

Bridging the Gap with MotoGP

After two years of pandemic, PETRONAS Refinery and Petrochemical Corporation (PRPC) revived the Business Experience Programme (BEP) with the Malaysia MotoGP™ 2022 edition on the 22nd and 23rd of October at Pulse Grande Hotel, Putrajaya and Sepang International Circuit.

This unique programme was first introduced back in 2017 as a token of appreciation to and as a recognition of successful collaboration with PRPC's stakeholders, such as government agencies, media and the surrounding communities.

This year, PRPC brought community members of the Pengerang area by inviting 24 community leaders, such as a state assembly member, village heads, leaders of local cooperatives and leaders of local community associations to the circuit in appreciation of their continuous support.

An intimate networking session was also carried out between Senior Vice President and Chief Executive Officer of PRPC En Kamal Bahrin Ahmad, Head of Strategic Communications and Stakeholder Management (SCSM) PRPC En Izzuddin A Ghani and the invitees on the morning of the race.

Kayuhan Merdeka bonds Pengerang community

Kayuhan Merdeka 2022 – the first of its kind here in PIC – saw 214 cyclists pedalling their bicycles together during the delightful evening of 19 October 2022 for a distance of approximately 15 kilometres (round trip) between the Main Gate 3 and the traffic light junction near Kampung Lepau.

Jointly organised by TMRLC Services Sdn Bhd, Global Facilities Management (GFM) Sdn Bhd and the people of Kampung Pengerang, the cycling programme took place in commemoration of both the 65th National Day and the 59th Malaysia Day this year. The programme also fostered a great rapport with surrounding community with PIC's social license to operate.

The participation from 50 residents of Kampung Pengerang headed by Ryamziatul Fahmy Ramly, Ketua Kampung Pengerang, and 16 Royal Malaysian Navy (TLDM) officers led by Mohd Faizal Mahmood, Head of Management and Administration KD Sultan Ismail (KDSI), were welcomed with open arms.

Receiving them was PRPC SVP & CEO En Kamal Bahrin Ahmad, who also cycled the full length of the programme. Also present were Head of Health, Safety and Environment PRPC En Irwan A Latif, Head of Project Management Office PRPC En Mozaffar Azman b Mohamed, Head of Human Resource Management PRPC En Hairulanam Suhari and Head of Security PRPC En Rahmat Siran.

LGPC visits OTOGC

Last week, the One Team One Goal Centre (OTOGC) opened its doors for the first time to LG-PETRONAS Chemicals (LGPC) Sdn Bhd, paving the way for more collaborations in the future between PRPC and LGPC.

