Reduce Environmental Impact by Choosing Low VOC Content Products

DAP is dedicated to the development of adhesives and sealants with low volatile organic compound (VOC) content. Many of our products actually have a low enough VOC content, indicated by this symbol, to meet one or more of the guidelines outlined below:

- The South Coast Air Quality Management District (SCAQMD) Rule # 1168
- The Bay Area Air Quality Management District Regulation 8, Rule 51
- U.S. Green Building Council® LEED® - NC Green Building Rating System for New Construction & Major Renovations Version 2.2, EQ Credit 4.1 (Indoor Environmental Quality – Low Emitting Materials: Adhesives & Sealants)
- NAHB Model GREEN Home Building Guideline Section 7.1.3 (Global Impact - Products)

Increase Energy Efficiency by Sealing the Building Envelope

In order to meet green building guidelines for energy efficiency you will need to take an integrated and comprehensive approach to an energy efficient design of the building site, the building envelope and mechanical space conditioning systems. Utilize products highlighted with this symbol when sealing the building envelope in accordance with the following guidelines:

- U.S. Green Building Council® LEED® - NC Green Building Rating System for New Construction and Major Renovations Version 2.2, ea Prerequisite 2 for Minimum Energy Performance. (Energy & Atmosphere – Minimum Energy Performance)
- NAHB Model GREEN Home Building Guidelines Section 3.3.1 Building Envelope (PP) B. (Energy Efficiency – Implement an Integrated and Comprehensive Approach to Energy – Efficient Design of Building Site, Building Envelope and Mechanical Space Conditioning Systems)
- ANSI/ASHRAE/IESNA Standard 90.1-2004 – Energy Standard for Buildings Except Low Rise Residential Buildings SI Edition – Section 5.4 and 5.5 (Building Envelope)

DAP® DYNAFLEX 230® Premium 100% Waterproof Indoor/Outdoor Elastomeric Sealant

Premium Elastomeric Sealant with Silicone Tough: latex formulation delivers outstanding performance against the elements. Provides superior flexibility and elongation to endure expansion & contraction without cracking or losing its seal. It has excellent adhesion to a wide range of building materials including wood, MDF, fiber cement, vinyl, aluminum, PVC polystyrene and composite trimboard.

- 100% Waterproof & weatherproof
- Excellent flexibility & adhesion
- Crackproof
- Seals joints up to 2" wide
- Easy gunning & smooth tooling
- Easy water clean up & low odor
- Cured sealant is mold and mildew resistant
- Exterior/interior
- Lifetime Guarantee
- Meets ASTM C920, Class 25
- Paint Ready in 2 hours

Use for sealing around: Windows, Doors, Siding, Trim, Pipes, Vents, Gutters & Flashing

DAP® EXTREME STRETCH High Performance Acrylic Urethane Elastometric Sealant

Provides urethane acrylic technology for extreme flexibility and strength with long-lasting durability. It has over 600% total stretch without cracking or losing adhesion. With its strong, multi-material adhesion, it's ideal for a wide variety of interior and exterior applications.

- Seals joints up to 3" wide
- 600% Total stretch
- Crackproof
- Strong multi-material adhesion
- 2 Hour paint ready*
- Easy & smooth application
- Easy water clean up & low odor
- Cured sealant is mold and mildew resistant
- Exterior/interior
- Lifetime Guarantee
- Exceeds ASTM C920, Class 25

Use for sealing around: Windows, Doors, Siding, Trim, Baseboards, Crown Molding, Pipes & Vents

* Clear in 7-14 days

Caulks & Sealants Window, Door, Siding & Trim Advanced Hybrid, Silicone & Solvent Sealants

DAP® AMP™ Advanced Modified Polymer Window, Door, Siding & Trim All Weather Sealant

Advanced Modified Polymer Window, Door, Siding & Trim Sealants leverages the power of multiple technologies creating the ultimate hybrid sealant. Its exceptional weatherability, durability and wet surface application provides maximum performance for every project.

