### What's Good in Pengerang?

#### Sebong Cafeteria, The HIVE

There's a misconception that the food served here are dull and boring. Ironically, those who hold the view have never been here or only visited the place a long time ago. "The food that we serve here is closest or similar to the authentic dishes that you can think of. Pari asam pedas, daging masak kicap, ayam masak merah, udang masak lemak, sup tulang, paru masak sambal? You name it. But we change the menu every day, and you just have to come and see what we have to offer every day. We do not just serve authentic Malay kampung dishes as we also offer a variety of authentic international dishes. For those who care about their calorie intake, we have a salad bar with a variety of choices," said Sebong Cafeteria Head Chef M Atiqfarhan Abdul Hamid. "We do not just serve delicious and fresh food, but we care about the cleanliness of our kitchen and the hall. And we dare to say that we offer the cheapest food here in Pengerang just for the workers here at PIC", he added.
