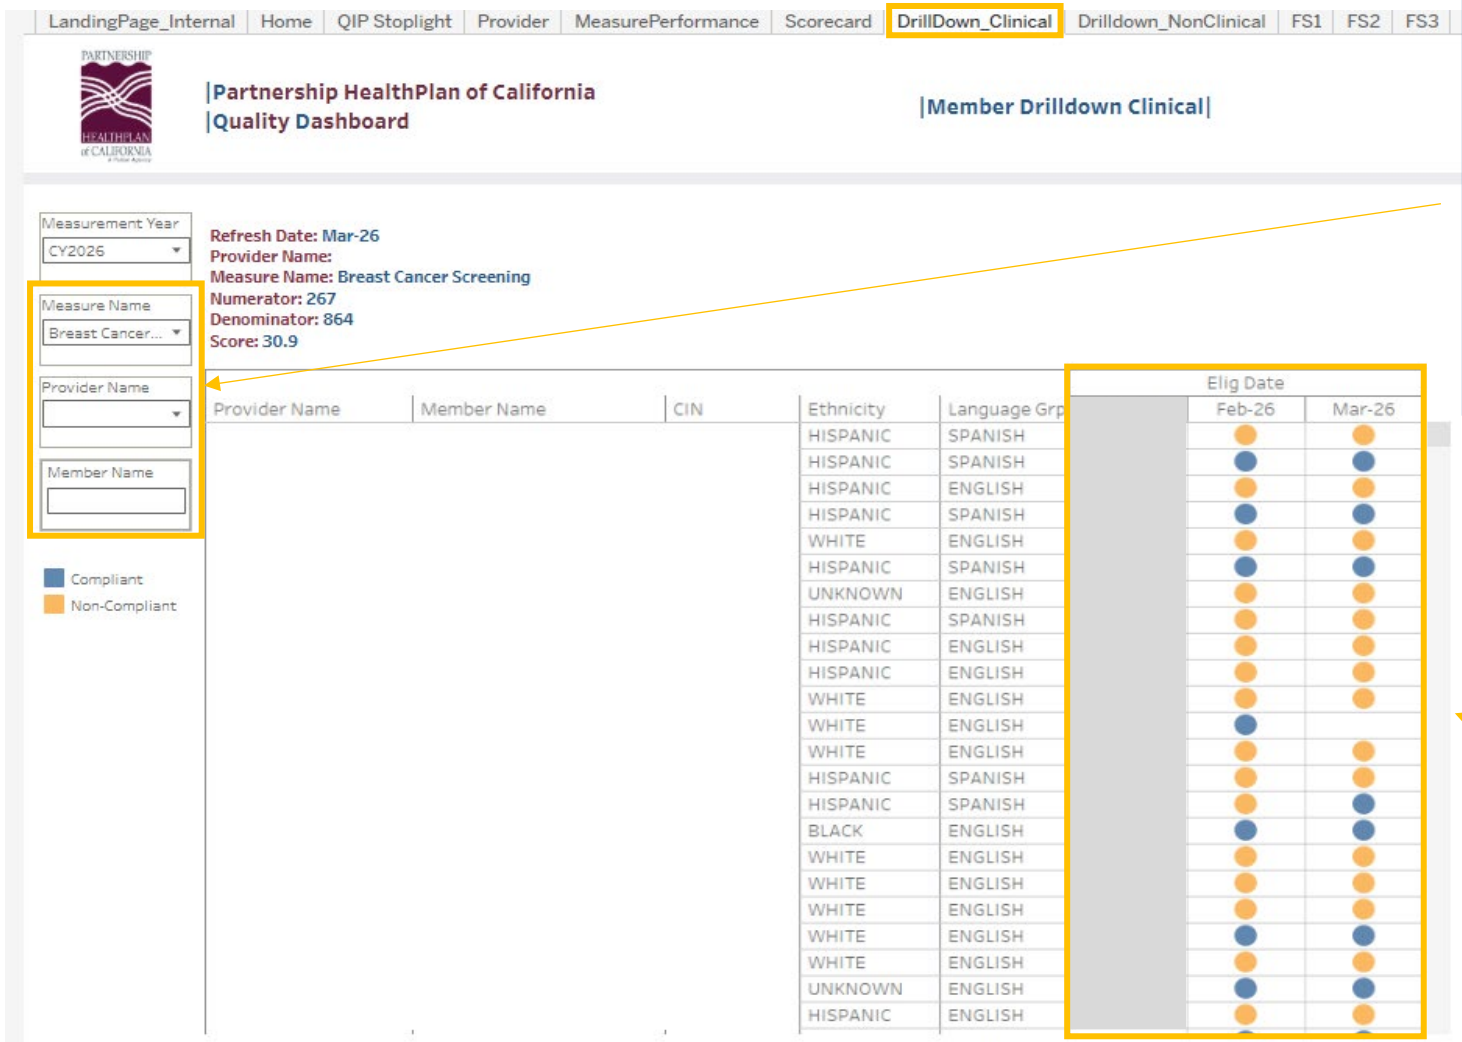
- Use filters on the left side of the dashboard to filter the data in your view.
- Use filters on the top of the dashboard to change the parameters of the view and stratify rates.
- Use the “Select Dimension” view breakdown by choice of measure, Practice type, Gender, Ethnicity, etc.
- Center columns of chart will display month to month data as filtered.

