

### **CMR648**

Version 1.07 Revision Date 13.08.2020

#### SECTION 1. Identification of the substance/mixture and of the company/undertaking

**Product identifier** 

Trade name CMR648

Synonyms Poly(propylene-ethylene), Ethylene-Propylene Copolymer, 1-

Propene-Ethylene Copolymer, 1-Propene Polymer with

Ethene

Relevant identified uses of the substance or mixture and uses advised against

Use Polymer for extrusion, injection moulding, blow moulding &

thermoforming applications.

Manufacturer or supplier's details

Company Sasol Chemicals, a division of Sasol South Africa Ltd

Address Sasol Place, 50 Katherine Street

Sandton 2090 South Africa

Telephone +27103445000

E-mail address sasolchem.info.sa@sasol.com

Emergency telephone number +44 (0)1235 239 670 (Europe, Israel, Africa, Americas)

+44(0)1235 239 671 (Middle East, Arabic African countries)

+65 3158 1074 (Asia Pacific) +86 400 120 6011 (China)

+27 (0)17 610 4444 (South Africa)

+61 (2) 8014 4558 (Australia)

## SECTION 2. Hazards identification

#### Classification of the substance or mixture

### REGULATION (EC) No 1272/2008

**Classification** Not a hazardous substance or mixture.

Label elements

REGULATION (EC) No 1272/2008

## **CMR648**

Version 1.07 Revision Date 13.08.2020

Not a hazardous substance or mixture.

Signal word : Not applicable

**Precautionary statements** 

Prevention NA No precautionary statement

Response NA No precautionary statement

Storage P403 + P235 Store in a well-ventilated place. Keep cool.

Disposal P501 Dispose of contents/ container to an approved waste disposal

plant.

### Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## SECTION 3. Composition/information on ingredients

## Substance

1-Propene, polymer with ethene

Contents: >= 99.00 - <= 100.00 %W/W

**CAS-No.** 9010-79-1 **Index-No. EC-No.** 

Print Date 13.08.2020 100000010724 2/8

### **CMR648**

Version 1.07 Revision Date 13.08.2020

### **SECTION 4. First aid measures**

#### Description of necessary first-aid measures

**Inhalation** Product does not release fumes at ambient temperatures. If

exposed to fumes from heated polymer move to fresh air

environment.

Skin contact At room temperature the product is not considered harmful

when in contact with skin. In case of skin contact with molten polymer immediately submerse the affected area in cold water

to cool down polymer.

Eye contact At room temperature the product is not considered hazardous

in contact with eyes. In case of eye contact with molten polymer, cool under running water for 3-5 minutes. Do not attempt to remove molten polymer. Get medical attention

immediately.

**Ingestion** At room temperature the product is not considered harmful

when swallowed.

Most important symptoms/effects, acute and delayed

Refer to SECTION 11

## SECTION 5. Firefighting measures

**Suitable extinguishing** Dry chemical. Carbon dioxide, Water spray.

media

**Special hazards arising** Substance evolves toxic gases when burned.

from the substance or

mixture

Special protective Wear self-contained breathing apparatus and protective suit.

equipment for firefighters

### SECTION 6. Accidental release measures

**Environmental precautions** No special environmental precautions required.

### **CMR648**

Version 1.07 Revision Date 13.08.2020

**Methods for cleaning up** Shovel into suitable container for disposal.

Reference to other sections Refer to section 8 and 13

## SECTION 7. Handling and storage

Safe handling advice No special handling advice required under normal conditions.

Molten polymer: Wear heat-resistant protective equipment.

Advice on protection

Keep away from heat and sources of ignition.

against fire and explosion

Requirements for storage

Keep away from direct sunlight. Keep away from heat.

areas and containers

**Advice on common storage** Keep in a cool, well-ventilated place.

#### SECTION 8. Exposure controls/personal protection

## Components with workplace control parameters

### NATIONAL OCCUPATIONAL EXPOSURE LIMITS

Contains no substances with occupational exposure limit values.

## **Exposure controls**

### **Engineering measures**

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Use only in an area equipped with explosion proof exhaust ventilation.

The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Ensure adequate ventilation.

### Personal protective equipment

Respiratory protection 
No personal respiratory protective equipment normally

required. In the case of respirable dust and/or fumes, use self-

### **CMR648**

Version 1.07 Revision Date 13.08.2020

contained breathing apparatus.

Hand protection No hand protection required under normal conditions. Molten

polymer: Wear heat-resistant gloves.

**Eye protection** No eye protection is required under normal conditions. Molten

polymer: Wear safety glasses with side shields.

**Skin and body protection**No special body protection is required under normal conditions.

Molten polymer: Wear heat-resistant protective clothing.

### SECTION 9. Physical and chemical properties

#### Information on basic physical and chemical properties

Form Solid form

State of matter Solid

Colour Translucent to white

Odour None to slightly waxy

Odour Threshold No data available

pH No data available

Melting point/range 130 - 170 ° C

130 - 170 ° C Melting point/range Flash point No data available No data available **Evaporation rate** Flammability (solid, gas) No data available Auto-ignition temperature No data available Lower explosion limit No data available Upper explosion limit No data available Vapour pressure No data available Relative vapour density No data available **Density** 0.88 - 0.92 g/cm3

Water solubility Insoluble

Partition coefficient: n- No data available

octanol/water

Viscosity, kinematic No data available

## SECTION 10. Stability and reactivity

### **CMR648**

Version 1.07 Revision Date 13.08.2020

Reactivity Stable under normal conditions. Continous heating above 160 °

C will lead to thermal oxidation.

**Chemical stability** Stable under recommended storage conditions.

**Possibility of hazardous** Strong oxidizing agents.

reactions

Conditions to avoid Heat, flames and sparks.

Materials to avoid Oxidizing agents.

**Hazardous decomposition** Carbon dioxide, Carbon monoxide, Hydrocarbons, Hydrocarbon

products oxidation products such as acrolein, aldehydes & alcohols.

#### **SECTION 11. Toxicological information**

Acute oral toxicity No data available Acute inhalation toxicity No data available Acute dermal toxicity No data available Skin irritation Potential skin irritant. Eye irritation No data available Sensitisation No data available Repeated dose toxicity No data available Carcinogenicity No data available Mutagenicity No data available

Skin contact Molten polymer can cause severe burns in contact with skin

and eyes.

## SECTION 12. Ecological information

Toxicity to fish No data available

Toxicity to daphnia and other No data available

aquatic invertebrates

Toxicity to algaeNo data availableToxicity to bacteriaNo data availableToxicity to fishNo data availableChronic toxicity in aquaticNo data available

invertebrates

Biodegradability

No data available

Bioaccumulation

No data available

### **CMR648**

Version 1.07 Revision Date 13.08.2020

Other adverse effects No data available

### SECTION 13. Disposal considerations

Product Disposal should be in accordance with local, regional and

national legislations. Collect in plastic or metal containers for

disposal.

Packaging Dispose of spent product packaging responsibly and lawfully

with due consideration for health, safety and the

environment.

### **SECTION 14. Transport information**

Further Information Not classified as dangerous in the meaning of transport

regulations.

### SECTION 15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **SECTION 16. Other information**

### Full text of H-Statements.

This substance contains no components with H-statement.

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
