x

8.1. Risk Management Procedures

The Board of Directors is responsible for ensuring that SimCorp has appropriate and adequate procedures in place to monitor, measure and manage the company's risks, and that such procedures are firmly embedded throughout the company's organization. The Board of Directors shall once a year assess the company's risk exposure, and review systems and procedures for risk monitoring and reporting, and the company's insurance coverage. This assessment shall ensure that the company inter alia:

- Develops and maintains an understanding throughout the organization of the company's strategic and operational goals, and identifies critical success factors for achieving such goals.
- Analyses the risk and consequences of the company's failure to achieve the strategic and operational goals.
- Analyses the company's most important business activities with a view to identifying related risks, including accounting and liquidity risks.

In connection with the risk assessment, the Board of Directors shall define the company's willingness to accept risk and evaluate the company's risk management, including insurance, currency, and investment policies. The risk management policy shall define the company's risks and specify methods to monitor, eliminate, control, or hedge risk. Finally, the risk management policy shall define the extent to which the company's independent auditors should contribute to assessing the company's material risks and risk management measures.

8.1. Risk Management Procedures

In the management commentary SimCorp shall disclose information about significant activities related to the company's risk management.

The Committee recommends that the board of directors establishes a whistleblower scheme, giving the employees and other stakeholders the opportunity to report serious violations or suspicion thereof in an expedient and confidential manner, and that a procedure is in place for handling such whistleblower cases.

8.2. Whistleblower Policy

SimCorp has established a whistleblower system as a means of increasing focus on transparency. The whistleblower system allows employees, management, members of the Board of Directors of SimCorp and other stakeholders of SimCorp (such as supplier representatives, clients or SimCorp shareholders) who believe they have become aware of actions or omissions that could damage SimCorp whether financially, reputationally or in some other way to pass on this information to a whistleblower e-mail account which can be found at
→ <https://www2.simcorp.com/whistleblownetwork>

The Board of Directors will appoint two representatives (currently the Chairman of the Audit and Risk Committee and an independent member of the Board) of SimCorp to act as gatekeepers in respect of the whistleblower account. The Board of Directors is responsible for appointing a representative who possesses the professional qualifications and integrity in order to provide for a credible and independent administration of the Whistleblower Policy.

Any information received via the whistleblower system and which by the gatekeeper is not considered clearly un-founded may be passed on to the CEO and the Chairman of the Board of Directors who will then consider the appropriate measures. Reports and questions that are received via the whistleblower system are treated confidentially.

In order to (i) prevent passing on of information that is clearly un-founded; and (ii) to make sure that the receiver of the information is not personally involved in the matter in question, the Board of Directors shall instruct the gatekeeper to apply a criterion of materiality when determining which information is passed on, while at same time taking into account whom the information is intended for.
