TRAVEL SCREEN for High Consequence Pathogens

Questions to ask ALL patients at POINT OF FIRST INTERACTION (before making any patient contact)

Registration Screen:

1. Do you have respiratory symptoms, including FEVER or COUGH or SHORTNESS OF BREATH, new in the last 28 days?
 - a. If YES: Hand mask to patient and assure mask covers patient’s nose and mouth.
 - b. Continue to QUESTION 2.
2. Any travel within last 28 days to DEMOCRATIC REPUBLIC OF CONGO or MIDDLE EAST?
 - a. IF NO, proceed to QUESTION 3
 - b. IF YES, proceed to **ACTION**
3. Any contact with an individual with confirmed Ebola Viral Disease, MERS, or COVID-19?
 - a. IF NO: proceed to QUESTION 4
 - b. IF YES, proceed to **ACTION**
4. Did patient answer YES to Question #1 and NO to Questions 2 and 3?
 - a. YES: place patient on DROPLET PRECAUTIONS and use EYE PROTECTION. Private room and assessment needed.
 - b. If NO to Question #1: NO FURTHER ACTION.

ACTION:

1. Give patient a mask and ask the patient to wear, covering nose and mouth.
2. Escort patient to private room and shut the door.
3. Notify Clinical Team of positive travel screen and need for **No Touch Clinical Screen**.

No Touch Clinical Screen:

Clinical no-touch screen to be conducted by clinical staff after donning Contact Precautions PPE: gloves, gown, mask* and eye protection.

Ask patient: “Do you have any of these symptoms?”:

For travel to DRC or exposure to EBOLA: Fever (subjective) Diarrhea Vomiting Abdominal pain
 Muscle pain Severe headache Weakness Unexplained bleeding

For travel to Middle East or exposure to MERS or COVID-19: **NOTE: Wear N95 if possible:*

Fever Cough Shortness of Breath

If NO to symptoms: STOP. No risk of High Consequence Pathogen. Proceed with visit.

If YES: Escort family or accompanying parties of high-risk patient to a separate, designated family waiting room until further directions from Infection Prevention.
