

The title of the document is Experience Makers with Katie Pollington

The document language is English

Video begins

What's your Sodexo Live! story so far?

Katie speaks

So I started with Sodexo Live! in May 2016 as Staffing Coordinator just before Royal Ascot. There was a lot of buzz going on, it was really exciting. I really understand the meaning when people talked about the post-Royal Ascot blues.

What have been your favorite Sodexo Live! moments so far?

Katie speaks

In January 2017 I was promoted to Staffing Manager which was a really proud moment for me because the last 7 months of all my hard work had been recognized.

In October 2018 I was lucky enough to be funded and supported through my CIPD level 7 qualification in Human Resources Management. It wasn't something that I needed for my current role but I was fortunate that they wanted to put me through it for any further career aspirations that I may have.

What do you love about working at Sodexo Live?

Katie speaks

I love working at Sodexo Live! for many reasons, most importantly it is the people. As I said, they're passionate, they really care about what they do. There is such an environment of team spirit and personally I would be very happy if the rest of my career was with Sodexo Live!
