PIC Mangrove Programme gets a boost from PCG

PETRONAS Refinery and Petrochemicals Corporation Sdn Bhd (PRPC) and Pengerang Terminals (Two) Sdn Bhd have collaborated with PETRONAS Chemicals Group Berhad (PCG) to expand its mangrove conservation programme in Pulau Tanjung Surat, Johor.

The collaboration is expected to bring the total number of trees to be planted to 30,000, with a total investment amount of RM750,000, in support of the state of Johor's effort to develop Sg. Johor estuary in the island as an eco-tourism attraction and community-based mangrove conservation activities.

In this collaboration, PCG has committed to planting 9,000 mangrove trees, while both PRPC and PT2SB are progressively meeting their targets of planting 10,500 mangrove trees respectively.

"With 15,500 mangrove trees to be planted for the rest of 2023, we expect to make positive impacts in efforts towards reforestation, shoreline protection and expansion of mangrove eco-system in Pulau Tanjung Surat," said PRPC Senior Vice President and Chief Executive Officer Kamal Bahrin Ahmad.

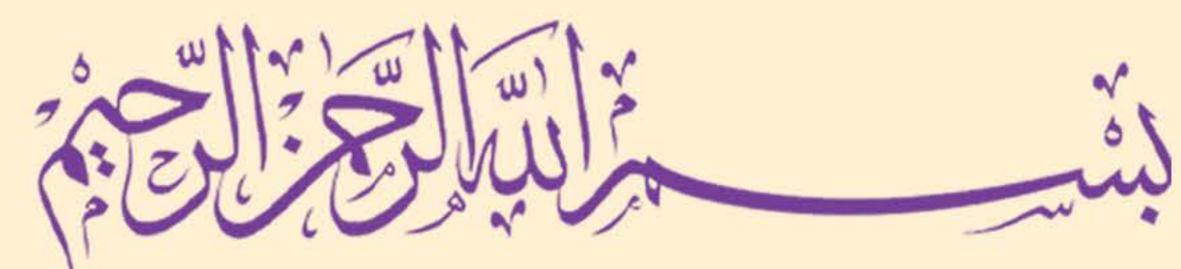

The launching of the expanded mangrove conservation programme was attended by PCG's Managing Director/Chief Executive Officer, Ir. Mohd Yusri Mohamed Yusof.

The programme is a continuous effort which started between PRPC and PT2SB in December 2021. As of 31 December 2022, 14,500 mangrove trees have been planted within the 5.5 acres for reforestation of mangrove degraded area.

Also in attendance for the mangrove conservation programme were 134 volunteers and participants from PRPC, PCG, PT2SB and local villagers.

Tazkirah

Rasulullah SAW pernah bersabda:

"Sesiapa yang suka untuk diselamatkan dari neraka dan dimasukkan ke syurga, maka hendaklah dia meninggal dunia dalam keadaan beriman kepada Allah dan Hari Akhirat, dan juga dia mendatangi (bergaul) dengan manusia (dengan melakukan kebaikan) sebagaimana dia suka orang lain memperlakukan begitu (kebaikan) kepadanya."

(Hadis Riwayat Imam Muslim)

OER2 Series: Role Play Receives

Favourable Feedbacks

The OFWP Implementation Team Kick Off & Role Play refresher ended on 3 Mar 2023 with a participation by more than 70 participants.

The session served as a teambuilding and 'Speak Up' session for the OFWP Implementation Team. The session introduced a 'Heart To Heart' session, facilitated by PGB OE R2 practitioners, PC INA and PRPC coaches for OFWP Implementation Team to raise their enquiries and concerns with regards to OE R2 roles implementation.

Ended on a high note and favourable feedbacks from the attendees, it was enlightening to receive feedbacks such as "Good sharing session with practitioners", "Better understanding on role play in OE R2 implementation" and "Looking for more roadshows and similar sharing sessions in future". In Shaa Allah, more training and coaching sessions will be arranged for OFWP and MFWP team in supporting

PRPC's aspirations: Towards a Self-Directed and Empowered Organisation.

PPRC Transformation Office closed the session with special thanks to PGB practitioners and PC INA coach for their enlightening experience and knowledge sharing.