- Extreme temperature application: 0° F to 140° F
- Lifetime mold & mildew resistance
- 100% Waterproof & weatherproof
- Wet/damp surface application
- Stays flexible & UV resistant
- Shrink & crackproof
- 30 Minute rain & paint ready
- Low odor
- Interior/exterior
- Crystal clear clarity
- Meets ASTM C920, Class 35

Use for sealing around: Windows, Doors, Siding, Exterior Trim, Baseboards, Molding, Interior Trim, Gutters, Flashing, Pipes, Vents & Ducts

DAP® SILICONE MAX™ Premium All Purpose 100% Silicone Sealant

Provides maximum silicone performance to seal out air and water in window, door & siding applications. It has +/-50% joint movement for maximum flexibility and adhesion. It withstands contraction and expansion caused by extreme temperature and weather fluctuations without cracking or losing adhesion.

- 100% Waterproof & weatherproof
- Wet/damp surface adhesion
- +/- 50% Joint movement for maximum flexibility & adhesion
- Shrink & crackproof
- 30 Minute rain ready
- Low odor
- Cured sealant is mold and mildew resistant
- Interior/exterior
- Lifetime Guarantee
- Meets ASTM C920, Class 50

DAP® DYNAFLEX® 920 Premium Exterior Elastomeric Sealant

High performance, solvent-based, elastomeric sealant developed for professional siding and window installations. Provides long-lasting, elastomeric seal which helps prevent water and air intrusion. The extensive offering of colors provides an aesthetically appealing finished look to any installation. It can be applied to wet/damp surfaces and in extreme weather conditions. It will not wash away when exposed to rain prior to full cure.

- Applies at temperatures as low as 20°F
- 100% Waterproof & weatherproof
- Wet/damp surface application
- Extremely flexible – crackproof
- Self-tooling
- Paintable after cure
- Excellent UV stability
- Cured sealant is mold and mildew resistant
- Exterior
- MasterSpec Section 07900 Weatherproof Sealants
- Meets ASTM C920, Class 25

Used for sealing around: Windows, Doors, Siding, Exterior Trim, Gutters, Flashing, Pipes, Vents & Ducts

DAP® ULTRA CLEAR Flexible All Purpose Waterproof Sealant

High performance all purpose, ultra elastic, ultra clear sealant for sealing a wide variety of surfaces & projects. It is crystal clear, allowing surface beauty to shine through and providing a seamless finish.

- Clearer than silicone
- Stays crystal clear/non-yellowing
- 100% Waterproof & weatherproof
- Won't crack, crumble, chalk, bubble or break down
- Flexible
- Wet/damp surface application
- Immediate water ready
- Paintable
- Interior/exterior

Use for sealing around: Gutters, Roofs, Flashing, Siding, Windows & Doors

DAP® ULTRA CLEAR ROOF Waterproof Rubberized Sealant

DAP® ULTRA CLEAR ROOF is a crystal clear, elastomeric rubberized sealant that stops and prevents minor roof leaks. It creates an invisible, ultra waterproof seal around roof fixtures and penetrations to keep out water, air and moisture, preventing damage.

- Clearer than silicone
- Stays crystal clear/non-yellowing
- Extreme temperature application: 0°F to 120°F
- 100% Waterproof & weatherproof
- Immediate rain ready – won't wash out
- Adheres to wet & damp surfaces; even through standing water
- Permanently flexible & crackproof even in cold temperatures
- Cured sealant is mold/mildew resistant
- Exterior

Use for sealing around: Roofs, Shingles, Flashing, Chimneys & Gutters

Strong multi-surface adhesion: Asphalt, Metal, Brick, Ceramic, Tile, Stone, Stucco & Most Plastics

**DAP® Marine FAST CURE
ADHESIVE SEALANT**

DAP® Marine FAST CURE ADHESIVE SEALANT is a multi-purpose adhesive sealant made specifically for the marine market. This high-strength adhesive forms a weather-resistant seal. Its unique formula reacts with moisture to cure fast, forming a tack-free skin in as little as 30 minutes and fully curing in 24 hours. The formula remains permanently flexible, creating lasting bonds that seal against the elements, maintain joint movement, and absorb stress caused by shock, vibration, swelling or shrinking. The durable, watertight formula is ideal for applications like sealing portholes, deck/hull fittings, rub rail attachment, screw holes, and stanchion supports.

