Will a Traffic Management Plan (TMP) be in operation during the proposed works?

Yes No

A TMP is required to be in operation during the proposed works.

If you require further information in relation to working within the road reserve of an arterial road, you should contact the VicRoads regional office or telephone 13 11 71. (Note: refer s99A of the Road Safety Act 1986 and the Code of Practice for Worksite Safety – Traffic Management)

Will major traffic control devices requiring a “Memorandum of Authorisation” be used with the TMP?

Yes No

Examples of major traffic control devices include speed limit signs, traffic signals (incl portable traffic signals, etc.)

(Note: refer to the Road Safety (Traffic Management) Regulations 2009 and the Code of Practice for Worksite Safety – Traffic Management)

Will closure of the road or part of the road to vehicular traffic be required?

Yes No

Please provide any other relevant traffic information

Provide a sketch of the stock crossing location (show direction of North) and details of all existing road signage, and a description of the proposed works

Scan and include the diagram/sketch provided by applicant on the application form

Provide road reservation details *(e.g. vegetation, surface material, surface condition, drainage)*

Note: These conditions will be attached to the Stock Crossing permit

PERMIT CONDITIONS FOR THE USE OF A ROAD AS A STOCK CROSSING

General Conditions

1. All stock crossing signs must comply with VicRoads' own standard contract specification sections 714 and 860 for construction and installation and must satisfy VicRoads' technical requirements in relation to legend style and size and other sign face elements.
2. Signs and lights must be installed at the approved location(s) in accordance with the Manual for Traffic Control at Stock Crossings, the Code of Practice for Worksite Safety - Traffic Management and normal safe working practices having regard at all times to the safety of road users and the protection of property.
3. The applicant must bear all costs relating to the design, manufacture, installation and maintenance of the signs.
4. The applicant must maintain the sign(s) in a safe and clean condition to the satisfaction of the coordinating road authority.
5. The coordinating road authority reserves the right to cancel this permit, and, without compensation, remove the sign(s) authorised under this permit if:
 - any sign is not installed or maintained to the coordinating road authority's satisfaction; or
 - any sign is considered by the coordinating road authority to be a safety hazard; or
 - any condition of this permit is breached; or
 - the business for which this stock crossing permit was granted changes in operation significantly from the time of approval of this permit.
6. The applicant must not alter the approved sign face design, without the written approval of the authorised officer of the coordinating road authority.
7. The applicant must immediately notify VicRoads if he/she proposes to remove the signs and/or lights, at the permit holder's expense, if the stock crossing ceases to be required.
8. All necessary repairs and restoration to the road, including the road reserve and ancillary works resulting from work or use shall be carried out to the satisfaction of, and at no cost to the coordinating road authority.
9. Any existing operational drains within the road reserve affected by works or use shall be restored to the satisfaction of the coordinating road authority.
10. All clearing of native vegetation, including trees and understory growth, shall comply with VicRoads, Council and Department of Environment, Land, Water and Planning (DELWP) requirements including the State Section of all Municipal Planning Schemes.
11. The road pavement shall be kept free of animal excrement, excess dirt and mud and kept in a clean and safe trafficable condition.
12. In the event that work is required to provide a service, e.g. electricity supply, across a road, a separate permit must be obtained for that work.
13. Failure to install any sign and/or lights to the coordinating road authority's satisfaction within 90 days of the date of the permit will result in the cancellation of the permit.

I hereby apply for a permit for the Installation of a Stock Crossing in order to move an animal across an arterial road in accordance with the Manual for Traffic Control at Stock Crossings and undertake to observe the conditions attached.
