

Leader's Quote of the Week

“Safety will always remain our utmost priority and let us remind ourselves that such risks do exist in any plant environment and should not be underestimated. We must stay vigilant at all times and ensure that all safety measures are not being compromised.”

Hanafi Dewa

Chief Executive Officer, PRefChem

Bowling Night: Strike or spare?

While gearing up towards the new year, it is always a good thing to build on the existing relationships and camaraderie between all staff. With this in mind, a 'Bowling Night: Strike or Spare' event was held at the Lite Superbowl Desaru, SKS City Mall on 22 Dec 2021.

The event lasted for two hours and saw the participants competing against each other in healthy competition. A total of 50 people attended the event including the organising team and family members from PRPC UF, PePSB and PC INA. Also present was Head of Human Resources, En Hairulanam Suhari.

Among the objectives of holding the event was to strengthen good relationship between the Human Resources Management (HRM) and other departments in PRPC UF & PC INA as well as to inculcate the **#oneteamonegoal** spirit through sports activities. All in all, it was a good way to wrap up the year.

Thank you to the organising committee for ensuring that the event went smoothly and enjoyed by everyone while tightening the bond between staff.

Congratulations to En C Rapi Mohammad and Pn Samsiah M Tamin for winning the Best Bowler categories and to all winners for making the event a successful one. **May we begin next year refreshed and recharged!**

PRefChem

extends aid to

Pengerang students

One of the biggest impacts of the lockdown is the closure of schools across the country. Although the Ministry of Education has implemented home-based online learning initiative known as 'Pelaksanaan Pengajaran dan Pembelajaran di Rumah (PdPR)', there is still a percentage of students who are not able to participate because they do not have the right devices.

PRefChem has recently donated tablets to Sekolah Kebangsaan Lepau, Sekolah Kebangsaan Pengerang and Sekolah Kebangsaan Tanjung Pengelih. The objective is to ensure the underprivileged children from our communities are not left behind in their education during PdPR.

The handover ceremony took place at the respective schools and PRefChem was represented by Mr. Hassan H. Al-Yami, Head of Engineering and Dr. Dzulqarnain Abu Bakar, Manager, Risk, Culture and Change Management, HSSE.

The tablets were handed over to En. Mazri Ishak, representative from Sekolah Kebangsaan Lepau, En. Sharuza Hashim, Headmaster of Sekolah Kebangsaan Pengerang and En. Noor Shahid Darmin, Headmaster of Sekolah Kebangsaan Tanjung Pengelih.

It is estimated that approximately 60 students will benefit from the tablets.

20 *Happy New Year* 22
