

Balik Kampung and Return to Work Safely

Each of us must be excited and counting the days towards Hari Raya Aidilfitri. However, throughout this long festive season, we want to make sure **safety remains topmost priority** in our daily operations. Please ensure your critical logistics to support operations are available, arrange your leave among your team so that it won't interrupt any immediate responses needed and it is also crucial that you have all the important contacts on hand at all times.

Many of us are going to celebrate Hari Raya in the plant since we are in the midst of PRefChem start-up. Our plant O&M teams are at the forefront and they are supported by enablers such as CEFS personnel, medical and security teams, as well as the meal & transport logistic team. I salute their dedication and I convey my utmost gratitude on their sacrifices.

After two years of MCO, no one would want to miss meeting up with Mak Ngah, Mak Teh and Ayah Long. Not to mention, the joy of laughing on throwbacks with them over rendang and ketupat. Just be mindful of social distancing, good personal hygiene and do self-tests regularly. But **PLEASE REFRAIN** yourself from meeting others if you feel that you are developing any symptoms.

For those who plan to Balik Kampung, let's not forget to check your tires, lights, brakes etc. Plan your journey, take a good rest before you begin driving. Be careful while you are on the road and ensure that the road emergency contact number is in your safekeeping.

Lastly, Selamat Hari Raya Aidilfitri, Maaf Zahir Batin & Stay Safe!

PETRONAS COO Encik Adnan visits PIC

On 18th March 2022, the Pengerang Integrated Complex (PIC) welcomed PETRONAS Group Chief Operating Officer Encik Adnan Zainal Abidin for his inaugural two-day visit. He was received by SVP & CEO of PRPC Encik Kamal Bahrin Ahmad and CEO of PRefChem, Encik Zamri Japar as well as Leadership Teams from both PRPC and PRefChem.

The PETRONAS Board of Directors were updated on the latest status of the PRefChem Start-up, followed by a briefing on the Asset Integrity Confidence Enhancement (AICE) by PRefChem's GM of Technical Discipline Support, Encik Zuraimi M Idris and finally, a presentation on Start-Up Readiness by PRefChem's Head of Manufacturing, Datuk Hashim Majid. The vibes from the PRPC and PRefChem leadership teams indicated a sense of assurance and hopefulness, instilling confidence that PIC is on track for the start-up.

Later in the evening, Encik Adnan together with the VP Refinery, Trading & Marketing, En Ahmad Adly Alias, VP LNG Asset, En Abang Yusuf Abang Puteh and VP Gas & Power, En A Aziz Othman, joined in to share the joy of Ramadan with staff of PIC and the community of Pengerang at Masjid Al-Falah. Leaders also distributed bubur lambuk to a hundred smiling faces of PIC staff to celebrate Ramadan together.

"I feel honoured to be here for the first time under the capacity of the Group COO and to be given the opportunity to engage directly with the staff on the ground and listen to stories of the people of Pengerang," said Encik Adnan during the Majlis Penyerahan Sumbangan kepada Anak-Anak Yatim Pengerang. Fifty orphans from seven villages around PIC were given hampers, duit raya and school bags.

After break fasting, they then performed Maghrib, Isha and Tarawih prayers in congregation on the eve of Nuzul Quran for a safe and successful start-up. The event was made even more special by a live call from Datuk Tengku Taufik all the way from Kuala Lumpur.

"For the staff of PIC, I want you to know that your leaders here in Kuala Lumpur stand with you, and we pray for a successful and safe start-up in the midst of Raya celebration. I know that this year's Raya will be different, but I believe, together, we can do it," said Datuk Tengku Taufik.

The visit ended with a site visit around PIC. The delegation witnessed the progress of ARDS rectification and proceeded to the MCB for a quick tour.

Quote of the Week

“Road safety is of paramount importance. While we are excited to celebrate the upcoming Hari Raya Aidilfitri, we implore with everyone to be mindful of road safety while travelling.”

Asmarida Abdullah
Program Leader, PIC Road Safety Program 2022

Tazkirah

Nilai Integriti bermaksud melakukan suatu perkara yang betul walaupun tidak dilihat atau diketahui oleh orang lain. Salah seorang anak perempuan nabi syu'aib telah berkata: "Wahai ayah, ambillah dia(nabi musa) menjadi pekerja kita(mengembala kambing), sesungguhnya sebaik-baik orang yang ayah ambil bekerja ialah orang yang kuat, lagi amanah". (Al-Qasas, Ayah 26)

What's Good in Pengerang?

Mohamad Sofian Ismail has been selling kuih raya and kerepek made by the locals for the past 10 years at his shop in **Felda Papan Timur**. Every imaginable kuih raya and kerepek can be found here. And they're cheap too. The kuih raya is priced between RM15 and RM30 whereas kerepek can be bought as low as RM5 per bag. Frozen kuihs can be found here as well. Sofian's shop is huge and worthwhile to buy **cheap kuih raya** for your family before heading back to your kampung for Hari Raya. Call or WhatsApp Sofian at **0197165331** to know more.

*Selamat Hari Raya Aidilfitri
Maaf Zahir & Batin*