Scorecard – Dimension Filter



- Select a dimension to break out performance into individual columns. The example shows breakout by practice type, displaying points earned for each measure by practice types within the organization.
- County is only applicable if your organization spans into multiple counties.
- Provider is each individual site.
- Practice size is based on total assigned Medi-Cal primary membership.

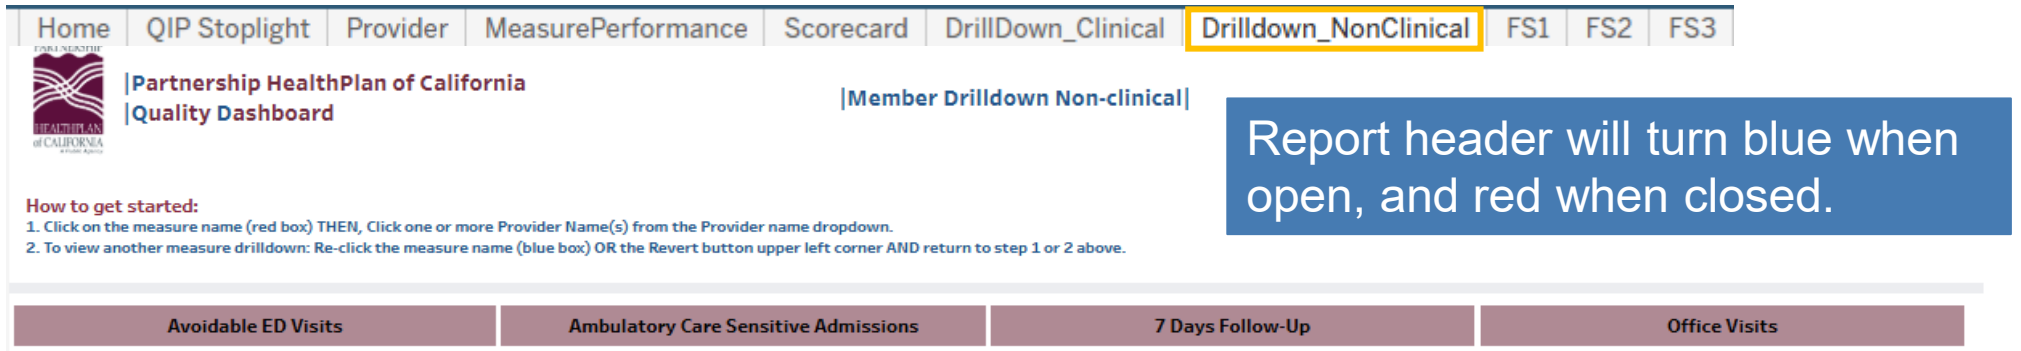
Clinical Member Drilldown



- Select Provider Name to view site's member compliance list.
- Select Measure Name to view member compliance list for the measure.
- Use Member Name text box to search for a member by name.

Report displays denominator data with month-to-month compliance.

Non-Clinical Member Drilldown



Report header will turn blue when open, and red when closed.

- Single click measure name to open and close dashboards.
- Hide reports before viewing another report.
- Provider site must first be selected to populate reports, see example on next slide.

Non-Clinical Member Drilldown – Report

You must select a Provider Name from the dropdown for the report to population.

Questions and Answers

Q: Is there a way to see performance rankings by county?

A: Yes. Performance rankings by county are visible under the “Provider” tab in the PQD. Select “County” from the “SelectRanking” dropdown menu, which is located above the gray bar graph on the righthand side of the webpage.

Q: Can you explain what the “Total Org Gap” column indicates on the QIP Stoplight?

A: The “Total Org Gap” column displays the number of patients needed to treat for a parent organization to meet partial or full points for the measure.

Q: How do I access the PQD?

A: The PQD is housed in eReports and can be accessed from the eReports menu bar.

Q: Is the data for the Avoidable ED Visits measure updated on the 10th of each month, or is it updated as members are seen in the emergency room?

A: Non-clinical measure data is refreshed on the 10th day of the following month – the same time as the PQD.
