- Acidizing at Isomerisation (ISOM) Unit is expected to be completed by end of this week.

### What's Next?

#### ISOM, RFCC 2 & ARDS 2

- ISOM Catalyst Loading
- RFCC 2 HDT AR Feed in
- ARDS 2 AGO Introduction

## Let's Connect!

With the tagline of 'Unleashing Potential, Accelerating Progress', PRPC held its Redefining Talent Experience (RTE) two-day showcase on 18 and 19 October for all staff in Johor. With the objective of supporting the business continuity, it is crucial for staff to be upskilled and reskilled in order to remain relevant.

Four key activities were organised which included the exhibition itself, Leaders Conversation Series, Leaders Spotlight and Clinics for all staff. The event was also carried out to promote RTE solutions and how it can help talents develop and chart their career growth. The Leadership Sharing also conveyed leaders' experiences and how redefining talent experience supports the delivery of MFT 50.30.0.

### Tazkirah

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

"Ya Allah, aku memohon kepadaMu ilmu yang bermanfaat, rezeki yang baik, dan amalan yang diterima".  
(Hadis Riwayat Al-Baihaqi)

### Quote of the Week

"Success always comes with obstacles and tribulations, much like a gem that sparkles are the consequence of friction."

**M Mujahid Ibrahim**  
Manufacturing, PRefChem

### What's Good in Pengerang?

Masjid Thoriq Ibnu Ziad, Tanjung Pengelih

Apart from Masjid Al-Falah inside PIC and Masjid Ar Raudah in Kampung Pengerang, Masjid Thoriq Ibnu Ziad, located near Tanjung Pengelih, is another local mosque where the door is open to the public for Friday prayers. Built inside the Kolej Diraja Sultan Ismail, the mosque was constructed for people who work inside the navy academy, mainly newly recruited royal navy cadets. This modern design mosque built in the 2000s, was planned for 200 devotees who live inside the camp and it is presently attended by up to 1000 people for the weekly Friday prayer.
