

Notice of privacy practice

Effective Date of this Notice

This notice has been updated and is effective June 10, 2026.

Why am I receiving this Notice?

Partnership HealthPlan of California (“**Partnership**”, “**we**”, “**our**”, or “**us**”) is required by law to maintain the privacy and confidentiality of your medical information and protected health information (collectively, “**PHI**” or “**health information**”), provide you with adequate written notice of our legal duties and privacy practices, and to notify you following a breach of your unsecured PHI. Any disclosure of PHI beyond the provisions of applicable law is prohibited.

Partnership agrees to follow the terms of this Notice of Privacy Practices (“**Notice**”). We also have the right to change the terms of this Notice if it becomes necessary and to make the new Notice effective for all health information we maintain. If we need to make any changes, we will post it on our website and notify you via mail in our next annual mailing to you at your address in our records. If you received this Notice electronically, you have the right to request a paper copy from us at any time.

What is PHI?

PHI is individually identifiable health information, such as your name, Social Security number, birthdate, medical condition or diagnosis, prescriptions, lab tests, and payment history. PHI also includes race/ethnicity, language, gender identity, sexual orientation, and pronoun data. Your disclosure of this type of information does not negatively affect how Partnership makes decisions about your benefits or impact your access to covered services. PHI may be in oral, written, or electronic form.

Partnership collects this information from you, your health care provider or other health care providers on your behalf, and the State of California. Partnership protects this information consistent with privacy laws, including the Health Insurance Portability and Accountability Act of 1996 (“**HIPAA**”) and the California Confidentiality of Medical Information Act (“**CMIA**”). Partnership ensures the confidentiality of your information, for example, by requiring Partnership staff to complete HIPAA and CMIA trainings, using password protections, and granting staff access to your information only at the level necessary to do their job.

treatment you receive. We use this information and disclose it to others for the following purposes:

- **Treatment.** Partnership uses your health information to coordinate your health care, and we disclose it to hospitals, clinics, physicians, and other health care providers to enable them to provide healthcare services to you. For example, Partnership maintains your health information in electronic form and allows pharmacies to have on-line access to it to provide appropriate prescriptions for you.
- **Payment.** Partnership uses and discloses your health information to facilitate payment for healthcare services you receive, including determining your eligibility for benefits and your provider's eligibility for payment. For example, we inform providers that you are a member of our plan and tell them your eligible benefits.
- **Healthcare Operations.** Partnership uses and discloses your health information as necessary to enable us to operate our health plan. For example, we use our members' claims information for conducting quality assessment and improvement activities, patient safety activities, business management and general administrative activities, and reviewing competence or qualifications of healthcare professionals.
- **Underwriting.** For underwriting or related purposes, such as premium rating or other activities related to the creation, renewal or replacement of a contract of health insurance or benefits as required by law, but we are prohibited from using or disclosing genetic information for these purposes.
- **Business Associates.** Partnership may contract with business associates to perform certain functions or activities on our behalf, such as facilitating a health-information exchange, where your health information can be quickly accessed by your provider or to provide appointment reminders. When working to process payment, provide care to our members, or within our daily operations, Partnership may disclose your health information to our contractors. Before we make any disclosures for payment or operational purposes, we obtain a confidentiality agreement from each contractor. For example, companies that provide or maintain our computer services may have access to health information within the course of providing services. Partnership works to ensure that our contractors have as minimal contact with your health information as possible.
- **Health Information Exchange.** Partnership participates in multiple Health Information Exchanges (“HIEs”), which allow providers to coordinate care and provide faster access to our members. HIEs assist providers and public health officials in making more informed decisions, avoiding duplicate care (such as tests), and reducing the likelihood of medical errors. By participating in an HIE, Partnership may share your health information with other providers and participants as permitted by law. If you do not want your medical information

(Note: In some circumstances, your health information may not be disclosed. For example, mental health diagnosis and treatment, diagnosis or treatment for substance use disorder, and STD, birth control, or HIV test results are all considered 'Protected Records' and require your direct authorization to be shared. Any identifiable information about abortion or abortion-related services will not be shared on an HIE or to an out-of-state individual, agency or department, unless you provide written authorization or a legal exception exists.)

- **Communication and Marketing:** Partnership will not use your health information for marketing purposes for which we receive payment without your prior written authorization. Partnership may use your health information for communications for case management or care coordination purposes and related functions without your authorization. - **Sale of your health information:** We will not sell your health information without your prior written authorization.
- **Fundraising:** For fundraising for Partnership, you can tell us your choices about what we share. If you have a preference for how we share your information or contact you for fundraising purposes, talk to us. Tell us what you want us to do, and we will follow your instructions. You have both the right and choice to tell us not to contact you for fundraising purposes.

Can my health information ever be released without my permission?

Yes, Partnership may disclose health information without your authorization to government agencies and private individuals and organizations in a variety of circumstances in which we are required or authorized by law to do so. Certain health information may be subject to restrictions by federal or state law that may limit or prevent some uses or disclosures. For example, there are special restrictions on the disclosure of health information relating to HIV/AIDS status, genetic information, mental health treatment, developmental disabilities, and substance use disorder treatment. We comply with these restrictions in our use of your health information.

To the extent that we have your substance use disorder treatment records, subject to 42 CFR part 2, we will not use or disclose that information for investigations or civil, criminal, administrative, or legislative proceedings against you without (1) your written consent, or (2) a court order and a subpoena requiring the disclosure.