- When tested in accordance with ASTM C719 meets the ASTM C920 requirements for Class 35, Use I Class II
- Permanent adhesion
- ABOVE OR BELOW WATERLINE
- Interior/exterior
- 1 Hour water ready ready
- 100% waterproof & weatherproof seal
- Minimal shrinkage

Ideal For: medium-strength marine sealant bonds portholes, deck fittings, rub rails, screw holes, and stanchion supports while still allowing disassembly

Adhears To: dissimilar surfaces and a wide range of marine substrates like wood, fiberglass, and metal

Case Code	Size	Color	Product Code	Case Weight (lb)	Case Pack	Case Dimensions LxWxH	Case Volume (cu ft)	UPC Check Digit	Cases per Pallet

**DAP® Marine UV RESISTANT
ADHESIVE SEALANT**

DAP® Marine UV RESISTANT ADHESIVE SEALANT is a multi-purpose adhesive sealant made specifically for the marine market. This medium-strength adhesive forms a weather-resistant seal that still allows for disassembly. It's unique formula reacts with moisture to cure fast, forming a tack-free skin in as little as 30 minutes and fully curing in 24 hours. The sealant forms permanently flexible, elastomeric bonds that seal against the elements, maintain joint movement, and absorb stress caused by shock, vibration, swelling or shrinking. UV Resistant Adhesive Sealant is ideal for tough applications like sealing portholes, deck/hull fittings, rub rail attachment, and screw holes.

- When tested in accordance with ASTM C719 meets the ASTM C920 requirements for Class 25, Use I Class II
- Semi-Permanent adhesion
- ABOVE WATERLINE ONLY
- Interior/exterior
- 30 Minute paint & water ready
- 100% waterproof & weatherproof seal
- Minimal shrinkage

Ideal For: medium-strength marine sealant bonds portholes, deck fittings, rub rails, screw holes, and stanchion supports while still allowing disassembly

Adhears To: dissimilar surfaces and a wide range of marine substrates like wood, fiberglass, and metal

DAP® AMP™ Advanced Modified Polymer Gutter & Flashing Sealant

**HYBRID
TECHNOLOGY**
MAXIMUM PERFORMANCE

Advanced Modified Polymer Specialty Sealants leverages the power of multiple technologies creating the ultimate hybrid sealant. Its exceptional weatherability, durability and wet surface application provides maximum performance for every project.

- Extreme temperature application: 0°F to 140°F
- 100% Waterproof & weatherproof
- Lifetime mold & mildew resistance
- Self-leveling
- Rain ready in 30 minutes
- Paintable in 30 minutes
- Wet/damp surface application
- Stays flexible & UV resistant
- Crystal clear clarity

Use for sealing around: Gutters, Drain Spouts, Lap Joints, Flashing, Roof Vents, Aluminum Siding & Other Metal Joints

DAP® Gutter & Flashing Advanced VOC-Compliant Exterior Sealant

Advanced polymer formula gutter and flashing sealant delivers superior wet weather and low temperature application with virtually no VOCs (<1%).

- Low in odor and VOC compliant
- 100% Waterproof & weatherproof
- Shrinkproof
- 30 Minute water ready
- Wet/damp surface application
- Flexible
- Paintable
- Meets ASTM C920, Class 25
- Exterior

Use for sealing around: Gutters, Drain Spouts, Lap Joints, Flashing, Roof Vents, Aluminum Siding & Other Metal Joints

DAP® Gutter & Flashing BUTYL-FLEX® Sealant

Butyl rubber formula provides a durable, flexible and waterproof seal. It stays flexible to resist cracking and crumbling due to temperature extremes and weathering.

