

2026 Quality Incentive Program Pediatric Clinical Measures: Clinician Quick Reference Guide

*****FOR COMPLETE INFORMATION, PLEASE REFER TO THE 2026 DETAILED MEASURE SPECIFICATIONS IN eREPORTS*****

Measure Name	Who qualifies in the measure? (Denominator)	How to meet the measure? (Numerator)	Tips										
Child and Adolescent Well Care Visits (WCV)	Members ages 3 – 17 as of December 31, 2026. DOB between January 1, 2009, and December 31, 2023.	At least one well-care visit with a PCP or OB/GYN during the measurement year. Must include history, physical exam, anticipatory guidance, and developmental / behavioral screening.	Components of the WCV can be spread across multiple visits, as long as they all occur and are documented in the measurement year.										
Childhood Immunization Status (CIS 10)	Members turning two years old between January 1 and December 31, 2026. DOB between January 1, 2024, and December 31, 2024.	<table border="0"> <tr> <td>4 dose DTaP</td> <td>3 dose IPV</td> </tr> <tr> <td>1 dose MMR</td> <td>3 dose HiB</td> </tr> <tr> <td>3 dose HepB</td> <td>1 dose VZV</td> </tr> <tr> <td>4 dose PCV</td> <td>1 dose HepA</td> </tr> <tr> <td>2 or 3 dose RV</td> <td>2 dose flu</td> </tr> </table> <p>ALL doses must be completed by the second birthday.</p>	4 dose DTaP	3 dose IPV	1 dose MMR	3 dose HiB	3 dose HepB	1 dose VZV	4 dose PCV	1 dose HepA	2 or 3 dose RV	2 dose flu	Rotavirus (RV) must be completed before eight months of age, per ACIP rules. Series combination vaccines count if all antigens are included.
4 dose DTaP	3 dose IPV												
1 dose MMR	3 dose HiB												
3 dose HepB	1 dose VZV												
4 dose PCV	1 dose HepA												
2 or 3 dose RV	2 dose flu												
Chlamydia Screening (CHL)	Members ages 16 – 24 and assigned female at birth. DOB between January 1, 2002, and December 31, 2010.	At least one test for chlamydia during the measurement year.	Universal screening of all members ages 16 – 24 is recommended, regardless of reported sexual activity.										
Lead Screening in Children (LSC)	Members turning two years old between January 1 and December 31, 2026. DOB between January 1, 2024, and December 31, 2024.	At least one lead capillary or venous blood test on or before the second birthday.	Testing is required at 12 and 24 months. Do catch-up testing for members 24 – 72 months who missed it. In-office POC or sample collection is preferred over external lab orders.										
Immunizations for Adolescents (IMA 2)	Members turning 13 years old between January 1 and December 31, 2026. DOB between January 1, 2013, and December 31, 2013.	<table border="0"> <tr> <td>1 dose meningococcal vaccine</td> </tr> <tr> <td>1 dose Tdap</td> </tr> <tr> <td>HPV vaccination series</td> </tr> </table> <p>ALL doses must be completed by the 13th birthday.</p>	1 dose meningococcal vaccine	1 dose Tdap	HPV vaccination series	Start HPV shots at age nine to avoid timing issues; a six-month interval is required between the first and second doses. Educate parents and teens about the HPV vaccine and its effectiveness for preventing multiple cancers.							
1 dose meningococcal vaccine													
1 dose Tdap													
HPV vaccination series													

2026 Quality Incentive Program Pediatric Clinical Measures: Clinician Quick Reference Guide

*****FOR COMPLETE INFORMATION, PLEASE REFER TO THE 2026 DETAILED MEASURE SPECIFICATIONS IN eREPORTS*****

Measure Name	Who qualifies in the measure? (Denominator)	How to meet the measure? (Numerator)	Tips
Well-Child Visits in the First 15-Months of Life (W15 or W30+6)	Members turning 15-months between January 1 and December 31, 2026. DOB between October 3, 2024, and October 2, 2025.	At least six well-child visits with a PCP by the age of 15-months.	Visits must be at least 14 days apart. Schedule the next WCV before the patient leaves the clinic to prevent care gaps.
Well-Child Visits in the First 15- to 30-Months of Life (W30 or W30+2)	Members turning 30-months between January 1 and December 31, 2026. DOB between July 5, 2023, and July 4, 2024.	At least two well-child visits on different dates of service between the age of 15-months plus one day and the age of 30-months.	Visits must be at least 14 days apart. Schedule the next WCV before the family leaves the clinic to prevent care gaps.
