

Get the most out of your MyReid experience.

**MyReid** is your **FREE** digital health assistant. You can use it to schedule appointments, message your care team, and make payments, all from the palm of your hand. Check out all the things you can do with the app below and be sure to download **MyReid** today.

### Scheduling and Appointments

No matter how you have a visit, get appointment, test, and procedure reminder text messages and notifications.

#### **Direct scheduling**

Allows you to make appointments on your own or you can have your provider's office contact you. If you're seeing a provider for the first time, use open scheduling to make an appointment, even if you don't already have a **MyReid** account.

#### **Fast Pass**

On a waiting list or hoping to get an earlier appointment than the one you've already got scheduled? Sign up for Fast Pass to be notified if a time becomes available.

#### **eCheck-In**

You can complete the check-in process before your appointment to save time in the office. Go ahead and take care of verifying insurance and medical information, answering medical questions, e-signing documents for consent to be treated, and paying copays.

#### **On My Way (Find Care Now)**

Allows you to see wait times at our Urgent Care locations and even save your spot in line.

#### **E-Visits**

Take care of follow-up visits without having to go to your provider's office by using E-Visits. You'll be able to speak with your provider through the app from the convenience of your home or anywhere else.

### Health Resources

#### **Test Results**

See current and past test results and get notifications when new information is added.

#### **Comprehensive List**

You'll have access to a comprehensive list of:

- Medications you're taking, including dosages and instructions
- Allergies, which can be updated anytime
- Current health issues
- Immunizations

#### **Family History**

Your family medical history is listed in the app, and you can request a copy of your medical records.

Download MyReid in the app store. Visit [ReidHealth.org/MyReid](https://ReidHealth.org/MyReid) for more information.

### Payment and Insurance

#### Billing Account Summary

View your billing account summary to see outstanding balances, your payment history, get details about your account, and more.

#### Online Bill Pay

Whether you already have a **MyReid** account or not, use online bill pay to make a payment anytime, anywhere.

#### Payment Plans

With payment plans, you can set up auto pay so you never miss a payment. You'll get a text message or email letting you know when a payment is about to be made on a bill.

#### Estimate

Get an estimate for the cost of an upcoming procedure by reviewing how much is covered by insurance and self-pay before your appointment, even if you don't have a **MyReid** account.

#### Financial Assistance

Is available if you need help paying your medical bills.

#### Insurance summary

Allows you to see instance coverage, claims, referrals, and other health benefit information.

### Messaging

#### MyReid's Messaging Center

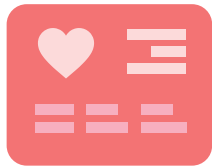

Collects all the messages you've sent to and received from your care team, including any attachments.

#### Medication Refills

Request medication refills on prescriptions straight from the app. You can even choose where you'd like the prescription sent for easy pick up.

#### Referrals

If you'd like to see a specialist, you can request a referral.

### Preferences

#### Preferences

Personal information allows you to seamlessly update your contact information and personal preferences such as name, identity, and gender.

Username and password recovery helps you set up security features should you forget your **MyReid** login information. Control how you'd like to receive health updates and reminders through notifications and communications.