- 100% Waterproof & weatherproof
- Crackproof
- Wet/damp surface application
- Flexible
- Paintable
- Meets ASTM C1311
- Exterior

Use for sealing around: Gutters, Drain Spouts, Lap Joints, Flashing, Roof Vents, Pipes, Ducts, Skylights, Corrugated Roofing, Aluminum & Vinyl Siding, Metal Joints & Chimneys

**DAP® DYNAFLEX®**
Gutter & Narrow Seam

Formulated specifically with the pro in mind, this easy to use, high performance sealant forms a tough, watertight seal to stop and prevent leaks in small joints and narrow seams in gutter and flashing applications. Extremely durable and permanently flexible, it stands up to weather and temperature extremes without cracking.

- Sticks to wet, damp or dry surfaces
- Can be applied through standing water
- Extreme temperature application: 20°F to 120°F
- 30 Minute rain ready without washing out
- 100% Waterproof & weatherproof seal
- Stops leaks immediately
- Flex and crack proof
- UV Resistant – won't harden, yellow or break
- Multi-surface adhesion
- Cured sealant is mold and mildew resistant
- Low odor

DAP® Textured Concrete Premium Elastomeric Latex Filler & Sealant

SEAMLESS BLEND

Textured Concrete Premium Elastomeric Filler & Sealant is formulated with a textured finish to seamlessly blend with concrete surfaces while offering outstanding flexibility and strong adhesion for a durable and long-lasting repair.

- 100% Waterproof & weatherproof
- Excellent adhesion & flexibility for a durable seal
- Easy water clean-up & low odor
- 2 Hour paint ready & won't stain or bleed
- Safe for vehicle & foot traffic
- Lifetime Guarantee
- Exterior/interior

Use for filling & sealing cracks & gaps in: Concrete Surfaces, Patios, Steps, Concrete Driveways, Sidewalks, Garage Floors, Above Ground Foundations & Pavements

DAP® Textured Mortar Premium Elastomeric Filler & Sealant

SEAMLESS BLEND

Premium elastomeric ready-to-use filler and sealant ideal for repairing and sealing cracks and joints in mortar, masonry, concrete, stone and brick. Textured finish blends easily with most mortar substrates for a seamless finish with excellent flexibility, adhesion and durability. No mixing required. Easy water clean-up, low odor and won't stain or bleed onto the application surface.

- Crackproof with excellent adhesion & flexibility
- 100% Waterproof & weatherproof seal
- 2 Hour paint ready
- Easy water clean-up & low odor
- Lifetime Guarantee
- Exterior/interior

Use for repairing & sealing cracks & joints in: Mortar, Masonry, Concrete, Stone & Brick

**DAP® Premium Polyurethane Construction Adhesive Sealant**

One-part, moisture-curing, non-sag elastomeric commercial grade sealant specifically formulated to provide a long-lasting, durable seal when filling exterior gaps, joints and cracks.

- Superior adhesion and durability
- 100% Waterproof & weatherproof
- Durable and tear resistant
- Handles foot & vehicle traffic
- Flexible
- Paintable
- Meets ASTM C920, Class 35
- NSF Certified
- Interior/exterior

Use for sealing around: Windows, Doors, Siding, Chimneys, Butt Joints, Corner Joints, Trim, Fascia, Expansion Joints, Flashing, Ducts & Pipes

DAP® Roof Asphalt Filler & Sealer

High performance, asphalt-based sealant offers excellent adhesion and durability to resist the damaging effects of UV light, temperature extremes and weathering. It can be used in both dry and wet applications, making it ideal for emergency roof repairs.

