

Progress Update: Where Are We Now?

PENGERANG INTEGRATED COMPLEX: In working towards a common goal for a **safe and successful start-up**, we hope this progress update may shed some light to where we are at currently. Let's have look at some gist of the progress:

The Hydrogen Production Unit (HPU) rectifications are **currently on track** to be completed by mid of April, 2022. Meanwhile, repair works for RFCC has been completed while ARDS and DHT are estimated to be completed ahead of HPU rectification works.

As at Jan 30, the assurance program has reached 22.9% overall completion and is expected to complete in April 2022. The crude feed-in is forecasted in May 2022 subject to HPU rectifications and AICE reassurance findings and closure.

These updates are estimations made on current progress and rectification assessments.

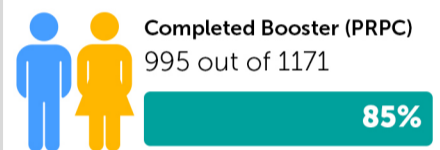

Booster Shots: Have You Gotten Yours?

Beginning Feb 15, 2022 onwards, staff who are 60 years old and above as well as Sinovac vaccine recipients who have not taken their booster shots will be denied entry to all PETRONAS premises in Malaysia. This is part of the company's commitment to take a proactive approach in curbing the COVID-19 spread.

Below is the progress to date:

These numbers, although encouraging, should be pushed higher in order to create a safe workplace for all.

For staff who are not in these categories are encouraged to do the same and a booster drive is currently ongoing to make it easier to get their booster shots in Bukit Pelali next week. The details can be found in the **Activities** section of this bulletin.

Staff Welfare, PRefChem

What's Good in Pengerang?

Crowned as one the most beautiful Felda settlements in the country, Felda Adela is a must visit for those who appreciate nature and history. With settlers' colourful and fenceless houses, Felda Adela resembles a picturesque English village with hilly landscape. It is a far cry from the time the settlement was first established in the 60s. Today, there are many shops and restaurants that can be discovered in Felda Adela. The popular dish is the nasi goreng kambing and this cannot be missed.

Activities

Haven't gotten your booster shots?

Get yours during these dates:
