

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

SECTION 1. Identification of the substance/mixture and of the company/undertaking

| | |
|--|---|
| Product identifier | |
| Trade name | Low Density Polyethylene LM2065 |
| Synonyms | Low Density Polyethylene, Low Density Polyethylene Homopolymer, LDPE |
| Relevant identified uses of the substance or mixture and uses advised against | |
| Use | Various applications |
| Manufacturer or supplier's details | |
| Company | Sasol Chemicals, a division of Sasol South Africa Ltd |
| Address | Sasol Place, 50 Katherine Street Sandton 2090 South Africa |
| Telephone | +27103445000 |
| E-mail address | sasolchem.info.sa@sasol.com |
| Emergency telephone number | +44 (0)1235 239 670 (Europe, Israel, Africa, Americas) +44(0)1235 239 671 (Middle East, Arabic African countries) +65 3158 1074 (Asia Pacific) +86 10 5100 3039 (China) +27 (0)17 610 4444 (South Africa) 0800 112 890 RSA-Local only +61 (2) 8014 4558 (Australia) |

SECTION 2. Hazards identification

Classification of the substance or mixture

REGULATION (EC) No 1272/2008

Classification

The substance or mixture is not classified according to the CLP regulation.

Label elements

REGULATION (EC) No 1272/2008

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

Not a hazardous substance or mixture.

Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3. Composition/information on ingredients

Substance

Polyethylene

Contents: ≥ 99.00 %W/W

CAS-No. 9002-88-4

Index-No.

EC-No.

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

SECTION 4. First aid measures

Description of necessary first-aid measures

| | |
|---------------------|---|
| Inhalation | Product does not release fumes at ambient temperatures. If exposed to fumes from heated polymer move to fresh air environment. |
| Skin contact | At room temperature the product is not considered harmful when in contact with skin. In case of skin contact with molten polymer immediately submerge the affected area in cold water to cool down polymer. |
| Eye contact | At room temperature the product is not considered hazardous in contact with eyes. In case of eye contact with molten polymer, cool under running water for 3-5 minutes. Do not attempt to remove molten polymer. Get medical attention immediately. |
| Ingestion | If swallowed, call a poison control centre or doctor immediately. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. |

Most important symptoms/effects, acute and delayed

Refer to SECTION 11

SECTION 5. Firefighting measures

| | |
|--|--|
| Suitable extinguishing media | Dry chemical. Carbon dioxide, Water spray. |
| Special hazards arising from the substance or mixture | Substance evolves toxic gases when burned. |
| Special protective equipment for firefighters | Wear self-contained breathing apparatus and protective suit. |

SECTION 6. Accidental release measures

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

Methods for cleaning up Shovel into suitable container for disposal. The material taken up must be disposed of in accordance with regulations.

Reference to other sections Refer to section 8 and 13

SECTION 7. Handling and storage

Safe handling advice No special handling advice required under normal conditions.
Molten polymer: Wear heat-resistant protective equipment.

Advice on protection against fire and explosion Keep away from flames, sparks or other ignition sources. Avoid buildup of dusts. Protect against static.

Requirements for storage areas and containers Keep away from direct sunlight. Keep away from heat.

Advice on common storage Keep in a cool, well-ventilated place.

SECTION 8. Exposure controls/personal protection

Components with workplace control parameters

NATIONAL OCCUPATIONAL EXPOSURE LIMITS

Contains no substances with occupational exposure limit values.

Exposure controls

Engineering measures

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Use only in an area equipped with explosion proof exhaust ventilation.

The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits.

Ensure adequate ventilation.

Personal protective equipment

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

| | |
|---------------------------------|--|
| Respiratory protection | No personal respiratory protective equipment normally required. In the case of respirable dust and/or fumes, use self-contained breathing apparatus. |
| Hand protection | No hand protection required under normal conditions. Molten polymer: Wear heat-resistant gloves. |
| Eye protection | No eye protection is required under normal conditions. Molten polymer: Wear safety glasses with side shields. |
| Skin and body protection | No special body protection is required under normal conditions. Molten polymer: Wear heat-resistant protective clothing. |

SECTION 9. Physical and chemical properties

Information on basic physical and chemical properties

| | |
|----------------------------------|--|
| Form | Solid |
| State of matter | Solid; at 20 ° C; 1,013 hPa |
| Colour | White |
| Odour | Odourless |
| Odour Threshold | No data available |
| Melting point/range | 110 - 125 ° C |
| Boiling point/range | No data available |
| Flash point | No data available |
| Evaporation rate | No data available |
| Flammability (solid, gas) | No data available |
| Auto-ignition temperature | 349 ° C |
| Relative vapour density | No data available |
| Density | 0.900 - 0.940 g/cm ³ ; 20 ° C |
| Water solubility | Insoluble |

SECTION 10. Stability and reactivity

| | |
|---------------------------------|--|
| Reactivity | Stable under normal conditions. To avoid thermal decomposition, do not overheat. |
| Chemical stability | No data available |
| Possibility of hazardous | Strong oxidizing agents. |

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

reactions

| | |
|---|----------------------------------|
| Conditions to avoid | Heat |
| Materials to avoid | Oxidizing agents. |
| Hazardous decomposition products | Carbon monoxide, Carbon dioxide, |

SECTION 11. Toxicological information

| | |
|----------------------------|--------------------------------|
| Further Information | No known toxicological effects |
|----------------------------|--------------------------------|

SECTION 12. Ecological information

| | |
|------------------------------|---|
| Other adverse effects | This product has no known ecotoxicological effects. |
|------------------------------|---|

SECTION 13. Disposal considerations

| | |
|------------------|--|
| Product | Disposal should be in accordance with local, regional and national legislations. |
| Packaging | Dispose of spent product packaging responsibly and lawfully with due consideration for health, safety and the environment. |

SECTION 14. Transport information

| | |
|----------------------------|--|
| Further Information | Not classified as dangerous in the meaning of transport regulations. |
|----------------------------|--|

SECTION 15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

| | |
|--|--|
| USA TSCA Inventory | All chemical constituents are listed in: USA TSCA Inventory (See chapter 3) |
| Canadian Domestic Substances List (DSL) | All chemical constituents are listed in: Canadian Domestic Substances List (DSL) (See chapter 3) |

| Jap. Inv. of Exist. & New Chemicals (ENCS) | All chemical constituents are listed in: Jap. Inv. of Exist. & New Chemicals (ENCS) (See chapter 3) |
| Japan. Industrial Safety & Health Law (ISHL) | All chemical constituents are listed in: Japan. Industrial Safety & Health Law (ISHL) (See chapter 3) |
| Korea. Existing Chemicals Inventory (KECI) | All chemical constituents are listed in: Korea. Existing Chemicals Inventory (KECI) (See chapter 3) |
| Philippines Inventory of Chemicals and Chemical Substances (PICCS) | All chemical constituents are listed in: Philippines Inventory of Chemicals and Chemical Substances (PICCS) (See chapter 3) |
| China Inv. Existing Chemical Substances (IECSC) | All chemical constituents are listed in: China Inv. Existing Chemical Substances (IECSC) (See chapter 3) |

SECTION 16. Other information

Full text of H-Statements.

This substance contains no components with H-statement.

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Safety Data Sheet

Low Density Polyethylene LM2065

Version 1.01

Revision Date 25.05.2020

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