- Superior adhesion and durability
- 100% Waterproof & weatherproof
- Will not run, sag or bubble
- Wet/damp surface application
- Flexible
- Meets ASTM D4586, Type 1, Class 1
- Exterior

Use for sealing around: Roof Gaps & Joints, Spotting Shingles & Minor Roof Leaks

DAP® Blacktop Asphalt Filler & Sealer

Ready-to-use, professional-grade asphalt-based compound that fills and seals cracks in asphalt surfaces without heating or mixing. It flows easily into cracks to form a long-lasting barrier which keeps out water to prevent ice damage and surface deterioration. It dries to a matte black finish that may be coated with asphalt or tar-based driveway dressings.

- Superior adhesion and durability
- Repairs are ready for traffic in 24 hours
- Resists oil, grease, and salt
- Flows easily
- 100% Waterproof & weatherproof
- Won't crack, crumble, chalk, bubble or break down
- Exterior

Use for sealing around: Driveways, Parking Lots, Other Asphalt Surfaces, Tennis Courts, Basketball Courts & Playgrounds

DAP® SEAL 'N PEEL® The Original Solvent Formula All Season Removable Weather Stripping Sealant

Removable Weatherstrip Sealant is formulated for use as a seasonal weatherstripping product. It provides a watertight, weatherproof and fast drying seal against air and moisture, keeping homes warmer in winter, cooler in summer, while also reducing energy bills. Use it to seal drafty windows, seasonally used doors, around air conditioners, vents or fans. Then easily peel it away when no longer needed.

- Seals out drafts to save energy
- Peels away easily when no longer needed
- Interior/exterior

Use for sealing around: Window & Door Frames, Vents, Fans, Patio Doors, Air Conditioners & Louvers

**DAP® BLOCKADE®
Fire-Rated
High Performance
Intumescent Acrylic
Latex Sealant**

BLOCKADE® is a single component, water-based intumescent, acrylic firestop sealant that meets ASTM E814/UL 1479 and is 4 hour system tested. It treats general firestopping applications for combustible and non-combustible penetrations.

- 4 Hour system tested
- Intumescent expansion fills voids created by combustible materials burned during a fire
- Excellent adhesion to unprimed surfaces
- Red color easily recognized as a firestop sealant
- Easy water clean-up & low odor
- Interior

Use for sealing around: Steel, Copper, EMT Pipe, Plastic Pipe (Vented and Closed), Fiberglass, AB/PVC Pipe, Romex, Cables, Jacketed Cables, Bundles & Ductwork

**DAP® High Heat
Fire-Resistant Mortar**

HIGH HEAT FIRE RESISTANT MORTAR is a non-combustible silicate cement for applications in wood frame construction where an ASTM E136 non-combustible sealant is required.

- Meets ASTM E136
- Withstands temperatures up to 2000°F
- Sets rock hard once fired
- Paintable once heat cured
- Easy water clean-up & low odor
- VOC Compliant
- Interior

Use for sealing around: Tuck point between firebricks, cracked fire bricks, vents, pipes, ducts, chimneys & fireplaces

DAP® SMOKE & SOUND PROFESSIONAL-GRADE LATEX SEALANT

Professional-grade, acoustical latex sealant specifically designed to reduce sound transmission & improve STC ratings in all types of wall & floor systems where a sound rated assembly is required. It is ideal for sealing openings around electrical boxes, pipes, duct systems, cut-outs and other types of utility equipment penetrating wall surfaces, as well as perimeter edges including abutting surfaces and corner joints.

- Meets or exceeds the following ASTM Specifications: ASTM E90, ASTM C834, ASTM E84 Class A / UL723, ASTM D412, ASTM C919, & ASTM D217
- For use on sound-rated wall & floor systems
- Reduces sound transmission, smoke migration & drafts
- Stays flexible / non-sagging
- Crackproof
- Strong adhesion to wide variety of building materials
- Easy water clean-up
- Interior/exterior

**DAP® Gasket Maker
100% RTV Silicone
Sealant**

One-component, 100% RTV silicone rubber that is ideal for mechanical repairs and household use. It can be used for making gaskets on engine parts, cars, motorcycles, appliances, power yard equipment and more.

