

LUXEMBOURG
STOCK EXCHANGE

Maxime AERTS

**Chief Information Officer,
Member of the Executive Committee**

Maxime Aerts is the Chief Information Officer and a Member of the Executive Committee of the Luxembourg Stock Exchange (LuxSE), where he leads the organisation's IT strategy and digital transformation, as well as the development of technology solutions powering its market infrastructure and services.

With over 25 years of experience in financial technology and capital markets, Maxime has led complex digital transformation programmes, developed data-driven solutions, and overseen the modernisation of operational infrastructures. He has deep expertise in product strategy, regulatory technology, and fund distribution, with a strong focus on aligning business objectives with digital solutions. Known for his strategic leadership at the intersection of finance and technology, Maxime excels in managing cross-functional teams and driving innovation in highly regulated environments.
