- DHT, KHT, NHT and CCR operation has been restored. Remaining refinery unit restart up is in progress.
- Steam Cracker plant and Petrochemical plants will be in shutdown mode for now.

## Leadership Team Engages with Staff

The Leadership Team has carried out several engagements last week with PRPC UF shift staff to share their experience, feedback or concerns with the management. The intent is to hear out issues and concerns by the staff which will be further taken into consideration.

The highlight of the engagement was on the importance of a clear communication and procedural flow when high-risk incidents, having dedicated emergency lines for staff and contractors, the procurement of Emergency Response Vehicle (ERV), and improvements in the processes and infrastructure in PIC. Other issues raised include the current manpower requirement, staff capability development, succession planning as well as Family Day in hopes to increase the morale of the staff.

Each engagement lasted about an hour in MCB601, OSB401 and OSB402 in four shifts; Shifts A, B, C and D. With a more laid back engagement such as this, the management had a clearer picture of what goes on at the working level and managed to zoom into immediate to long-term issues which needed attention.

It is hoped the staff will continue to render their support and keep giving feedback to ensure that the communication lines are kept open at all levels. The LT Conversation session with Tier-2 Ips will be undertaken by URSC HR Workstream under the Motivation focus area. Among the LT members who joined the sessions were En Kamal Bahrin Ahmad, En Azmi A Rahman, En Hamzah Ahmad, En Mohamad Nasir, En Hairulanam Suhari and En Irwan A Latif.

## PIC Security Celebrates 44<sup>th</sup> Anniversary

On 20 Oct 2022, 17 auxiliary police were promoted from Constable to Lance Corporal during Rank Promotion's Pinning Up Ceremony in its third CEO Parade this year. Performed by Senior Vice President and Chief Executive Officer of PRPC, En Kamal Bahrin Ahmad, the rank-up was witnessed by LT members and representatives from PRefChem and PC INA.

In expressing his gratitude for the quarterly parade, En Kamal said in his speech, "this parade is the platform for our esteemed auxiliary police force to display their Royal Malaysia Police (PDRM) ethos of strong team spirit and the great bond between members".

He also congratulated the team for their recent 44th Anniversary of Service since its establishment on 10 Oct 1978. Starting from just a Corporate Security Division that oversees basic security measures, the force thrived together with PETRONAS' development and has now matured into a full-fledged force that enforces traffic safety, monitors our airspace and waters, disperses riots, and safeguards corporate intelligence from espionage to name a few.

One example was the success of AP Constable Mohd Aznilwan Makanal, interfering in an attempt to smuggle 'ketum' into the site by a contractor. En Kamal awarded his achievement with a Focused Recognition in the parade. This came at the heel of Group Security's (Pengerang Region) accomplishment of 1,487 alcohol tests and 1,448 substance drug tests with one non-negative case to date.

### Tazkirah

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Rasulullah SAW bersabda

"Sesiapa yang tidak mengasihi orang lain, maka dia juga tidak akan dikasihi oleh orang lain."

(Hadis Riwayat Abu Daud dan At-Tirmizi)

### Quote of the Week

“ Teamwork is the key to achieve company goals for safe and stable operation. Everyone needs to provide support to each other and play their parts. Like a group of orchestra, with different group of instruments play their parts to create the harmonious music and song. If you want to walk fast, walk alone. If you want to walk far, walk together. ”

**Ahmad Zulkifli Mat Rosid**  
Executive (EOEG), PED, Engineering

### What's Good in Pengerang?

#### Pengerang Post Office

In the earlier days, the Pengerang post office used to be the one of the busiest places in Kampung Pengerang. Before the emergence of digital transactions, villagers in Pengerang would come here to settle their household bills and send letters. Hundred years later, the post office still stands strong and senior citizens today would still come here to pay their household bills. Being the nearest courier service to Main Gate 3, Pengerang post office is the most convenient place for you to send parcels to your loved ones. For those who love historical buildings, a visit to the post office which was built during the British administration in Malaya is worthwhile.