- Forms a durable, flexible seal
- 100% Waterproof seal
- Resists oil, grease, and fuels
- Unaffected by vibration
- Requires no mixing
- Won't crack, crumble, or dry out
- Withstands extreme temperatures and pressure
- Flexible
- Interior/exterior

Use for sealing around: Forming Gaskets on Engine Parts, Cars, Motorcycles, Appliances and Power Yard Equipment; Weatherproofing Windshields (Not for Windshield Cracks) & Weatherstripping

**DAP® FAST DRY DRYDEX®**

DAP® FAST DRY DRYDEX® High Strength Spackling is a professional-grade compound, visibly showing when the surface is dry and ready for sanding, helping to eliminate guesswork. Repairs up to 1" wide and 1/8" deep—or smaller—that don't require sanding may be painted with latex paint in as little as 15 minutes. If sanding is needed, allow approximately 90 minutes before sanding, depending on temperature and humidity. Larger repairs may require additional drying time.

- Finish Fast - 15 minute paint ready
- Durable - Sink & shrink resistant
- Ready-to-use
- Smooth formula that spreads easily

Ideal for: large drywall repairs

Use: Interior and Exterior

DAP® QUICK REPAIR Spray Texture

DAP® Quick Repair Spray Texture is an easy-to-use aerosol that provides excellent texture match. Its white, sag-resistant formula has strong wall adhesion, is paintable and does not require priming. The grip trigger offers full hand control for an ergonomic spray. Fast dry time of 30 minutes for water-based (5 minutes for oil-based) depending on temperature, humidity and amount applied.

- 30 Minute dry time, fast and durable (5 minute dry time for Orange Peel Oil-based)
- Sag resistant formula
- Texture and prime in one step
- Low odor & easy water clean-up
- Strong Adhesion
- No priming, easy application

Use: Interior wall and ceiling finishing

DAP® PLASTIC WOOD® ROT KIT

Perfect for fixing wood rot damage. It includes two premium products: a fast-drying wood hardener that strengthens soft wood fibers and a heavy-duty epoxy filler that resists shrinking and cracking.

Wood Hardener

- Use to form solid base for filler
- Fast Dry Time - 30 minute tack free
- Reinforces soft wood fibers: excellent adhesion to damp wood

Epoxy Filler

- Use to form solid base for filler
- Waterproof & waterprooof
- Fills cracks, holes & restore rotted, damaged or missing wood.
- Weatherproof & waterproof: excellent adhesion to damp wood
- High anchor strength: shrink & crack resistant

**DAP® All-Purpose Construction Adhesive**

DAP® ALL PURPOSE Construction Adhesive is a premium grade adhesive ideal for paneling, interior remodeling, and other interior projects. ALL PURPOSE construction adhesive delivers a strong permanent bond and excellent adhesion on most common building materials. Offering easy water cleanup and instant grab, this adhesive delivers the perfect combination of convenience and performance for interior projects.

- Strong permanent bond
- Multi-material
- Low odor

Ideal For: Paneling, foamboard, cove base, trim & more

DAP® Heavy Duty Construction Adhesive

DAP® HEAVY DUTY Construction Adhesive is a high strength instant grab adhesive for heavy interior/exterior construction and remodeling projects. HEAVY DUTY construction adhesive delivers a high-strength instant grab to hold the toughest vertical projects in place instantly. Featuring a weather resistant bond once fully cured, this adhesive provides a durable long-lasting bond and strong adhesion on a wide range of building materials.

- Strong permanent bond
- Multi-material
- VOC compliant

Ideal For: Paneling, molding, trim, drywall & more

DAP® HD Max Construction Adhesive

DAP® HD MAX Construction Adhesive is a premium hybrid adhesive that delivers a strong, durable, waterproof bond for heavier applications where bond strength is critical. This easy-to-gun, moisture-curing heavy-duty adhesive can be applied in extreme temperatures and adheres to wet surfaces for demanding exterior jobs. Offering high-performance versatility and tenacious adhesion, HD MAX construction adhesive bonds to porous & non-porous building materials including PVC, glass, marble, and metal for tackling the toughest jobs.

