

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

SECTION 1. Identification of the substance/mixture and of the company/undertaking

Product identifier	
Trade name	Polyvinyl Chloride S7106
Synonyms	PVC, Vinyl Chloride Polymer, Chloroethylene Polymer, Polyvinyl Chloride
Relevant identified uses of the substance or mixture and uses advised against	
Use	Various flexible applications.
Manufacturer or supplier's details	
Company	Sasol Chemicals, a division of Sasol South Africa Ltd
Address	Sasol Place, 50 Katherine Street Sandton 2090 South Africa
Telephone	+27103445000
E-mail address	sasolchem.info.sa@sasol.com
Emergency telephone number	+44 (0)1235 239 670 (Europe, Israel, Africa, Americas) +44(0)1235 239 671 (Middle East, Arabic African countries) +65 3158 1074 (Asia Pacific) +86 10 5100 3039 (China) +27 (0)17 610 4444 (South Africa) 0800 112 890 RSA-Local only +61 (2) 8014 4558 (Australia)

SECTION 2. Hazards identification

Classification of the substance or mixture

REGULATION (EC) No 1272/2008

Classification

The substance or mixture is not classified according to the CLP regulation.

Label elements

REGULATION (EC) No 1272/2008

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

Not a hazardous substance or mixture.

Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3. Composition/information on ingredients

Substance

Polyvinyl chloride

Contents: ≥ 99.00 %W/W

CAS-No. 9002-86-2

Index-No.

EC-No.

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

SECTION 4. First aid measures

Description of necessary first-aid measures

Inhalation	Move to fresh air. Obtain medical attention.
Skin contact	The molten product can cause serious burns. Cool skin rapidly with cold water after contact with molten polymer.
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
Ingestion	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Obtain medical attention.

Most important symptoms/effects, acute and delayed

Refer to SECTION 11

SECTION 5. Firefighting measures

Suitable extinguishing media	Dry chemical. Carbon dioxide,
Special hazards arising from the substance or mixture	Substance evolves toxic gases when burned.
Special protective equipment for firefighters	Wear self-contained breathing apparatus and protective suit.

SECTION 6. Accidental release measures

Personal precautions	No special precautions required.
Environmental precautions	Prevent product from entering drains.
Methods for cleaning up	Shovel into suitable container for disposal. The material taken up must be disposed of in accordance with regulations.
Reference to other sections	Refer to section 8 and 13

SECTION 7. Handling and storage

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

Safe handling advice Handle in accordance with good industrial hygiene and safety practice. No special handling advice required under normal conditions.

Advice on protection against fire and explosion Keep away from flames, sparks or other ignition sources. Avoid buildup of dusts. Protect against static.

Requirements for storage areas and containers Keep away from heat.

Advice on common storage Keep in a cool, well-ventilated place.

SECTION 8. Exposure controls/personal protection

Components with workplace control parameters

NATIONAL OCCUPATIONAL EXPOSURE LIMITS

Components	Type	Control parameters	Update	Basis
POLYVINYL CHLORIDE (PVC), RESPIRABLE DUST	TWA	5 mg/m ³	1995	South Africa RELs
POLYVINYL CHLORIDE (PVC), TOTAL INHALABLE DUST	TWA	10 mg/m ³	1995	South Africa RELs

Polyvinyl Chloride may contain vinyl chloride monomer in the order of 0.1 –1 ppm by weight. Vinyl chloride is a cancer suspect agent

The occupational exposure limits for vinyl chloride is

8-Hours TWA OEL-RL: 7 ppm

Annual TWA OEL-CL: 3 ppm

Recommended atmospheric exposure limits for vinyl chloride are

TWA OEL-RL: 5 ppm

TWA OEL-RL: 15 mg/m³

The South African Occupational Health and Safety Act under the Hazardous Chemical Substances Regulation specifically regulate the exposure to hazardous chemical substances. It is necessary that the handlers and processors of Polyvinyl Chloride be familiar with these regulations. None of the information

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

presented in this material safety datasheet should be construed to contradict or supersede the applicable South African regulations.

Exposure controls

Engineering measures

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Use only in an area equipped with explosion proof exhaust ventilation.

The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits.

Ensure adequate ventilation.

Personal protective equipment

Respiratory protection	In the case of hazardous fumes, wear self contained breathing apparatus.
Hand protection	Impervious gloves
Eye protection	Safety glasses with side-shields
Skin and body protection	Protective suit. Safety shoes
Hygiene measures	Wash hands before breaks and immediately after handling the product.

SECTION 9. Physical and chemical properties

Information on basic physical and chemical properties

Form	Solid
State of matter	Solid; at 20 ° C; 1,013 hPa
Colour	White
Odour	Odourless
Odour Threshold	No data available
Boiling point/range	No data available
Flash point	No data available
Evaporation rate	No data available

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

Flammability (solid, gas)	No data available
Relative vapour density	No data available
Bulk density	300 - 650 kg/m ³
Water solubility	Insoluble

SECTION 10. Stability and reactivity

Reactivity	Stable under normal conditions. To avoid thermal decomposition, do not overheat.
Chemical stability	No data available
Possibility of hazardous reactions	Strong oxidizing agents.
Conditions to avoid	Heat, flames and sparks.
Materials to avoid	Oxidizing agents.
Hazardous decomposition products	Hydrogen chloride gas (HCL).Carbon monoxide (CO).Carbon dioxide,

SECTION 11. Toxicological information

Further Information	No known toxicological effects
----------------------------	--------------------------------

SECTION 12. Ecological information

Other adverse effects	This product has no known ecotoxicological effects.
------------------------------	---

SECTION 13. Disposal considerations

Product	Disposal should be in accordance with local, regional and national legislations.
Packaging	Dispose of spent product packaging responsibly and lawfully with due consideration for health, safety and the environment.

SECTION 14. Transport information

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

Further Information

Not classified as dangerous in the meaning of transport regulations.

SECTION 15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

USA TSCA Inventory	All chemical constituents are listed in: USA TSCA Inventory (See chapter 3)
Canadian Domestic Substances List (DSL)	All chemical constituents are listed in: Canadian Domestic Substances List (DSL) (See chapter 3)
Australian Inv. of Chem. Substances (AICS)	All chemical constituents are listed in: Australian Inv. of Chem. Substances (AICS) (See chapter 3)
New Zealand Inventory of Chemicals (NZIoC)	All chemical constituents are listed in: New Zealand Inventory of Chemicals (NZIoC) (See chapter 3)
Jap. Inv. of Exist. & New Chemicals (ENCS)	All chemical constituents are listed in: Jap. Inv. of Exist. & New Chemicals (ENCS) (See chapter 3)
Japan. Industrial Safety & Health Law (ISHL)	All chemical constituents are listed in: Japan. Industrial Safety & Health Law (ISHL) (See chapter 3)
Korea. Existing Chemicals Inventory (KECI)	All chemical constituents are listed in: Korea. Existing Chemicals Inventory (KECI) (See chapter 3)
Philippines Inventory of Chemicals and Chemical Substances (PICCS)	All chemical constituents are listed in: Philippines Inventory of Chemicals and Chemical Substances (PICCS) (See chapter 3)
China Inv. Existing Chemical Substances (IECSC)	All chemical constituents are listed in: China Inv. Existing Chemical Substances (IECSC) (See chapter 3)

SECTION 16. Other information

Full text of H-Statements.

This substance contains no components with H-statement.

Safety Data Sheet

Polyvinyl Chloride S7106

Version 1.01

Revision Date 28.05.2020

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
