CORPORATE CONNECTIONS REPORT 2022

CORPORATE CONNECTIONS REPORT

There are several ways in which we can **bring our purpose to life**, but the **creation of connections with the world of business** certainly plays a very central role that spreads across all the School's activities.

This is why **we are proud to present the second edition of our Corporate Connections Report**, which aims to collect and **'measure' the breadth and depth of our connections with the business world as enacted in the period 1.9.2021–31.8.2022.**

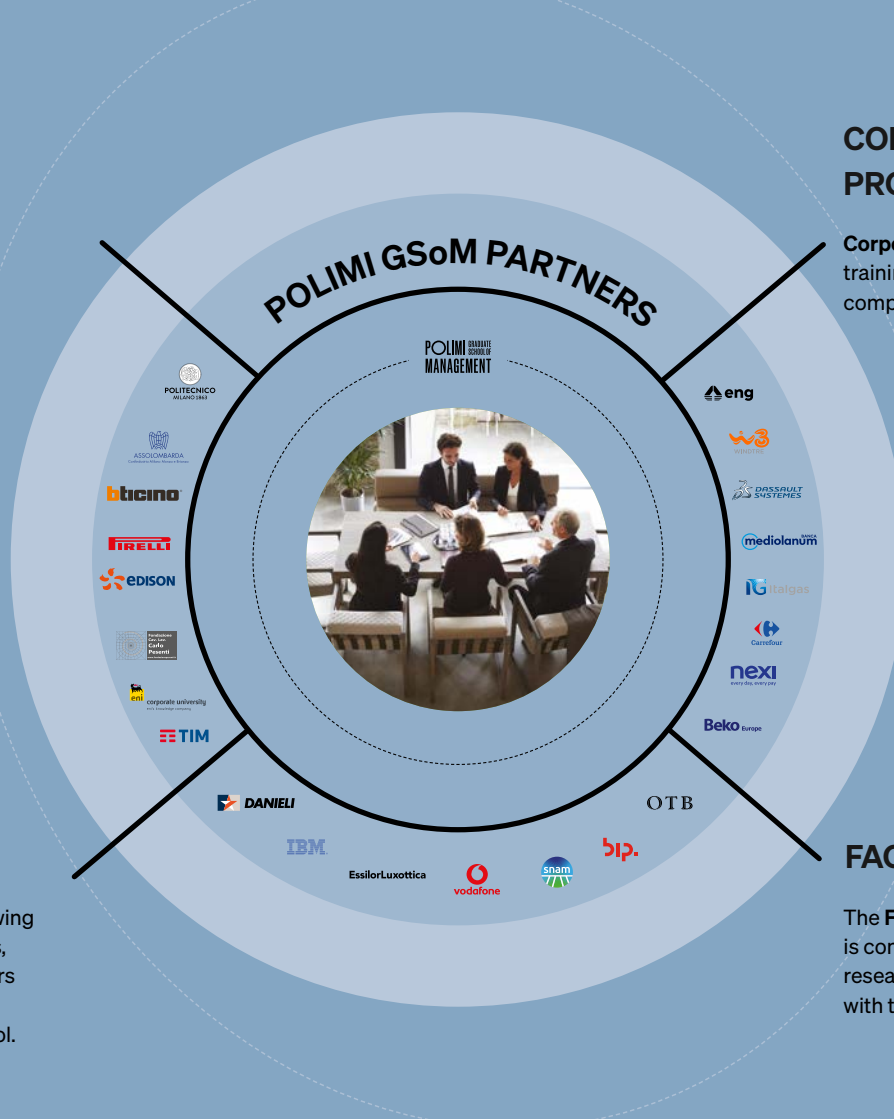

The Corporate Connections Report provides an overview of the many relationships and collaborations between our School (and its students) and companies, focusing on **4 deeply interrelated points of contact.**

**WE ARE COMMITTED TO INSPIRING
AND PARTNERING WITH INNOVATORS
TO SHAPE A BETTER FUTURE FOR ALL**

Open Programmes, the postgraduate training programmes (from junior Masters to MBAs, from Academy courses to Executive MBAs) that our School provides.

Alumni, the constantly growing community of professionals, managers and entrepreneurs who have participated in a training course at our School.

Alumni, the constantly growing community of professionals, managers and entrepreneurs who have participated in a training course at our School.

- **Corporate Programmes**, the training programmes aimed at companies.

The **Faculty**, the soul of our School, is constantly engaged in training, research and advisory activities with the business world.