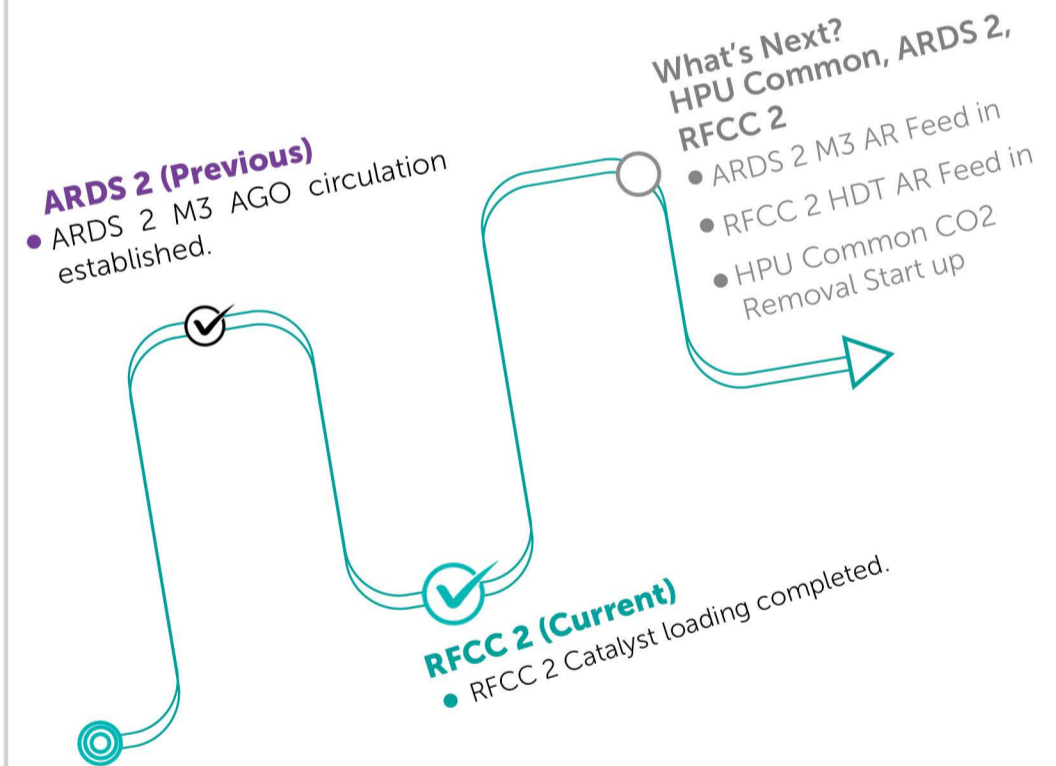

Welcoming the LGPC delegation headed by En Khairul Anuar b Ujang, Vice President 1, was En Izzuddin A Ghani, Head of Strategic Communications and Stake Holder Management (SCSM) PRPC.

"The OTOGC is a space for creating moments where visitors can discover, touch, and truly feel PIC, simultaneously creating the opportunity to build relationships through personalised experiences, which ultimately builds the business," said En Izzuddin in his welcoming remarks.

He then offered the services of bringing LGPC's customers or stakeholders to the state-of-the-art interactive experience centre for an immersive overview of the entire PIC's value chain. The visit was conducted to gain insights on potential updates with the latest information from LGPC as the first new investment under PIC's Growth Strategy.

Start-Up Journey

Tazkirah

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

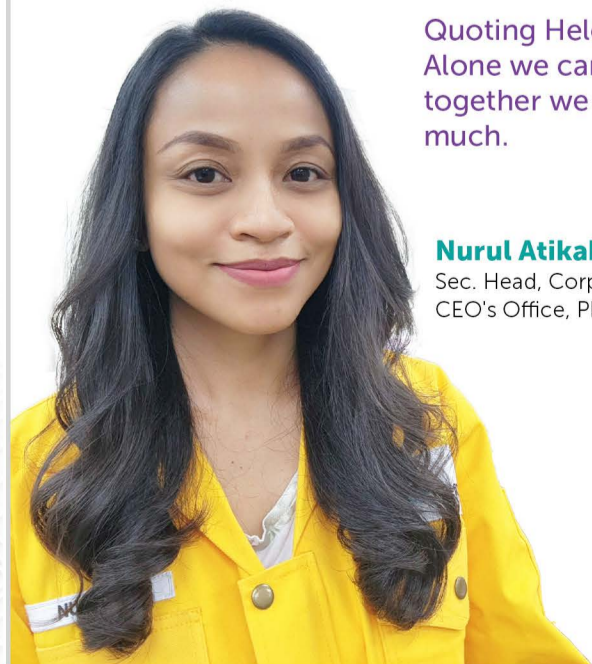

Sedekah dapat menghapus dosa sebagaimana air memadamkan api
(Hadis Riwayat Imam Tirmizi)

Quote of the Week

"To progress, each of us has our part to play no matter how small or insignificant we think our role is. Just like the symbiotic relationship, we're all dependent on one another. Therefore, go the extra mile in everything that you do, and remember that supporting others' triumph won't diminish yours."

Quoting Helen Keller,
Alone we can do so little,
together we can do so much.

What's Good in Pengerang?

Sebana Cove

Established 20 years ago, Sebana Cove is a popular destination for golfers and was among the first location in Johor to welcome yachts and catamarans to berth at its marina. Passing through the guard post into the resort, you will enter lush greenery and oil palms bordering the wide road that runs through the resort. The road to the resort's clubhouse will take you through two roundabouts, passing through the 18-hole golf course designed by the renowned golf course architect, Ted Parslow. The resort's clubhouse which features stone walls, timber framed windows and balcony railings with clay tiled roofs will bring you a distinct sense of tranquility with its soaring ceilings. As you walk to the seaside at the end of the lobby, you will have a panoramic view of the marina with its neatly berthed boats. Sebana Cove is secluded but charming. If you don't plan to spend overnight here, you can also come here just for breakfast, lunch, tea and dinner with the beautiful scenery of the cove. Apart from that the place is also popular among cyclists and bird watchers.
