

Quality Improvement and Health Equity
Committee (QIHEC) Quarterly Summary –
May 2026

Introduction

The Quality Improvement Health Equity Committee (QIHEC) is a DHCS-mandated committee that is part of the larger Quality Improvement Health Equity Transformation Program (QIHETP). In alignment with the Department of Health Care Services, Partnership's chief governing body, the QIHEC is co-chaired by the Director of Health Equity/Health Equity Officer (HEO) and Chief Medical Director/Officer (CMO). It is comprised of various stakeholders including but not limited to community-based organizations, academic institutions, clinical staff, and Partnership staff members.

QIHEC is responsible for analyzing and evaluating the results of quality improvement and health equity activities including an annual review of the results of performance measures, utilization data, consumer satisfaction surveys, and findings and activities of internal Partnership specific committee.

This committee is also responsible for developing actions to address performance deficiencies and ensuring appropriate follow-up of identified performance deficiencies. Furthermore, the QIHEC meets bi-monthly to align interdepartmental efforts promoting health equity through both member-facing and systemic interventions outlined in the C&L/QIHETP Work plan. Lastly, the QIHEC provides recommendations to the Quality/Utilization Advisory Committee (Q/UAC) (see policy MPQP1002). For more details on QIHETP and the QIHEC, refer to MCED6001 and MCEP6002.
