

Welcome onboard, PRefChem CEO Joost Emmen

Taking the helm from En Zamri Japar, Mr Joost Emmen began his first engagement with PRefChem staff with "Apa khabar semua?" message. Succeeding En Zamri Japar as the new PRefChem's CEO, he thanked En Zamri Japar for ensuring a safe and successful start-up and a smooth and safe transition.

"I'm confident that with all your experiences and commitment, PRefChem will have a bright future. By working together, we can accelerate our deliveries and achievements as we head towards commercial operation. Of course, it all starts with safety. Safety is the foundation of everything and must never be compromised.

"Everyday, we must reinforce our safety culture and ensure compliance to our safety standards and controls. We must pledge to always place safety above anything else to protect ourselves and protect others. This is our moral obligation to our co-workers, our families and the communities around us. Together, we can make PIC a safe place to work," said Joost.

As a holder of Master of Science in Chemical Engineering from Delft University of Technology, Netherlands, Joost brings 28 years of extensive experience in the petrochemical industry in Europe, North America and Asia.

As an engineer, he held numerous positions and possesses strong operational experience with direct oversight of sizeable and complex refineries and petrochemical facilities including in Joint Venture (JV) organisation.

Prior to joining PRefChem, Joost served as President of the Fujian Refining and Petrochemical Company (FREP) in China. He also served as Site Manager at ExxonMobil Huizhou Chemical Company and most recently as the Chairman of the Board of Directors and Legal Representative at Huizhou QuanMei Petrochemical Terminal, a JV between ExxonMobil and Vopak

OE R2 Series

MFWP

In paving the way towards a World Class & Empowered Organisation, it is important to have a standardized way of doing work across functions, to define requirements and retain knowledge while improving the speed of decision-making for the people closest to the action. The Maintain Facility Work Process (MFWP) is aimed to incorporate all these three elements in OE R2 3Play.

MFWP aims to enhance the current way of doing things by standardizing the good practices to ensure sustainable performance with assurance and control plan in place. In 3PLAY, MFWP will provide the offensive game play strategy, that is to ensure SAFE, RELIABLE and EFFICIENT organisation. It will help PRPC to be DISTINCTIVE, COMPETITIVE and SUSTAINABLE in realizing PIC's vision to become 'THE Regional Petrochemical Park', supporting MFT 50.30.0.

Post MFWP, we hope to collaboratively embark on evolution from "Leader-Centred" to "Shared Leadership" Empowerment Stage, ultimately reaching "Self-directed" in Our Empowerment Journey. Alhamdulillah, we are on the right track to achieve our target of "READY TO PROCEED" in Initial Implementation assessment (IIA) targeted on 21 November 2022.

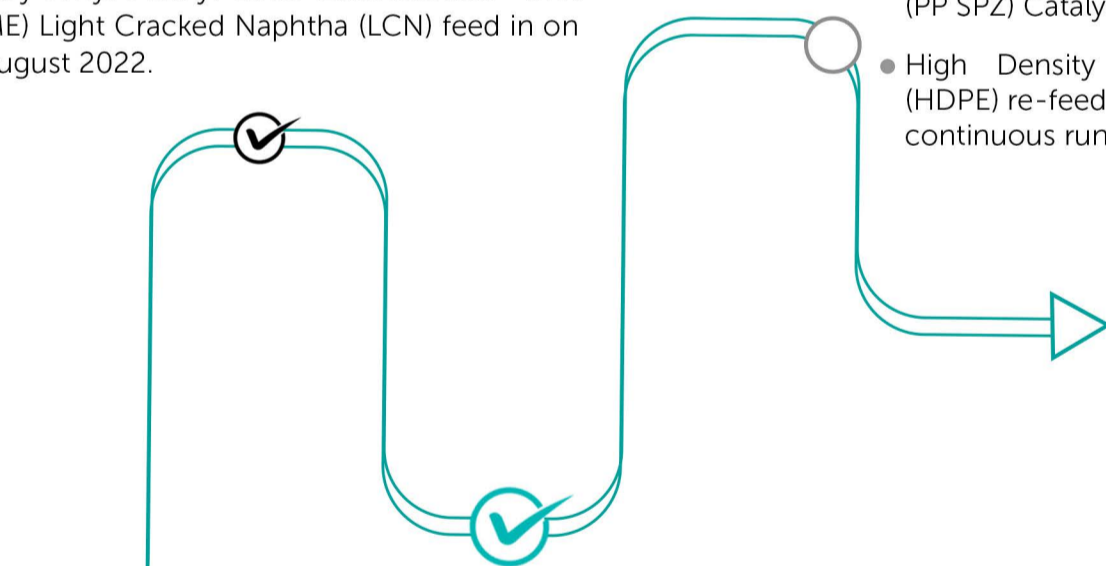

Start-Up Journey

TAME

- Tertiary-Amyl-Methyl-Ether-Etherification Unit (TAME) Light Cracked Naphtha (LCN) feed in on 29 August 2022.

What's Next?

- Spherizone Polypropylene (PP SPZ) Catalyst Injection.
- High Density Polyethylene (HDPE) re-feed in for continuous run.

MTBE, ARDS 2

- Methyl Tertiary Butyl Ether Unit (MTBE) feed in on 1 Sept 2022 and rundown on 2 Sept 2022.
- Atmospheric Residue Desulphurization Unit (ARDS) 2 High Pressure Hydrogen Leak Test is in progress.

PRPC staff joins Johor Merdeka Parade

Perarakan Hari Kebangsaan 2022 (Johor) was organised by Pejabat Tanah Negeri Johor with the participation from government agencies, government linked companies, and non-governmental organisation. PETRONAS' contingent was led by PETRONAS Southern Office (PSO) team with 35 staff from PSO, PETRONAS Gas Berhad, and PETRONAS Refinery and Petrochemical Corporation (PRPC) who trained together in Nusajaya from the 24th until the actual day on the 31st. 17 out of 35 of the participants were from PRPC (2 from Strategic Communications and Stakeholder Management and 15 from the Auxiliary Police).

Tazkirah

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Prophet Muhammad PBUH once said "By him in whose hand is my soul, if one of you were to carry a bundle of firewood on his back and sell it, that would be better for him than begging a man who may or may not give him anything."

Sahih Bukhari (No. 1401)

Quote of the Week

“ Whatever you do, just keep going. Clear your mind of the word “Can’t”. ”

Rhofeq Herwanif Erisman
Maintenance Planning & Support