- Bonds virtually everything
- Superior durability
- Bonds in extreme temps

Ideal For: Landscape, tub surround, mirror, marble & granite

**DAP® SmartBond®
Subfloor Gun-Grade
Construction Adhesive**

**8X
MORE
COVERAGE®**

DAP® SMARTBOND SUBFLOOR is a high strength polyurethane foam adhesive that is fast and easy to use. A single can of SMARTBOND provides 8X the coverage of cartridge adhesives. The unique technology applies as a foam and transforms by collapsing into a high-strength, fast-curing adhesive gel that bonds to wet, dry, frozen and treated lumber. An easy-to-use screw top easily threads onto the Applicator Gun for fast and easy application and precise bead control. SMARTBOND Subfloor provides ease-of-use for labor-intensive framing. Delivers a tenacious bond as well as gap bridging properties with a 20-minute open time. Interior/exterior use.

Use: Interior and exterior

DAP® Touch 'n Seal® Black Gun Foam Polyurethane Sealant & Adhesive

FOR GUN APPLICATOR USE

UV-resistant gun foam specially formulated to blend in with landscaping, RV, automotive, HVAC and other applications.

- Use to bond stones for landscaping and waterfall/pond applications
- Formulated to resist discoloration in exterior applications
- Air Sealing for RV/automotive applications
- Meets ASTM E84; Class 1 Fire Rated
- Meets AAMA 812-04
- Black color blends in with black piping and auto undercarriages

Use: Interior and exterior

DAP® Touch 'n Seal® Quick Cure 1-Component Sealant Straw Foam

STRAW & ADAPTER INCLUDED

A high performance, maximum expanding one-component sealant ideal for quickly filling gaps and voids. It reduces energy usage in commercial, industrial, agricultural and residential applications.

- Residential fire block sealant
- ICC-ES ESR-1926 approved
- Meets ASTM E84; Class 1 Fire Rated
- Reusable
- Interior and exterior, paintable/sandable
- Off-white foam

DAP® Touch 'n Seal® Fireblock Straw Foam Sealant

STRAW & ADAPTER INCLUDED

Flame-resistant, Class A fire-retardant foam sealant that exceeds testing standards. It is self-extinguishing and works by eliminating oxygen flow in service penetrations, where fire may spread.

- The only self-extinguishing formula on the market
- Flame resistant, all-purpose foam sealant
- Fills & seals service penetrations
- Blocks air infiltration reducing flame spread into walls & ceilings
- Excellent performance in modified ASTM E-814 & UL-1715 tests
- UL94 Flammability Test - pass best rating V-0
- Easy-to-identify orange color

Use: Interior and exterior, paintable/sandable

DAP® Touch 'n Seal® Quick Cure 1-Component Sealant

Use Quick Cure foam sealant to permanently air seal and insulate gaps and cracks to block drafts, moisture and insects while improving comfort and reducing energy usage in commercial, industrial, agricultural and residential applications. Use Quick Cure High Yield (HY) when high expansion is needed to fill and seal larger gaps & cracks. Use Reduced Expansion (RX) when requiring controlled dispensing rate and less post expansion.

- Residential fire block sealant
- ICC-ES ESR-1926 approved
- Meets ASTM E84; Class 1 Fire Rated
- Creates a durable, air-tight seal
- Prevents air, water, and pest infiltration
- Superior adhesion to common building materials
- Off-white foam

DAP® Wall & Cavity Wide Spray Aerosol Can

One-component spray foam with widespray applicator effectively seals out air and provides thermal insulation, saving on energy costs year-round. It features a patent-pending wide spray applicator with an adjustable nozzle for both horizontal and vertical applications. The foam works within a wide temperature range (40°F to 120°F) and dries to the touch in 7-12 minutes under normal conditions.

- Wide temperature range (40° F - 120° F)
- Includes a wide spray applicator with an adjustable nozzle
- Class A fire rated
- High closed cell content
- Interior and exterior, paintable/sandable

Ideal for: filling rim joists, touch-ups, and other targeted areas like basements, stud wall cavities, attics, and crawlspaces, it bonds to a variety of materials, including wood, masonry, metal, and drywall.

DAP® Wall & Cavity Wide Spray Canister

WITH
WIDESPRAY
APPLICATOR

DAP® Wall & Cavity Foam with Widespray Applicator is a portable, self-contained one-component polyurethane foam dispensing kit. It effectively air seal and insulates homes and buildings while enhancing R-Value. The patent-pending technology offers a broadcast spray solution similar to two-component systems, but in an easier to use one-component solution. Great for repairs, renovations and new installations.

- Pre-mixed formula that is always on ratio
- Responsive wide spray applicator that can spray horizontally and vertically
- Class-A fire rated
- Wide temperature range (40° F - 120° F)
- Save on energy costs
- High closed cell content
- Interior and exterior, paintable/sandable

Ideal for: Great for filling wall cavities, rim joists, attic & crawl spaces (excludes overhead spraying)

DAP® Black Foam Wide Spray Aerosol Can

One-component spray foam with widespray applicator effectively air seals and insulates. Its black color isn't just for aesthetics, it is UV resistant providing long-lasting protection against harsh sunlight. It enhances R-value, dampens noise, and withstands demanding environments like farming facilities, vehicles, and outdoor structures. Ideal for smaller projects or touch ups.

- UV & weather resistant
- Class-A fire rated
- Wide temperature range (45° F - 120° F)
- Air seals & insulates
- Nozzle rotates 360° for horizontal & vertical spraying

Use: Interior and exterior

DAP® Black Foam Wide Spray Canister

Portable, one-component polyurethane foam dispensing kit. It effectively air seals and insulates while enhancing R-Value and providing Class-A fire resistance. Its black color isn't just for aesthetics, it is UV resistant providing long-lasting protection against harsh sunlight. From insulating barns and sheds to sealing RVs, marine repairs, auto projects, and dampening noise in deer blinds, it offers unmatched versatility and durability. This product simplifies the process while delivering professional-grade results.

- UV & weather resistant
- Air seals & Insulates
- Wide temperature range (45° F - 120° F)
- Class-A fire rated
- Non-flammable blowing agent
- High closed cell content

Use: Interior and exterior

*Theoretical yield is used as an industry standard to represent the size of spray foam products. Theoretical yield calculations are performed in perfect laboratory conditions, without considering variations in application method and types. Actual output can be affected by a number of factors including application method, application type, temperature and humidity.

DAP® Touch 'n Seal® Foam Kit 200 Spray Foam Insulation Kit

A two-component, quick-cure, ICC certified closed cell foam that fills cracks, penetrations and cavities while sealing out air, dust, moisture and pests. It is suitable for use in commercial, residential, transportation and many other applications.

- Ready-to-use – contains everything needed
- Portable
- Easy to carry using Rip 'n Go handle
- Yields up to 200 Board Feet*
- ASTM E84 Class A fire rated
- Reduces sound transmission
- Does not shrink or settle

CPDS Series 2 –
Constant Pressure
Dispensing System**

Portable, constant pressure spray foam dispensing system that dispenses Class A fire retardant, thermal insulating and sound attenuating two-component polyurethane spray foam - up to 2-1/2 times as fast as foam kits.

- Ideal for mid-sized projects such as room additions, attics, rim joists, and crawl spaces
- Offers the convenience of Foam Kits with higher output and efficiency
- Application rate is adjustable and consistent
- Self-contained system does not require any additional equipment
- Disposable cylinders are easy to handle and change
- 100' Hose; foam applicator; on/off valves – fully assembled
- Conical nozzles (25 pack)
- Fan nozzles (25 pack)
- Extra foam applicator with 12" hose
- Protective cover
- Forced air heating unit
- Extra pressure supply hoses (2)
- Compatible with 1.75pcf CP-750 and 750FR HVAC foam kits
